Introduction to the Core Data and MOSIS Manual

This integrated manual contains sections relating to the Core Data and the Missouri Student Information System (MOSIS) Data Collection cycles. In addition to overview information, there are specific sections with screen prints, file layouts, code sets, exhibits, and links to other materials.

Answers to Frequently Asked Questions (FAQ) for both systems are being developed to allow you to search questions that have been asked by other users. Once available, the FAQ and other documents will be located on the [Core Data/MOSIS website](#). In addition, you may call the Department at 573-522-3207, option 2, if you have questions.

Core Data and MOSIS Overview

The Core Data System is a data collection system with integrated screens used to directly enter or update information from school districts or charters. Data in several Core Data screens are now populated from MOSIS.

MOSIS collects data at the individual level and derives from the data the counts for the aggregate collections. In MOSIS, data are standardized, collected, and presented such that the maximum use can be made for decision making and reporting. Reaching this goal demands high-quality data, managed accessibility, certification (sign-off that the data are correct and ready to use), interoperability, utility, affordability, and granularity (a level of detail that allows analysis and interpretation). *See Exhibit 1A for additional information about MOSIS.*

School districts and charters report data items in Core Data and MOSIS in six cycles during the year: beginning-of-the-year items in the August and October cycles; midyear items in the December, February, and April cycles; and end-of-the-year items in the June Cycle. MOSIS also collects data apart from these six cycles such as the Assessment Precode data. Information reported is based upon the most current data available.

After all items have been entered or updated for the appropriate cycle through Core Data or MOSIS, data are checked for edits. When all errors have been eliminated, the data are submitted to the Department of Elementary and Secondary Education (DESE). Warnings should be reviewed and appropriate corrections entered. Data submitted to the Department must be a true account of district or charter activities. A goal of the Department is to “collect the data once and use them many times, by many people, for many purposes.” Data items are entered only once and are collected at the lowest level to maximize their usefulness in decision making and compliance with various state and federal reporting requirements. *Refer to Exhibit 1 for Technical Information and Exhibit 37 for Core Data Screen and MOSIS File Crosswalks.*

Core Data and MOSIS Data Collection Cycles

There are six cycles in which districts and charters submit data to Core Data and MOSIS. MOSIS does collect data outside these cycles for such things as Assessment Precode. Below is a summary of the six standard cycles:

The **August Cycle Core Data** and **MOSIS** submissions are normally due August 15. **Core Data** includes information used to produce the School Directory, estimated ADA, planned school calendar data, and gifted education data. Data are reported on screens 02 – District Data; 02A – Charter Board Members; 03 – District Contact Personnel; 03A – Non LEA Charter Contact Personnel; 04 – District Directory; 06 – District Tax Data; 08 – Attendance Center; 10 – Planned School Calendar List, Planned Calendar Header, and Planned Calendar Detail; 25 – Gifted Education; and 39 – School Resource Officer. Screen 16 – Enrollment, Membership and Summer School is populated from MOSIS. **MOSIS** includes summer school enrollment and attendance data reported in the Student Enrollment and Attendance file.

The **October Cycle Core Data** and **MOSIS** submissions are due October 31, except for the Student Core file, which is due October 15. **Core Data** includes information about educator vacancies and kindergarten readiness testing methods. Data are reported on screens 21 – Educator Vacancy and 36 – Kindergarten Readiness. Screens 02 – District Data; 15 – Home School/Free and Reduced Lunch; 16 – Enrollment, Membership and Summer School; 18 – Educator; 20 – Course Assignment; and 22 – Sending School Courses & Enrollment are populated from MOSIS. **MOSIS** includes information about LEP census data, federal programs headcount, educators, courses and assignments, enrollment, and September membership. Data are reported in the Student Core, Educator Core, Educator School, Course Assignment, and Student Assignment files. DESE recommends certifying MOSIS files in the following order: 1) Student Core, 2) Educator, and 3) Assignment.

The **December Cycle Core Data** and **MOSIS** submissions are due December 15. **Core Data** and **MOSIS** include information required for federal special education reports. Screen 11 – Special Education Student Counts by Age is populated from MOSIS. Data are reported in the Student Core file.

The **February Cycle Core Data** and **MOSIS** submissions are due February 15. **Core Data** includes January membership, follow-up data on graduates, count of home-schooled students, count of students eligible for free or reduced lunch in accordance with state statutes, ending fund balances as of December 31, and new and expanding charter school data. Data are reported on screens 15 – Home School, 35 – December 31 Fund Balance, 35A – Charter Non LEA December Fund Balance, and 37 – New and Expanding Charter School Data. Screens 08 – Attendance Center; 15 – Free and Reduced Lunch; 16 – Enrollment, Membership and Summer School; 26 – Career Education Follow-up; 27 – Career Education Follow-up Sending School; and 29 – Postsecondary Adult Follow-up are populated from MOSIS. **MOSIS** includes January membership, follow-up data on graduates, and counts of students eligible for free or reduced lunch in accordance with state statutes. Data are reported in the Student Core and Student Graduate Follow-up files.

The **April Cycle MOSIS** submission is due April 30. **MOSIS** includes student demographic data that will be linked to the student's state assessment records. Data are reported in the Student Core file.

The **June Cycle Core Data** and **MOSIS** submissions are due June 30. **Core Data** end-of-year data are reported on screens 08 – Attendance Center; 10 – Actual School Calendar List, Actual Calendar Header, and Actual Calendar Detail; 18A – Educator Evaluation; 24A – Summer School Application; and 38 – Dyslexia Screening. Screens 09 – Discipline Incidents, 12 – Special Education Exiter Counts by Age, 13 – Secondary Headcount, 14 – Attendance, 14A – Resident II Attendance, 14B – Resident II GPA, 17 – Physical Fitness Assessment, and 24 – Summer School Courses & Enrollment are populated from MOSIS. **MOSIS** includes end-of-year data on discipline incidents, special education exiters, secondary headcount, attendance, resident II attendance and grade point average, physical fitness assessments, summer school courses & enrollment, career technical student organizations (CTSOs), the Armed Service Vocational Aptitude Battery (ASVAB), end-of-course exceptions, and state ID cleanup

for assessment records. Data are reported in the Student Core, Enrollment and Attendance; Student Discipline; Summer Course/Student Assignment; Student Course Completion; CTSO; ASVAB; EOC Exception Collection; and ID/CCR ID Cleanup files.

Login Procedure

The Core Data and MOSIS systems are accessed through the DESE Applications Sign-in page (which has replaced DESE Web Applications). This webpage provides restricted access based upon user ID and password validation. Only individuals who have been authorized by their district administrator through submission of a signed access request form or through the DESE Applications Security Manager (DASM) system (instructions can be found [here](#)) are allowed access. Due to confidentiality of student data included in the MOSIS system, a district PIN code is required for granting access. An individual may view, update, or submit data through these systems depending upon their level of authority.

See the section titled **DESE Applications Security Manager**, located in the pages following the June Cycle and preceding the Core Data/MOSIS Manual Exhibits, for further information regarding the DASM system.

DESE Applications Security Manager

The DESE Applications Security Manager (DASM) system gives the school district's administration control of their own DESE applications users. The security administrator or manager will manage the user IDs at the district level for individuals who need access to view, add, or submit data.

The security administrator or manager can manage user IDs and access levels through a variety of reports available in the DASM system. The security administrator/manager is able to grant or delete staff access at one of three levels: View, Data Entry, or Admin. View allows the individual to view the data in the application(s). Data Entry allows the individual to view and edit or enter data into the application(s). Admin has the ability to view, enter data, and submit the application(s).

The DASM **Reports** menu has two reports that the security administrator/manager can access: the User Report and the System Report. These two reports list individuals in the district by name or by function, and display name, ID, and access level. The reports are not used to edit information.

The **User Report** lists the system(s) an individual can access and their level of access (View, Data Entry, or Admin).

The **System Report** is a list of each system available, which user(s) can access the system, and their access role (View, Data Entry, or Admin).

The screenshot shows the DESE Applications Security Manager interface. At the top is the Missouri Department of Elementary & Secondary Education logo. Below the logo is a navigation bar with a search icon, a dropdown menu labeled 'Reports' (which is highlighted with a red box), 'DASM Training', 'Sort by code', 'DEPARTMENT OF ELEM AND SEC ED --- 500500', 'Application Menu', and 'Sign out'. The main heading is 'DESE Applications Security Manager'. Below this is a section titled 'Food and Nutrition Services Administrator' with a sub-header. The text states: 'Food and Nutrition Services (FNS) web applications only allow one administrator per education entity. FNS administrators have full access to view, enter, and submit FNS apps and claims. The following security roles are affected: FN APPS Admin, FN CLAIMS Admin, and FND Admin'. There are three dots below this text. At the bottom is a dark blue footer with the text 'Improving Lives through Education' and five icons: MO.gov, Privacy Statement, Data Acquisition Calendar, Help Center, and FAQs.

Technical Information

Forgotten or Unknown Usernames/Passwords

It is recommended that all districts have at least one designated security administrator responsible for user ID/password issues. This individual can assist district staff with user ID and password questions. Users may also click the Forgot Password and Forgot Username buttons located on the [DESE Applications Sign-in page](#) for assistance.

In order to strengthen security, accounts not accessed for five or more years are disabled. Instructions on how to reactivate the account may be accessed from the DESE Applications Sign-in page.

Another security safeguard disables accounts for 30 minutes after five failed password attempts. Users must wait 30 minutes and then establish a new password by clicking the Forgot Password/Username button and following the instructions.

For additional help, please send questions to dashelp@dese.mo.gov or call 573-522-3207, providing name, user ID, school district name, county-district code, and phone number with your request.

Use of the Back, Forward, and/or Refresh Toolbar Buttons

Please **do not** use the Back, Forward, or Refresh buttons when completing the DESE application information. Use of these buttons can cause unexpected results.

Web Accessibility for Users with Disabilities

Missouri websites follow the [Missouri IT Accessibility Standard](#), which follows the federal 508 web accessibility standards with just a couple of exceptions.

Most assistive technology devices now have JavaScript capability, but in the event a user must disable the use of JavaScript, DESE will provide human assistance for these users. For further assistance on this, please contact the web manager at webmgr@dese.mo.gov.

MOSIS Components

MOSIS has two components: a MOSIS Student Identifier (MOSIS ID) component for managing students' state IDs and the MOSIS Data Collection component for the submission of data to the state. *A good practice to follow is to update the MOSIS ID component before each MOSIS Data Collection cycle.*

MOSIS ID Component

The MOSIS ID component is a web-based application used by districts to create and maintain unique statewide student identification numbers for students. A state ID is required for **any** student served by a public school district or charter. A MOSIS state ID is required for all MOSIS data collections that include the collection of individual student data. The complete MOSIS ID manual is available [here](#).

The sole purpose of the MOSIS ID component is to maintain the state ID of the student. It is not used to associate that student with any entity and does not imply any type of ownership for the state ID. The MOSIS ID component captures a minimum set of data items about a student in order to ensure unique identification of the student. These fields are used to identify a student's MOSIS ID if one has already been assigned or to assign a MOSIS ID to a student who is new to Missouri schools.

MOSIS Data Collection verifies students against the MOSIS ID component. During this verification, the date of birth being submitted to the MOSIS Data Collection component is compared to the date of birth on file with the MOSIS ID component. Failure to match will result in an error message.

MOSIS Data Collection Component

The MOSIS Data Collection component is a web-based application that allows districts to submit, clean, and certify data being reported to the Department. There are also files for submission of data by postsecondary institutions related to Career Education. The MOSIS Data Collection component has many collections geared toward collecting record level data in order to populate some of the current Core Data screens such as Attendance, Discipline Incidents, Special Education Exiter Counts by Age, and Educator.

MOSIS Data Collection is built on the following assumptions:

- The reporting institution identifies, collects, and maintains data required by MOSIS locally and can report those data to MOSIS.
- The Department has assigned unique identification codes for every district, school, and public postsecondary institution in Missouri.
- Every student has a unique MOSIS ID.
- Data collected by MOSIS is used for multiple purposes based upon state and federal laws, rules, and information needs.
- MOSIS data are used for populating portions of the Core Data System, state and federal reporting, accountability, and funding purposes.
- Data items may be required, optional, conditional, or not allowed. Conditional data items are dependent upon value of other data elements. If an optional data element is reported, it will be validated and must meet MOSIS business rules.

MOSIS Data Collection Files

A MOSIS Data Collection file is a set of data elements which are submitted to the MOSIS Data Collection System. A goal of MOSIS is to maintain as few file layouts as possible while still collecting the data needed. Some of these files are collected multiple times, but with different data elements required.

MOSIS Data Collection File Design

Part of the MOSIS Data Collection design is to keep the files collected from districts and charters as constant as possible. This results in collecting the same set of data elements across many cycles, but only requiring a subset of those data elements in each cycle. The subset is dependent on what data are needed in that time frame.

As an example, student demographic data (Student Core) are collected five times a year. Each time a district reports these data they will use the same file format with all the same elements, but rules will determine which elements are required, conditional, or optional. Some of the data elements will not make sense at times of the year other than when they are required. If they are submitted, they must be in a format that can be validated.

MOSIS file layouts document the required data elements and the order in which they must appear in a file submitted to the MOSIS Data Collection System. This includes column name, required field, data type, field size, format, and definition. Fields may be required, optional, conditional, or not allowed, depending on the cycle. Status definitions of the fields are as follows:

- Required – Item must be submitted in current cycle.
- Optional – Item does not have to be submitted in current cycle.
- Conditional – Item may need to be submitted in current cycle if certain conditions exist.
- Not Allowed – Item cannot be submitted in current cycle.

The information provided about the files includes the item name, item number, cycle collected, code set, and item definition. Excel workbooks containing more detailed file layouts and business rules can be found on the [Core Data/MOSIS page](#).

Basic Steps of MOSIS Data Collection

Some basic steps to follow when submitting data to the MOSIS Data Collection System are listed below:

- Identify, collect, and enter data into local systems.
- Extract data from local systems for upload to MOSIS in the desired MOSIS formats.
- Validate data extracted from local systems.
- If necessary, merge extracted data into a district-level data set.
- Create trials by uploading data sets to the online MOSIS Data Collection System.
- Correct errors and review warnings in the MOSIS Data Collection trial(s).
- Certify or re-certify MOSIS Data Collection trial(s).

Districts and charters using the MOSIS Data Collection System will upload information and resolve edits presented to them. Upon the resolution of the edits the district or charter has the opportunity to certify the data.

Certification does the following:

- Marks the trial as certified. Only one certified trial can exist per collection, but it can be overwritten as needed.
- Indicates the district or charter wants the Department to use those data in fulfilling the collection's data requirement.
- Populates the Department data systems, i.e., Core Data.

These steps assume that the user already has access to the MOSIS system.

Core Data Collection Menu

The Core Data Collection Menu page allows authorized users to access the different data collection pages, categorized by cycles and reports, in Core Data. The submission status of the data for each cycle is displayed.

The Core Data Menu utilizes a "tree view" navigation system which is located on the left side of the page. It provides the ability to navigate quickly to a desired page in the menu, while also providing a visual reference of the location within the Core Data System. Clicking on the right arrows (►) or down arrows (▼) will expand or contract the navigation "tree view" displaying more or less detail as desired.

Core Data Collection Menu – Cycles and Layout

Selecting one of the cycles from the Data Collection Menu displays that cycle web page. These web pages provide a summary of the Errors and Warnings for each screen within the selected cycle, as well as Department contact and phone numbers. The appropriate school year must be selected from the drop-down list before selecting the cycle.

To display a page for data entry, the user should expand the section of the list for that cycle and select the desired page. If a cycle is CLOSED, the page will display as READ-ONLY.

There are six cycles in the Core Data Collection System – the August, October, December, February, April, and June cycles. On each page the cycle name (month), cycle status (open or closed for data entry), and submit status for each cycle is listed. Links to documents and other information are provided. Each page or screen also has information in a header and footer as indicated.

ITEM DEFINITIONS

Header Information

District – County-district code and name of school district. *(Display only, based on Logon User ID.)*

Year – School year for which data are collected. *(Select from drop-down list.)*

Status – Current status of district's data for cycle selected. *(Display only.)*

Location – Current location within the Core Data application. *(Display only.)*

Footer Information

Current User – Displays the user ID of the person currently using the page.

Last Modified User – Displays the user ID of the person who last updated data on the page.

Last Modified Date – Displays the date that data on the page were last updated.

Email Address – An email link where questions about the page can be sent.

Department's Mission Statement – Displays the Department mission statement.

For those screens that allow manual entry, a **Save** button is used to save all data on the screen. A cycle **Submit** button is used to indicate that all manual data entered for that cycle has been completed and is sent to the Department's database.

Note: Some screens that now have items populated from MOSIS will not have some buttons that years prior to June 2008 will have. These buttons, i.e., Add More Lines, Save, Delete, etc., were used for data entry but now are only used for updating information in those prior cycles.

Core Data Screen 06 – District Tax Data

The District Tax Data screen is used to report tax levies and assessed valuations. The information reported should reflect the final information certified to the school district by the State Auditor's Office (SAO) and the information the district reported to the county clerk(s) regarding tax rates for the current year.

Several items are "historical only" and cannot be updated by the district. If this information is incorrect, **provide written documentation** regarding the particular item. The information will be reviewed by the School Finance section to determine if changes to the permanent files are necessary.

Additional Tax Rate information is available on the School Finance website under Finance Topics & Procedures, which can be located [here](#).

If district takes a Proposition C rollback, the amount of Adjusted Rate-Total is equal to the Unadjusted Rate-Total minus Proposition C rollback amount. *(Item is system calculated and displayed.)*

This rate is set by the district's Board of Education at the tax rate hearing and can be found on the Estimate of Required Local Taxes, in the row for Total, column Adjusted Levy.

Prop C Rollback – Amount of Proposition C rollback calculated as the difference between the Unadjusted and Adjusted operating rates for school purposes (*Incidental and Teachers Funds*) to be rolled back in the current year. *(Item is system calculated and displayed.)*

This rate should match to the Prop C Reduction found on the district's certification letter from the State Auditor's Office (Operating Funds-Schools, Prop C Reduction) or on the district's State Auditor's Office Property Tax Calculator Summary Page Line G1, Less Required Proposition C (Sales Tax) Reduction.

The District's Operating Levy for School Purposes is less than \$3.43 – Section 163.021, RSMo requires a district with an operating levy for school purposes (Incidental plus Teachers Funds) less than \$3.43 to provide written notice to the Department whether the district provides an adequate education for the students of the district. Select Yes or No to provide written notice. ***(Displayed only when levy is less than \$3.43.)***

Voter Approved Waiver Prop C Rollback (Full/Partial/None) – Select from drop-down list. Indicate "F" if full waiver, "P" if partial waiver and "N" if no waiver of Proposition C rollback. *(Item displayed for waivers previously reported.)*

Voter Approved Waiver Prop C Rollback-Date (Month/Year) – Indicate the month and year the voters approved the partial or full waiver of Proposition C rollback. *(Item displayed for waivers previously reported.)*

Prop C Rollback Exempt for Financial Stress – For district that is identified in the current year as financially stressed, amount of calculated Proposition C rollback (*expressed in cents per \$100 assessed valuation*) that will **not** be rolled back by district in current year pursuant to Section 161.527, RSMo.

Career Ladder Rollback Exempt – Amount of Proposition C rollback (*expressed in cents per \$100 assessed valuation*) used for Career Ladder match.

Highest Oper Levy Subsequent 1980 for SB380 – Highest operating levy (*all funds but Debt Service Fund*) for district since 1980 as provided for in Senate Bill 380 (1993). *(Item is historical only.)*

1986 Tax Rate Ceiling for Operations – Maximum levy amount for operating funds that district could levy before Proposition C rollback in 1986 as approved by SAO. *(Item is historical only.)*

1987 Tax Rate Ceiling for Operations – Maximum levy amount for operating funds that district could levy before Proposition C rollback as amended for 1987 and approved by SAO. *(Item is historical only.)*

1987 Voter Approved Operating Levy Increase – Amount of 1987 voter approved levy increase for operating funds that took effect in 1987. *(Item is historical only.)*

1993 Incidental & Teachers Funds Adjusted Levy – Sum of 1993 Incidental and Teachers Funds adjusted levy. *(Item is historical only.)*

1995 Tax Rate Ceiling for Operations – Maximum levy amount for operating funds that district could levy before Proposition C rollback in 1995 as approved by SAO. *(Item is historical only.)*

1995 Voluntary Rollback for Operations – Amount of tax rate ceiling for operations that district did not levy in 1995. *(Item is historical only.)*

Current Year Assessed Valuation of District in Various Counties

Per Section 137.245, RSMo, the county clerk in all counties and the assessor in St. Louis City (*excludes Jackson, St. Charles, and St. Louis Counties*) shall forward a copy of the aggregate valuation listed in the tax book for each school district, except counties and municipalities maintaining their own tax or assessment books, to the governing body of the subdivision by July 20 of each year. In any county which contains a city with a population of one hundred thousand or more inhabitants which is located within a county of the first classification that adjoins no other county of the first classification (*Jackson County*), the clerk of the county shall provide the final revised assessed valuation listed in the tax book for each school district within the county to each such district on or before August 15 of each year. The clerk of any county of the first classification with a charter form of government and with more than six hundred thousand but less than seven hundred thousand inhabitants (*St. Louis County*) shall forward a copy of the aggregate valuation listed in the tax book for school districts within the county to each such district by July 15 of each year.

This total amount should match the amount reported on the district's State Auditor's Office Property Tax Calculator Form A Line 1, Current Year Assessed Valuation.

County – Number of county in which the district is located. *See Exhibit 7 for list of county identification numbers.*

Name – Name of county corresponding to county identification number.

Real Property – Assessed valuation of real property (*total of residential, horticultural/agricultural, and utility/commercial*) as provided by the county. Includes the real estate component for locally assessed railroad and utility property. (*If the county aggregate assessed valuation form shows one number for locally assessed railroad and utility assessed valuation, the district must obtain from the county the proper breakdown and add to the appropriate categories.*) Data are reported separately for each county in which the district is located. *This total amount should match the amount reported on the district's State Auditor's Office Property Tax Calculator Form A Line 1, Current Year Assessed Valuation Real Estate.*

Personal Property – Assessed valuation of personal property as provided by the county. Includes the personal property component for locally assessed railroad and utility property. (*If the county aggregate assessed valuation form shows one number for locally assessed railroad and utility assessed valuation, the district must obtain from the county the proper breakdown and add to the appropriate categories.*) Data are reported separately for each county in which the district is located.

Total County – Total assessed valuation of real and personal property for the given county. (*Item is system calculated and displayed.*)

Total-Real Property – Total assessed valuation of real property for all counties. (*Item is system calculated and displayed.*)

This total amount should match the amount reported on the district's State Auditor's Office Property Tax Calculator Form A Line 1, Current Year Assessed Valuation Real Estate.

Total-Personal Property – Total assessed valuation of personal property for all counties. (*Item is system calculated and displayed.*)

This total amount should match the amount reported on the district's State Auditor's Office Property Tax Calculator Form A Line 1, Current Year Assessed Valuation Personal Property.

Total-Total County – The total assessed valuation of all counties as used by the district to compute its various tax rates. (*Item is system calculated and displayed.*)

This total amount should match the amount reported on the district's State Auditor's Office Property Tax Calculator Form A Line 1, Current Year Assessed Valuation Real Estate.

1986 Real Property AV – Amount of real property assessed valuation reported by school district in 1986 on the 1986 Supplement #1 to the Application for State School Money. *(Item is historical only.)*

1989 Rate Adj (Agri Pers Prop Loss) – Number of cents from 1989 SAO Form C-1, Line 9, that district was **not** allowed to use in increasing its tax rate ceiling for operations. *(Item is historical only.)*

1995 Rate Adj (Apart Prop Loss) – Number of cents from 1995 SAO Form B-1, Line 5, that district was **not** allowed to use in increasing its tax rate ceiling for operations. The rate adjustment was due to reclassification of some commercial property to residential property. *(Item is historical only.)*

Adj For Blanket Change – Amounts for each of the three fields are based on information on file for 1986, 1987, 1989, 1995 and the current year's tax levies and assessed valuation. If district is entitled to an amount in any of these fields, amount will be system generated and displayed. District should check this calculation against its tax reduction (*Proposition C rollback*) worksheet, Line 1c, completed for the current year.

Rev. Loss - Other Real Prop Loss in AV – Requires additional separate documentation to School Finance Section - Revenue loss (if any) from decrease in real property other than blanket changes as result of general reassessment from 1986 to current year. Revenue loss is calculated by taking other real property assessed valuation declines divided by 100 and multiplied by 1986 tax rate ceiling for operations. Amount entered by school district will need written narrative explanation sent directly to School Finance Section when August data are submitted. Information will be reviewed by School Finance Section to see if inclusion is warranted.

Recoupment Uncollected in Prior Yrs – Requires additional separate documentation to School Finance Section – Revenue amount used by school district to identify revenue loss district failed to recoup in prior years. Revenue loss is calculated by taking lost assessed valuation divided by 100 and multiplied by current tax rate ceiling for operations. Amount entered by school district will need written narrative explanation sent directly to School Finance Section when August data are submitted. Information will be reviewed by School Finance Section to see if inclusion is warranted.

Prior Year Adj For Prop C Rollback – Amount (if any) district missed of its Proposition C rollback the prior year. Negative amount will be preceded by a negative sign (-). A district exceeding its rollback the prior year will have a negative number in this field. A district falling short in its rollback the prior year will have a positive number in this field. Check district's Proposition C compliance letter for prior year and district's tax reduction (*Proposition C rollback*) worksheet, Line 1b, completed for current year. *(Item is system generated.)*

Core Data Screen 08 – Attendance Center

The Attendance Center screen has two parts: attendance center header data and previous year's graduates' follow-up data. The attendance center header data items are updated in the August Cycle.

The second part of the Attendance Center screen, Follow-up on Previous Year's Graduates, is populated by MOSIS for districts that had graduates the previous year. Elementary districts and colleges **do not** complete the Follow-up on Previous Year's Graduates. Information about the graduates is reported by male/female, racial/ethnic categories (see *Exhibit 2*), and IEP. IEP includes only those graduates eligible under IDEA in the categories specified in Exhibit 18. All follow-up data are displayed from the MOSIS February Student Graduate Follow-up file. The Employment category includes only graduates that are reported as competitively employed. Competitive employment is comprised of compensation at or above minimum wage; comparable pay rate, benefits, and opportunities for advancement for persons with and without disabilities; and settings with others who are nondisabled.

Min/Week – Number of instructional minutes per week calculated from standard day length (SDL). *(Display only.)*

Core Data Screen 10A – Planned Calendar Header

The Calendar Header screen summarizes information relative to the planned and actual calendar in terms of meeting statutory days and hours of attendance. The header screen accepts data entry for the date the calendar was adopted, starting and closing dates, standard day length, minutes per week, number of periods each day, and minutes per period. The total days and total hours of attendance for the school year are system calculated from Screen 10B – Calendar Detail.

The Screen 10A – Calendar Header works together with the Screen 10B – Calendar Detail. A detail screen must be completed for every header screen or calculations will not be accurate. These screens should be completed in the following sequence:

- 1) Complete Screen 10 down to and including the planned starting/closing date. (*August Cycle*)
- 2) The next three data items (*August Cycle*) are system calculated and cannot be entered. The remaining data requested, beginning with the standard day length and ending with the minutes each period, must be entered.
- 3) Choose **Detail** to transfer to Screen 10B – Calendar Detail and complete all columns of information that apply to the planned calendar. (*August Cycle*)
- 4) Choose **Header** to return to Screen 10A – Calendar Header and review the results of the calculations and summary of data entered on Screen 10B – Calendar Detail.

Grade Span – Lowest and highest grade levels included in this calendar.

Half Day Indicator – “A” if calendar is for AM Kindergarten or pre-K, “P” for PM Kindergarten or pre-K, or blank if kindergarten or pre-K is full day.

Attending a 4 Day School Week – Indicator specifying that the district planned before the start of the school year to attend school four days a week. [Section 171.029, RSMo](#), allows a school district board of education to establish a four-day school week or other calendar consisting of less than 174 days in lieu of a five-day school week. School districts establishing less than a 174-day/five-day-a-week school calendar shall operate on a four-hour day minimum/eight-hour day maximum. A school day less than four hours or more than eight hours does not count toward the minimum 142 days or 1,044 hours of actual student attendance requirements. *(Entered in the August Planned Calendar.)*

Date Calendar Adopted (MM/DD/YYYY) – Date the school calendar was adopted by the board of education.

PLANNED CALENDAR – Report the school calendar as planned at the beginning of the school year. *(Reported in the August Cycle.)*

Planned Starting/Closing Date – Planned first day of school for students and planned last day of school for students (month/day format). If planned weather makeup days/hours are built in and the LEA plans to attend those days/hours even if not needed as weather makeup, then show the end date as being after the last planned weather makeup day/hour. If planned weather makeup days/hours are only going to be attended if needed, show the end date as the last day of planned attendance excluding planned makeup days/hours.

NOTE: The next five items are system calculated and displayed from data entered on Screen 10B – Calendar Detail; the user cannot enter data on Screen 10. Data shown will be blank or inaccurate until Screen 10B – Calendar Detail is accurately completed.

Planned Weather Makeup Hours – Total number of planned hours school will be held to make up for days missed due to inclement weather. Refer to [Section 171.033, RSMo](#), regarding inclement weather makeup days. *(Item is system calculated from Screen 10B – Calendar Detail.)*

Planned Total School Calendar Days/Hours – Total number of planned days school will be in session and total number of planned hours school will be in session. This should not include weather makeup days the district or charter does not plan to attend unless needed to make up weather-related hours. [Section 171.029, RSMo](#). *(Item is system calculated from Screen 10B – Calendar Detail.)*

Standard Day Length – Total number of hours between the starting time of the first class and the dismissal time of the last class, minus the time allowed for lunch and one passing time, and minus Channel One time, reported as a decimal equivalent, i.e., six hours and 15 minutes is reported as 6.2500 hours. Passing time and recess time supervised by certificated staff **are** included. The standard day length is reported to four decimal places. (See Exhibit 24A on how to determine the length of the school day.)

Minutes per Week – Number of instructional minutes per week calculated from standard day length (SDL).

Periods Each Day – Number of class periods in each standard day (reported only for high schools, departmentalized middle schools, and junior high schools).

Minutes Each Period – Average number of minutes each class period is held, **excluding** passing time (reported only for high schools, departmentalized middle schools, and junior high schools).

Core Data Screen 16 – Enrollment, Membership and Summer School

Actual summer school attendance, membership, and actual extended school year attendance are reported on an hourly basis on this screen in the August Cycle. All data are displayed from the MOSIS Student Enrollment and Attendance file.

In the October Cycle enrollment headcounts (resident and non-resident students attending the attendance centers) are reported by attendance center, grade, male/female, and racial/ethnic categories (*see Exhibit 2*). September membership counts by county are also reported in October. In the February Cycle, January membership counts are reported on this screen by attendance center by grade. All data are displayed from the MOSIS Student Core file.

Improving Lives through Education

Item Definitions – Screen 16-Enrollment, Membership and Summer School

Header Information – Refer to Core Data Collection Menu – Cycles and Layout (page preceding the August Cycle) for definition of District, Year, Status, Location, and Help.

School – Four-digit school number and name of attendance center. *(Select from drop-down list.)*

Grade – Grade level of the attendance center for which data are reported. Valid selections from the drop-down list are PK, PKP, PKA, K, KA, KP, and 1-12. Select “PK or K” for full-day pre-kindergarten or kindergarten, “PKA or KA” for AM pre-kindergarten or kindergarten, or “PKP or KP” for PM pre-kindergarten or kindergarten.

Summer School and Extended School Year (ESY) Hours Just Completed – Actual summer school attendance and membership hours and actual extended school year program attendance hours for students with disabilities as required by the Individualized Education Program (IEP) submitted in the August Cycle. Summer school students should be entered in the grade in which they are enrolled in the current school year (after summer school). ESY hours that are outside of the timeframe and days of the summer school program must be reported under the ESY hours, however, ESY hours running in conjunction with the summer school program can be reported as either ESY hours or summer school hours.

Attendance Regular – Actual number of summer school attendance hours by resident students *(excluding desegregation students)* in a program approved by the School Improvement Section.

Attendance Deseg In – Actual number of summer school attendance hours for incoming desegregation students.

Attendance Fed Lands – Actual number of summer school attendance hours for federal lands students.

Attendance TOTAL – Total regular, deseg in, and fed lands summer school attendance hours. *(Item is system calculated and displayed.)*

Attendance Deseg Out – Actual number of summer school attendance hours for outgoing desegregation students.

Membership Regular – Actual number of summer school membership hours of resident students *(excluding desegregation students)* in a program approved by the School Improvement Section. (Maximum hours all students enrolled by grade could attend if all students had perfect attendance.)

Membership Deseg In – Actual number of summer school membership hours for incoming desegregation students.

Membership Fed Lands – Actual number of summer school membership hours for federal lands students.

Membership TOTAL – Total regular, deseg in, and fed lands summer school membership hours. *(Item is system calculated and displayed.)*

Membership Deseg Out – Actual number of summer school membership hours for outgoing desegregation students.

Attendance Adjustment-Regular – Number of summer school attendance adjustment hours of resident students *(excluding desegregation students)*. *(Display only.)*

Attendance Adjustment-Deseg In – Number of summer school attendance adjustment hours for incoming desegregation students. *(Display only.)*

Attendance Adjustment-Fed Lands – Number of summer school attendance adjustment hours for federal lands students. *(Display only.)*

Attendance Adjustment-Total – Total regular, deseg registration in, and federal lands summer school students' adjustment hours. *(Item is system calculated.)*

Attendance Adjustment-Deseg Out – Number of summer school attendance adjustment hours for outgoing desegregation students. *(Display only.)*

ESY Attendance Regular – Actual number of ESY attendance hours by resident students *(excluding desegregation students)*.

ESY Attendance Deseg In – Actual number of ESY attendance hours for incoming desegregation students.

ESY Attendance Fed Lands – Actual number of ESY attendance hours for federal lands students.

ESY Attendance Total – Total regular, deseg in, and fed lands ESY attendance hours. *(Item is system calculated and displayed.)*

ESY Attendance Deseg Out – Actual number of ESY attendance hours for outgoing desegregation students.

September Enrollment – Headcount taken the last Wednesday of September of all resident and non-resident students in grades PK through 12 enrolled in the attendance center. Each student (part-time, full-time, or kindergarten) should be counted as one. Desegregation transfer students are reported as residents of the district in which they attend school. Enrollment for students attending alternative schools and area vocational schools should be reported at the students' regular school in their home district. *(Populated from MOSIS – October Cycle.)*

September Membership By County – Count of resident students in grades PK-12 taken the last Wednesday in September who are enrolled on the count day **and** in attendance at least one of the 10 previous school days, by grade at each attendance center. Students attending an alternative school or an area vocational school part of the day and their home school the remainder of the day should be counted as full-time students in the regular school in their home district. PKA or PKP students enrolled in a half-day PK program should be reported as 1.0 if they attend all possible hours for that program in a week. To receive full-time credit for a special education kindergarten student whose IEP calls for full-day attendance, report the membership in full-day kindergarten. Membership for Title I extended day kindergarten should not be reported. Part-time students are reported on FTE basis under part-time. For example, a part-time student enrolled four hours in a six-hour day equals 0.67 FTE. Membership of students for whom the home district pays full tuition is counted by the home district. Membership of students for which local tax effort only is paid is not reported by the home district, but is reported by the receiving district. **Membership of students for whom parents have paid tuition is not counted by any district.** *(Populated from MOSIS – October Cycle.)*

January Membership – Count of resident students in grades PK-12 taken the last Wednesday in January who are enrolled on the count day **and** in attendance at least one of the 10 previous school days, by grade at each attendance center. Students attending an alternative school or an area vocational school part of the day and their home school the remainder of the day should be counted as full-time students in the regular school in their home district. PKA or PKP students enrolled in a half-day PK program should be reported as 1.0 if they attend all possible hours for that program in a week. To receive full-time credit for special education kindergarten students whose IEPs call for full-day attendance, report the membership in full-day kindergarten. Membership for Title I

extended day kindergarten should not be reported. Part-time students are reported on FTE basis under part-time. For example, a part-time student enrolled four hours in a six-hour day equals 0.67 FTE. Membership of students for whom the home district pays full tuition is counted by the home district. Membership of students for which local tax effort only is paid is not reported by the home district, but is reported by the receiving district.

Membership of students for whom parents have paid tuition is not counted by any district. (*Populated from MOSIS – February Cycle.*)

MOSIS August Student Enrollment and Attendance

The August Cycle Student Enrollment and Attendance file is reported for summer school including a single record for each student attending summer school with the number of hours of summer school attendance.

This data populates Core Data Screen 16 – Enrollment, Membership & Summer School. *See Exhibit 37 for a detailed Core Data screen crosswalk.*

Reporting Student Enrollment and Attendance

Generally, the district that is providing instruction reports Student Enrollment and Attendance records. However, when a public school district pays tuition for a resident student to attend a non-public or private institution, the resident district reports the Student Core record. The residency status for these students is Resident II (R2). *Refer to Exhibit 21 for more information detailing Residency Status.*

August Cycle Student Enrollment and Attendance Key Data Concepts

- The August Cycle requires a single record for each student attending summer school.
- All students may be reported as Resident I.
- Out-of-state students living with a Missouri resident for the summer are required to be reported and must have a valid MOSIS ID.
- Students must be reported in a grade level that is valid for the building.

Linkages Between Files

Student Enrollment and Attendance to MOSIS ID: A student's state MOSIS ID and the date of birth in the Student Enrollment and Attendance file are matched with the MOSIS ID component. If they do not agree, an error message is posted. If your district receives this error, please follow these steps:

1. Verify date of birth.
2. Update MOSIS Data Collection file or MOSIS ID component.
3. If another district has incorrectly changed the date of birth in the ID system, notify them.
4. Contact the Department if a resolution cannot be found.

File Layout: August Cycle Student Enrollment and Attendance

A file layout or list of data elements that must be submitted has been established for every data file. These file layouts inform districts and charters what data must be submitted and in what format they must be submitted.

Below is a condensed representation of the file layout containing the item number, item name, reporting cycle, definition, and code set. Data requirements are indicated with R (required), O (optional), C (conditional), or N (not allowed). The detailed file layout containing all information including field type and length information can be found [here](#). Code sets may be referenced in Exhibit 38.

Student Enrollment and Attendance – August Cycle				
Item	Item Name	Aug	Definition	Code Set
005	Collection Version	R	Collection version should contain this value '2025Aug1.0StuEnrlAttnd' for the 2025 Student Enrollment Attendance August Cycle file layout.	
010	Current School Year	R	The ending year of the current school year. For example, use '2025' for the 2024-25 school year.	
015	Attending District Code	O	DESE-assigned six-digit county-district code for the district being exited.	DESE District Codes
020	Attending School Code	O	DESE-assigned four-digit school code for the school being exited.	DESE School Codes
025	Reporting District Code	R	DESE-assigned six-digit county-district code for the district reporting.	DESE District Codes
030	Reporting School Code	R	DESE-assigned four-digit school code where the student is being reported from.	DESE School Codes
035	Resident District Code	O	DESE-assigned six-digit county-district code for the district of residence. E.g., K-8 Resident II student attending high school in a different district would have Resident District Code populated with XXXXXX and the “Attending District Code” populated with YYYYYY representing the district of enrollment.	DESE District Codes
040	Resident School Code	O	DESE-assigned four-digit school code for the school of residence.	DESE School Codes
045	MOSIS Student ID	R	State-assigned student identifier. See https://dese.mo.gov/data-system-management/core-datamosis for more information.	
050	Local Student ID	O	Local student ID maintained by the district. Allows for data to be associated to local systems from DESE source systems.	
055	Legal Last Name	O	Legal last name.	
060	Legal First Name	O	Legal first name.	
065	Legal Middle Name	O	Legal middle name.	
070	Legal Name Suffix	O	Legal name suffix. E.g., Jr, Sr.	
075	Date of Birth	R	Date of birth.	

Student Enrollment and Attendance – August Cycle				
Item	Item Name	Aug	Definition	Code Set
080	Student Grade Level	R	Grade level as of the time data is being submitted unless otherwise specified.	Student Grade Level Codes
090	Residency Status	R	DESE-assigned residency status code for student being reported, e.g., Resident I, Resident II, Non-Resident.	Resident Status Codes
095	Regular Hrs Attended	N	Number of full-time and part-time hours the student spent in attendance at the attending district.	
100	Regular Hrs Absent	N	Number of hours the student was absent at the attending district.	
105	Remedial Hrs Attended	N	Number of remedial hours outside the normal school day in accordance with Sections 167.340, 167.640, and 167.645, RSMo, the student spent in attendance at the attending district.	
110	Hours in Session	N	Total number of actual hours student could have attended at the attending school if they attended the entire regular school year. In no case should this be less than 1,044 hours.	
115	Summer Attendance	R	Hours student attended summer school.	
120	Summer Membership	R	Total hours available for student to attend.	
125	Entry Date	R	Date student entered the attending school.	
130	Entry Code	N	Type of entry corresponding to the date the student entered the attending school.	Entry Codes
135	Exit Date	R	Date student left the attending school.	
140	Exit Code	N	Type of exit corresponding to the date the student left the attending school.	Exit Codes
145	Exit Destination District Code	N	DESE-assigned six-digit county-district code of the district the student was confirmed to be transferred to. This field is required if a student is marked as Transfer Out to another school or district in state. (If this field is left blank then exit destination comment must be provided.)	DESE District Codes
150	Exit Destination School Code	N	DESE-assigned four-digit school code of the school the student was confirmed to be transferred to. This field is required if a student is marked as Transfer Out to another school or district in state. (If this field is left blank then exit destination comment must be provided.)	DESE School Codes
155	Exit Destination Comment	N	Detailed comment describing student's exit from the school or district.	

Student Enrollment and Attendance – August Cycle				
Item	Item Name	Aug	Definition	Code Set
156	School Choice	N	Identify if a student is eligible, has been offered, applied for but was denied, or received School Choice. Children enrolled in a Title I school are eligible for school choice when their school is in the first and subsequent years of school improvement, corrective action, or restructuring. Any child attending such a school must be offered the option of transferring to a public school in the district not identified for school improvement, unless such an option is prohibited by state law. ESEA requires that in some circumstances priority in providing school choice be given to the lowest achieving children from low-income families.	School Choice Codes
157	Extended School Hours	R	Number of extended school year hours of special education and related services provided to a child with a disability. These hours are beyond the normal school year of the public agency, are in accordance with the child's IEP, are at no cost to the parents of the child, and meet the standards of the State Education Agency.	

October Cycle

The **October Cycle Core Data** and **MOSIS** submissions are due October 31, except for the Student Core file, which is due October 15. **Core Data** includes information about educator vacancies and kindergarten readiness testing methods. Data are reported on screens 21 – Educator Vacancy and 36 – Kindergarten Readiness. Screens 02 – District Data; 15 – Home School/Free and Reduced Lunch; 16 – Enrollment, Membership and Summer School; 18 – Educator; 20 – Course Assignment; and 22 – Sending School Courses & Enrollment are populated from MOSIS. **MOSIS** includes information about LEP census data, federal programs headcount, educators, courses and assignments, enrollment, and September membership. Data are reported in the Student Core, Educator Core, Educator School, Course Assignment, and Student Assignment files. DESE recommends certifying the October MOSIS files in the following order: 1) Student Core, 2) Educator, and 3) Assignment.

K-12 ELL (LEP) Students Enrolled – Number (headcount) of students in grades K-12 enrolled on the last Wednesday in September whose English language proficiency was below that of grade and age level peers. This does not include students that have exited the LEP category, even those in a two-year monitored status.

Pre-K ELL (LEP) Students Enrolled – Number (headcount) of children ages 3-5 enrolled in a district-funded program serving preschool children whose English language proficiency was below that of grade and age level peers.

K-12 ELL (LEP) Resident Students – Number (FTE) of students in grades K-12 enrolled on the last Wednesday in September and in attendance one of 10 prior school days whose English language proficiency was below that of grade and age level peers. This does not include students that have exited the LEP category, even those in a two-year monitored status.

Host School (Building Number) – Four-digit building number assigned to the LEA’s host school.

Host School (K-12 ELL [LEP] Students Enrolled) – Number (headcount) of students in grades K-12 who attend a host virtual school program full time, who were enrolled on the last Wednesday in September, and whose English language proficiency was below that of grade and age level peers. This does not include students that have exited the LEP category, even those in a two-year monitored status. This count is not included in other ELL (LEP) fields on this screen.

Host School (K-12 ELL [LEP] Resident Students) – Number (FTE) of students in grades K-12 who attend a host virtual school program full time, who are enrolled on the last Wednesday in September and in attendance one of 10 prior school days, and whose English language proficiency was below that of grade and age level peers. This does not include students that have exited the LEP category, even those in a two-year monitored status. This count is not included in other ELL (LEP) fields on this screen.

FTE – Counts of the support staff in requested categories reported on an FTE (full-time equivalent) basis. Nurses and aides reported in MOSIS Educator Data are not included here as they and other staff are counted with instructional staff (populated on Screen 18). (*Entered in Core Data – August Cycle.*)

Core Data Screen 15 – Home School/Free and Reduced Lunch

The Federal Programs Headcount is used to collect the number of students ages 5-17 who reside in the district and are eligible for free or reduced lunch documented through the application process using federal eligibility guidelines aligned with the National School Lunch Program or through the direct certification process and used by federal programs. The count is the number as of the last Wednesday in September which is reported in the October Cycle. The data are displayed from the MOSIS Student Core file.

The Home School/Free and Reduced Lunch screen is also used to collect the number of students as of the last Wednesday in January in two additional categories and is reported in the February Cycle.

Populated from MOSIS February Cycle

Item Definitions – Screen 15-Home School/Free and Reduced Lunch

Header Information – Refer to Core Data Collection Menu – Cycles and Layout (*page preceding the August Cycle*) for definition of District, Year, Status, Location, and Help.

Home School Students – Number of school-aged children who reside in the district; who have not received a diploma; whose parents or guardians have filed a declaration as provided in Section 167.042, RSMo, indicating they are being home schooled; and who do not attend a public, private, or parochial school. Children for whom declarations have not been filed as provided in statute should not be included in this count. Schools will receive a distribution of funds for special education services as a result of this count. Declarations of home schooling must be maintained or be accessible by the school to substantiate this count of children. Parents or guardians cannot be required to file a declaration. (Charters will not report this information.)

The following items are displayed from the MOSIS Student Core file:

Federal Programs Headcount – Headcount taken the last Wednesday in September of children ages 5-17 inclusive (as of prior October 1) who reside in the district, whose eligibility for free or reduced lunch is documented through an application process using federal eligibility guidelines aligned with the National School Lunch Program, and who do not attend a private or parochial school or are not home schooled. **Report all eligible students regardless of whether or not they actually eat breakfast/lunch.** (*Desegregation students are counted by the district in which the student resides.*)

Free Lunch – Headcount of students documented through the application process using federal eligibility guidelines aligned with the National School Lunch Program or through the direct certification process as eligible for free lunch taken the last Wednesday in September by county of residence who meet age requirement previously described.

*If the LEA and/or building participates in CEP, the LEA should report all students in the LEA and/or building as Free Lunch.

Reduced Lunch – Headcount of students documented through the application process using federal eligibility guideline aligned with the National School Lunch Program as eligible for reduced lunch taken the last Wednesday in September by county of residence who meet age requirement previously described.

Unreduced Lunch – Headcount of students not eligible for free or reduced lunch documented through an application process using federal eligibility guidelines aligned with the National School Lunch Program taken the last Wednesday in September by county of residence who meet age requirement previously described.

Total – Total students eligible for free and reduced lunch by county of residence. (*Item is system calculated and displayed.*)

PK Eligible for State Aid Count – Headcount taken of resident students ages 5-18 as of October 1 of the current school year who are in grades K-12 that were enrolled on the count day, the last Wednesday of September, whose eligibility for free and reduced lunch has been documented through the application process using federal eligibility guidelines or through the direct certification process aligned with the National School Lunch Program (or if participating in the Community Eligibility Program [CEP] all students between the ages of 5-18, by October 1, who are in grades K-12 and are enrolled on the count day), multiplied by the applicable CEP percentage (if a CEP district), then multiplied by 8 percent. Students are counted regardless of whether or not they actually eat breakfast/lunch. (*Please note that the PK percentage has changed from 4 percent to 8 percent, starting with school year 2024-25.*)

Free and Reduced Lunch Headcount – Headcount of resident students ages 5-18, by October 1, in grades K-12 pulled from the October Student Core MOSIS file whose eligibility for free and reduced lunch has been documented through the application process using federal eligibility guidelines or through the direct certification process aligned with the National School Lunch Program (or if participating in CEP all students ages 5-18, by October 1, who are in grades K-12 enrolled on the count day).

CEP Percentage – If a district or charter school that participates in CEP, the district's or charter school's calculated percent of Free and Reduced Lunch State FTE to ADA for the year prior to electing CEP to represent the number of pupils who qualify for free and reduced lunch between the ages of 5-18 by October 1. *(Item is system calculated and displayed.)*

Calculated Free and Reduced Headcount – The calculated free and reduced lunch count, which represents the number of pupils who qualify for free and reduced lunch between the ages of 5 and 18, by October 1, who are in grades K-12 who were enrolled on the count day on the last Wednesday in September. If a non-CEP district, calculated number will be the same as the Free and Reduced Headcount. *(Item is system calculated and displayed.)*

Total Number of PK Students Eligible to be Claimed for State Aid – The calculated Free and Reduced Headcount that is multiplied by 8 percent to equal the maximum headcount of prekindergarten pupils that can be claimed for the Foundation Formula. *(Please note that the PK percentage has changed from 4 percent to 8 percent, starting with school year 2024-25.) (Item is system calculated and displayed.)*

Select School – Click button to display data for the school that is entered in the text box.

Resident II F&RL – Click button to display report of districts reporting Resident II data displayed on screen.

State FTE – Full-time equivalency (FTE) count taken the last Wednesday in January of resident students enrolled in grades K-12 and in attendance one of the 10 preceding school days whose eligibility for free or reduced lunch is documented through the application process using federal eligibility guidelines or through the direct certification process aligned with the National School Lunch Program. (Desegregation students are considered residents of the district in which the students are educated.) **Students are counted regardless of whether or not they actually eat breakfast/lunch.** An eligible student in KA or KP is to be reported as .5 FTE. Students for whom the Department does not distribute state aid are not counted, i.e., students in preschool, the Parents as Teachers Program, or state schools. If the LEA and/or building participates in CEP, the LEA should report all students in the LEA and/or building as Free Lunch. *(Populated from MOSIS – February Cycle.)*

Item Definitions – Screen 16-Enrollment, Membership and Summer School

Header Information – Refer to Core Data Collection Menu – Cycles and Layout (*page preceding the August Cycle*) for definition of District, Year, Status, Location, and Help.

School – Four-digit school number and name of attendance center. (*Select from drop-down list.*)

Grade – Grade level of the attendance center for which data are reported. Valid selections from the drop-down list are PK, PKP, PKA, K, KA, KP, and 1-12. Select “PK or K” for full-day pre-kindergarten or kindergarten, “PKA or KA” for AM pre-kindergarten or kindergarten, or “PKP or KP” for PM pre-kindergarten or kindergarten.

Summer School and Extended School Year (ESY) Hours Just Completed – Actual summer school attendance and membership hours and actual extended school year program attendance hours for students with disabilities as required by the Individualized Education Program (IEP) submitted in the August Cycle. Summer school students should be entered in the grade in which they are enrolled in the current school year (after summer school). ESY hours that are outside of the timeframe and days of the summer school program must be reported under the ESY hours, however, ESY hours running in conjunction with the summer school program can be reported as either ESY hours or summer school hours. (*Populated from MOSIS – August Cycle.*)

September Enrollment – Headcount taken the last Wednesday of September of all resident and non-resident students in grades PK through 12 enrolled in the attendance center. Each student (part-time, full-time, or kindergarten) should be counted as one. Desegregation transfer students are reported as residents of the district in which they attend school. Enrollment for students attending alternative schools and area vocational schools should be reported at the students’ regular school in their home district.

Male Black – Male Black or African American enrollment by grade for attendance center.

Male White – Male White enrollment by grade for attendance center.

Male Hispanic – Male Hispanic or Latino Ethnicity enrollment by grade for attendance center.

Male Asian – Male Asian enrollment by grade for attendance center.

Male Indian – Male American Indian or Alaska Native enrollment by grade for attendance center.

Male Pacific Islander – FTE of Native Hawaiian or Other Pacific Islander male employees in all categories.

Male Multiracial – FTE of Multiracial (Demographic Race Two or More Races) male employees in all categories.

Male TOTAL – Total Male Black or African American, White, Hispanic or Latino Ethnicity, Asian, American Indian or Alaska Native, Native Hawaiian or Other Pacific Islander, and Multiracial (Demographic Race Two or More Races) grade level headcounts entered. (*Item is system calculated and displayed.*)

Male Resident – Male resident enrollment by grade for attendance center. (*Desegregation transfer students are reported as residents of the district in which they attend school.*)

Male N-Resident – Male non-resident enrollment by grade for attendance center.

Female Black – Female Black or African American enrollment by grade for attendance center.

Female White – Female White enrollment by grade for attendance center.

Female Hispanic – Female Hispanic or Latino Ethnicity enrollment by grade for attendance center.

Female Asian – Female Asian enrollment by grade for attendance center.

Female Indian – Female American Indian or Alaska Native enrollment by grade for attendance center.

Female Pacific Islander – FTE of Native Hawaiian or Other Pacific Islander female employees in all categories.

Female Multiracial – FTE of Multiracial (Demographic Race Two or More Races) female employees in all categories.

Female TOTAL – Total Female Black or African American, White, Hispanic or Latino Ethnicity, Asian, American Indian or Alaska Native, Native Hawaiian or Other Pacific Islander, and Multiracial (Demographic Race Two or More Races) grade level headcounts entered. *(Item is system calculated and displayed.)*

Female Resident – Female resident enrollment by grade for attendance center. *(Desegregation transfer students are reported as residents of the district in which they attend school.)*

Female N-Resident – Female non-resident enrollment by grade for attendance center.

Total Sept. Enrollment-Total – Total Male and Female grade level headcounts entered. *(Item is system calculated.)*

Total Sept. Enrollment-Resident – Total Male and Female resident enrollment by grade for attendance center. *(Desegregation transfer students are reported as residents of the district in which they attend school.)*

Total-Sept. Enrollment N-Resident – Total Male and Female non-resident enrollment by grade for attendance center.

September Membership By County – Count of resident students in grades PK-12 taken the last Wednesday in September who are enrolled on the count day **and** in attendance at least one of the 10 previous school days, by grade at each attendance center. Students attending an alternative school or an area vocational school part of the day and their home school the remainder of the day should be counted as full-time students in the regular school in their home district. PKA or PKP students enrolled in a half-day PK program should be reported as 1.0 if they attend all possible hours for that program in a week. To receive full-time credit for a special education kindergarten student whose IEP calls for full-day attendance, report the membership in full-day kindergarten. Membership for Title I extended day kindergarten should not be reported. Part-time students are reported on FTE basis under part-time. For example, a part-time student enrolled four hours in a six-hour day equals 0.67 FTE. Membership of students for whom the home district pays full tuition is counted by the home district. Membership of students for which local tax effort only is paid is not reported by the home district, but is reported by the receiving district. **Membership of students for whom parents have paid tuition is not counted by any district.**

County – Number of county for September membership count is displayed after each line is completed. See *Exhibit 7 for list of county identification numbers.*

Sept. Membership Full Time – Count of resident full-time students (*excluding desegregation students*) taken last Wednesday in September by grade at each attendance center for each county.

Sept. Membership Part Time – Part-time (*FTE basis*) resident membership count (*excluding desegregation students*) taken last Wednesday in September by grade at each attendance center for each county. (*See above example of calculation.*)

Sept. Membership Deseg In – Count (*FTE basis*) of incoming desegregation students taken last Wednesday in September by grade at each attendance center for each county.

Sept. Membership Fed Lands – Count (*FTE basis*) of federal lands students taken last Wednesday in September by grade at each attendance center for each county.

Sept. Membership Total – Total full-time, part-time, deseg in, and fed lands September membership by county. (*Item is system calculated and displayed.*)

Sept. Membership Deseg Out – Count (*FTE basis*) of outgoing desegregation students taken last Wednesday in September by grade at each attendance center for each county.

Total Sept. Membership Full Time – Count of resident full-time students (*excluding desegregation students*) taken last Wednesday in September by grade at each attendance center for each county.

Total Sept. Membership Part Time – Part-time (*FTE basis*) resident membership count (excluding desegregation students) taken last Wednesday in September by grade at each attendance center for each county. (*See above example of calculation.*)

Total Sept. Membership Deseg In – Count (*FTE basis*) of incoming desegregation students taken last Wednesday in September by grade at each attendance center for each county.

Total Sept. Membership Fed Lands – Count (*FTE basis*) of federal lands students taken last Wednesday in September by grade at each attendance center for each county.

Total Sept. Membership Total – Total full-time, part-time, deseg in, and fed lands September membership by county. (*Item is system calculated and displayed.*)

Total Sept. Membership Deseg Out – Count (*FTE basis*) of outgoing desegregation students taken last Wednesday in September by grade at each attendance center for each county.

January Membership – Count of resident students in grades PK-12 taken the last Wednesday in January who are enrolled on the count day **and** in attendance at least one of the 10 previous school days, by grade at each attendance center. Students attending an alternative school or an area vocational school part of the day and their home school the remainder of the day should be counted as full-time students in the regular school in their home district. PKA or PKP students enrolled in a half-day PK program should be reported as 1.0 if they attend all possible hours for that program in a week. To receive full-time credit for special education a kindergarten student whose IEPs call for full-day attendance, report the membership in full-day kindergarten. Membership for Title I extended day kindergarten should not be reported. Part-time students are reported on FTE basis under part-time. For example, a part-time student enrolled four hours in a six-hour day equals 0.67 FTE. Membership of students for whom the home district pays full tuition is counted by the home district. Membership of students for which local tax effort only is paid is not reported by the home district, but is reported by the receiving district. **Membership of students for whom parents have paid tuition is not counted by any district.** (*Populated from MOSIS – February Cycle.*)

Core Data Screen 18 – Educator

The Educator screen is used to report data items about each educator including: (1) personnel requiring a certificate; (2) aides/paraprofessionals, ancillary personnel and parent educators funded by state or federal programs or used to meet classification standards; and (3) administrators involved with instructional programs. Data are selected by entering the Social Security Number or the last name of the educator or by clicking the drop-down list. Information is divided into two portions. The top portion includes race, sex, highest degree, years of experience, extended contract duration, career ladder, regular term salary, extended contract salary, extra duty salary, minimum salary supplement, minimum salary days worked, late hire and early termination dates, and comments. All data are displayed from the MOSIS Educator file.

The bottom portion includes building number, position code, FTE, prorated salary, and career education data. A separate line is displayed for each building, position code, or approved career education position. Each line on the bottom portion of the screen has an associated Screen 20 with at least one course/assignment. Click the >> button to display the associated Course Assignment data (Screen 20). Click the Screen 18 button to return to the associated Educator data (Screen 18).

Specific instructions regarding educator reporting can be found in the following exhibits: Reporting Educators (Exhibit 35), ESEA Federal Programs including Title I (Exhibit 15), Special Education (Exhibit 16), Early Childhood Education (Exhibit 17), Gifted Programs (Exhibit 25), Career Education (Exhibit 27), Supervised Employment (Exhibit 28), and School Age Care/Afterschool (SAC/A) Programs (Exhibit 29).

Item Definitions – Screen 18-Educator

Header Information – Refer to Core Data Collection Menu – Cycles and Layout (*page preceding the August Cycle*) for definition of District, Year, Status, Location, and Help.

School – Four-digit school number and name of attendance center. (*Select from drop-down list.*)

Educator – Name of educator. (*Select from drop-down list.*) [**Align Educator with Position.**]

Position – Position code of educator's assignments (*see Exhibit 3*). (*Select from drop-down list.*)

Prgm Typ – Program type code of approved career education program (*see Exhibit 9*). (*Select from drop-down list.*)

SSN – Social Security Number of the educator. (*Enter number and press Tab to select educator.*)

Last Name – Last name of the educator. (*Enter name and press Tab to choose initial educator displayed in drop-down list.*)

Search – Click to search for an educator based on selection.

Edits – Click button to display list of potential data errors and/or warnings related to data displayed.

Certification – Click button to display educator's certificate(s).

Approved Courses – Click button to display list of approved career education courses for the district by building and program type.

Social Security Number – Social Security Number of the educator will appear from selection above.

Name (L, F, M) – Last name, first name, and middle initial of educator.

Race – Race of educator (*see Exhibit 2*).

Sex – Sex of educator (Male, Female).

Highest Degree – Highest degree of educator (*see Exhibit 8*).

Years Experience Total – Total number of years' experience educator has in all public school systems including the current year.

Years Experience Missouri – Total number of years' experience educator has in Missouri public school systems including the current year. **To be counted as one year**, the contract must be for at least one half of the week and at least one half of the school year.

Years Experience District – Total number of years' experience educator has in current district including the current year. **To be counted as one year**, the contract must be for at least one half of the week and at least one half of the school year.

Regular Term Salary – Educator's regular term salary (excluding minimum salary supplement, baseline salary grant, and career ladder supplement) based upon the FTE of an approximate nine-month teaching contract except for administrators (position codes 10 and 20). Administrator's salaries should include all compensation (e.g., base salary, tax sheltered annuities, vehicle allowance, etc.). The salary should correspond with the FTE. (If an educator is employed full-time for a portion of the year, such as seven months, report the salary on the nine-month basis.) Board-paid insurance, summer school pay, and other fringe benefits are not included. If a position is filled temporarily by a substitute (position code 60), show the full salary normally paid for that position.

Career Ladder Stage – State Career ladder stages (1, 2, or 3) of participating educators. Enter "1" for Stage I, enter "2" for Stage II, enter "3" for Stage III.

Career Ladder Supplement – Career ladder supplement dollar amount that corresponds to career ladder stage. *(Item is system displayed from dollar amount entered on Screen 02 – District Data.)*

Extra Duty Salary – Salary for all activities that generate additional pay beyond the regular term salary except for extended contract salary, summer school pay, and the career ladder and minimum salary supplements. *(Include salary for time outside the regular school day.)*

Extended Contract Days – Number of extra days an educator has contracted to perform services for the district beyond regular contract duration reported on Screen 02 – District Data, if applicable. *(Employees with 12-month contracts may show 260 days minus the regular contract duration.)*

Extended Contract Salary – Extra salary that a teacher, counselor, librarian, or any position except administrator (position codes 10 and 20) receives for working more than a nine-month term.

Min Salary Supplement – Annualized state-paid supplemental salary received by a teacher, counselor, or librarian to bring the salary up to the state minimum salary level.

Baseline Salary Grant – Total salary supplement provided by the Teacher Baseline Salary Grant Program (100% of the grant covered salaries) or the prorated share of the grant if there is a Late Hire or Early Termination date. (The 16% for grant covered benefits is not reported in MOSIS.) If the prior year salary schedule was utilized for the Baseline Salary Grant, the district or charter must report the salary based on the prior year schedule (after applying the appropriate step and lateral movement) in the regular term salary/salary fields on the MOSIS October Educator Core and School files. The salary amount should match what was submitted in the Baseline Salary Grant application in the Compliance Plan system. *(Item is system calculated and displayed.)*

Fiscal Agent – County-district code number of the fiscal agent. Fiscal agent is the district that provides the salary. The code number 999-999 may be used to represent an agency other than a public school with the name of the agency entered in the Comments area.

Total Salary – Total of regular term salary, extended contract salary, extra duty salary, baseline salary grant, career ladder supplement, and minimum salary supplement. *(Item is system calculated and displayed.)*

Total FTE – Full-time equivalency is the percent of time an educator is serving in all building locations in the district. The total FTE is the sum of all detail FTEs. *(Item is system calculated and displayed.)*

Total Minutes – Total minutes of all assignments reported for educator on Screen 20 – Course & Assignment.

Min. Salary Days Worked – Total number of contract days worked during the regular term by an educator receiving a minimum salary supplement.

Late Hire – Date (month/day) educator was hired if later than start of regular school term.

Early Termination – Date (month/day) educator terminated services if earlier than end of regular school term.

Comments – Free-form notes used to report district where services are provided if different from reporting district or other non-standard information.

Email – Email address of educator.

DETAIL

20  – Click button to move to Screen 20 for the indicated educator.

School No./Name – Four-digit school number and name of attendance center.

Position – Position code of educator's assignment (*see Exhibit 3*). Description of position code is displayed by system.

FTE – Full-time equivalency is the percent of time an educator works in associated attendance center reported as a decimal. To determine FTE, divide the number of minutes per week spent at each building location by the number of minutes per week required for full FTE (1.00) for that position code according to the standard day length reported on Screen 10 – Calendar Header. Before- or after-school teaching assignments (delivery system H) minutes are reported but are not included in calculating the FTE. *(Total FTE should be less than or equal to 1.00.)*

Salary – Salary educator receives for the associated position and attendance center including only regular term salary and extended contract salary. *(System calculated unless two or more different position codes are entered for educator.)*

Baseline Salary Grant – Salary supplement provided by the Teacher Baseline Salary Grant Program (100% of the grant covered salaries) or the prorated share of the grant if there is a Late Hire or Early Termination date. (The 16% for grant covered benefits is not reported in MOSIS.) If the prior year salary schedule was utilized for the Baseline Salary Grant, the district or charter must report the salary based on the prior year schedule (after applying the appropriate step and lateral movement) in the regular term salary/salary fields on the MOSIS October Educator Core and School files. The salary amount should match what was submitted in the Baseline Salary Grant application in the Compliance Plan system. *(Item is system calculated and displayed.)*

Late Start – Date (month/day) assignment started if after start of school.

Early End – Date (month/day) assignment ended if before end of school.

****CAREER EDUCATION COURSES ONLY****

Mth – Total number of months educator is contracted for a career education program. (Note: 180 days equal nine months. Assignments above this that equal four weeks will equal one additional month. If more than two weeks, round up; if two weeks or less, round down. Examples: $9\frac{1}{4} = 9$, $9\frac{1}{2} = 9$, $9\frac{3}{4} = 10$, $10\frac{3}{4} = 11$)

Prgm-Typ – Program type code of approved career education program (*see Exhibit 9*).

CTD – Career education time devoted. The number of hours a person teaches approved career education classes over the total number of periods taught in a school day (excluding planning time) equals the fraction of time devoted to the approved program. (Examples: [a] An educator teaches 5 approved classes and has 1 preparatory period. There are 6 periods in the school day. The time devoted to the program is 5/5. [b] An educator spends 3 periods a day in an approved class, 3 periods in a non-reimbursable class, and has 1 preparatory period. There are 7 periods in the school day. The time devoted to this program is 3/6.) *(Item is system calculated and displayed.)*

Core Data Screen 20 – Course Assignment

The Course Assignment screen contains an educator's course and assignment data, which includes regular instructional or administrative assignments, along with both planning time and travel time between buildings. Items reported include course number, sequence, grade, semester, program code, delivery system, minutes per week, units of credit, and enrollment.

There is a Course Assignment data screen corresponding to each detail line on Screen 18 – Educator. This screen is accessed through Screen 18 by clicking the “>>” button on the appropriate detail line. If more detail lines are required on this screen, click the Add More Lines button.

Specific instructions are provided for ESEA Federal Programs including Title I (Exhibit 15), Special Education (Exhibit 16), Early Childhood Education (Exhibit 17), State Approved Gifted Programs (Exhibit 25), Career Education (Exhibit 27), Supervised Employment (Exhibit 28), and School Age Care/Afterschool (SAC/A) Programs (Exhibit 29).

All data displayed are from the MOSIS Course Assignment file.

Comments – Free-form notes used to indicate: (1) job titles for Course 887900, (2) course titles for “Other” (xxxx99) courses, (3) supplemental assignment for Course 880000, (4) teachers assisted by an aide/paraprofessional, (5) aide/paraprofessional assisting a teacher, or (6) other non-standard information.

DETAIL

LINE – A sequential number for each line assigned by the system.

COURSE NUM – Course code that identifies assignment (*see Exhibit 10*). Every assignment must be identified by a course code except pre-kindergarten, kindergarten, and elementary classes in self-contained classrooms. If a teacher has more than one grade in a self-contained elementary classroom or is teaching morning and afternoon pre-kindergarten or kindergarten classes, show as separate assignments.

COURSE NAME – Course name abbreviation (*see Exhibit 10*). (*Item is displayed by system.*)

SEQ – Sequence number that identifies the content of courses taught at more than one level (*see Exhibit 11*). If only one level of course content is offered, leave SEQ blank.

GR – Grade level at which curriculum for the specific course is designed to be taught (*see Exhibit 12*). Grade level should reflect the grade at which the course curriculum is meant to be offered; **not necessarily describe the students in the classroom**. For example, if General Science is offered as a ninth grade class, it should be reported as grade nine even though some 10th or 11th grade students may be in the classroom. Conversely, a Physics class offered as a junior level (or third high school year) course that contains advanced standing freshmen and/or sophomores should be coded grade 11 (not grade 13).

S – Semester (blank or 0 – full year, 1 – first semester, 2 – second semester). **Leave blank if this is a full-year course.*

PR – Program code that identifies special funding or approval (*see Exhibit 13*).

DS – Delivery system. Instructional delivery method (*see Exhibit 14*).

CC – The combined class indicator is used to report classes of two or more different subjects or course sequence levels (or grade levels for self-contained elementary classes) that are taught during the same time period by the same teacher. Each set of combined classes is reported with the same combined class indicator number.

MINS – Minutes per week for class/assignment. (Student passing time and Channel One are not included.)

CRD – Credit. Units of high school credit granted for assignment.

ENR – Enrollment. Number of students served in assignment (excluding adult career education students). Report enrollment only in teaching assignments. For PAT enrollment, report number of families served. For ECSE assignments, adjust the enrollment number to reflect end-of-year caseloads in April of each year.

****CAREER EDUCATION COURSES ONLY****

Columns under this heading are related to career education funded courses only. Both adult and secondary students are included. *See Exhibit 2 for the definition of each racial/ethnic category.*

M – Number of male students served in assignment including adults.

F – Number of female students served in assignment including adults.

B – Number of Black or African American students served in assignment including adults.

W – Number of White students served in assignment including adults.

H – Number of Hispanic or Latino Ethnicity students served in assignment including adults.

A – Number of Asian students served in assignment including adults.

I – Number of American Indian or Alaska Native students served in assignment including adults.

P – Number of Native Hawaiian or Other Pacific Islander students served in assignment including adults.

M – Number of Multiracial (Demographic Race Two or More Races) students served in assignment including adults.

H – Number of students with disabilities served in assignment including adults (*see Exhibit 23*).

D – Number of disadvantaged students served in assignment including adults (*see Exhibit 23*).

G – Number of potential graduates (seniors) enrolled in the career education assignment/course.

A – Number of adult students enrolled in the career education assignment/course.

****NON-CAREER EDUCATION ONLY****

LATE START – Date course is added after beginning of school year **or** filled for first time after beginning of school year, **or** an individual replaces original course educator after beginning of school year.

EARLY END – Date course is eliminated prior to end of school year, **or** individual is transferred out of position prior to end of school year leaving position vacant, **or** individual is replaced in position with another individual prior to end of school year.

Item Definitions – Screen 21-Educator Vacancy

Header Information – Refer to Core Data Collection Menu – Cycles and Layout (page preceding the August Cycle) for definition of District, Year, Status, Location, and Help.

Educator Vacancy (Yes/No) – Select “Yes” from drop-down list if district had one or more vacant educator positions (filled or unfilled) for the current year. Select “No” from drop-down list if district had no vacancies in the current school year.

Initial Vacant FTE – Full-Time Equivalent (FTE) positions vacant for current school year. All positions, filled and unfilled, are included.

Number of Applicants – Number of applicants for vacant positions in each certification area.

Applicants with Approp. Cert. – Number of applicants with appropriate certification for vacant positions in each certification area.

Degree of Shortage – Perception of the supply of available teachers as compared with number of positions vacant. Valid entries are the numbers 1 through 5 using the descriptions below:

- 1 – Considerable Surplus** – Many applicants available, inquiries received frequently.
- 2 – Some Surplus** – More applicants than jobs, applicants easy to locate, inquiries received often.
- 3 – Balanced Supply** – Adequate number of available applicants.
- 4 – Some Shortage** – Fewer applicants than positions available.
- 5 – Considerable Shortage** – Applicants very difficult to locate for available positions.

FTE filled with Approp. Cert. – FTE positions filled by applicants with appropriate certification.

FTE filled with Less Than Fully Cert. – FTE positions filled by a substitute teacher.

FTE Altered Positions – FTE positions altered (eliminated or changed to another position, e.g., German instead of French) as the result of an unfilled vacancy.

FTE Still Vacant – FTE positions currently vacant.

Edits – Click button to display list of potential data errors and/or warnings related to data displayed.

Submit – Click button to submit the screen.

Core Data Screen 22 – Sending School Courses & Enrollment

The Sending School Courses & Enrollment screen is used to report units of credit, for classification purposes, by school districts which send students to neighboring districts or colleges for academic, alternative, or career education courses not included in their own curriculum. Students participating in classes through instructional TV are reported as attending the site of the instructor. (Districts which operate an area career center report their resident students enrolled in career education classes on this screen. Career education itinerant programs report students as being sent to the area career center using this screen.) This information will be used to determine the appropriate districts for follow-up on Screen 27. This screen contains the sending school district number/name, sending school building number/name, and receiving school district or college providing instruction number/name. Specific data items relating to course information include course code number, course name, sequence, semester, enrollment, minutes per week, and units of credit. Enrollments of students receiving college credit (dual credit) and instructional site are also reported on this screen.

All data are displayed from the MOSIS Course Assignment and Student Assignment files.

Semester – Semester (blank or 0 – full year, 1 – first semester, 2 – second semester). **Leave blank if this is a full-year course.*

Enrollment – Number of pupils from sending district served in each course/assignment.

Minutes – Minutes per week for each course/assignment.

Credit – Units of high school credit granted for each course/assignment.

Dual Credit Site – Site at which instruction of college credit (dual credit) course is given. Enter **DIST** if instruction is provided at district attendance center, **COLL** if instruction is provided on college campus, **ITV** if instruction is provided by college through instructional television to students in district classroom, or **ACC** if instruction is provided at an area career center.

Dual Credit Students – Number of students receiving college and high school credit for course.

Core Data Screen 36 – Kindergarten Readiness

The Kindergarten Readiness screen allows school districts to choose the method used to test kindergarten readiness.

District:

Year: **Status:** OPEN-Cycle is available for data entry.

Location: Core Data Collection - October Cycle - 36 Kindergarten Readiness

Kindergarten Readiness: (check only one)

- ☐ Desired Results Developmental Profile For Kindergarten (DRDP-K Essential)
- ☐ Applied Survey Research (ASR)/ Kindergarten Observation Form (KOF)
- ☐ Brigance Inventory of Early Development - III
- ☐ None of the Above

Item Definitions – Screen 36-Kindergarten Readiness

Header Information – Refer to Core Data Collection Menu – Cycles and Layout (page preceding the August Cycle) for definition of District, Year, Status, Location, and Help.

The instruments listed below are kindergarten entry assessments designed to measure a student's skills and behaviors within the first few weeks of entering kindergarten. Tools that districts use for school readiness should have developmental domains/early learning areas that align with the Missouri Early Learning Standards.

Kindergarten Readiness Options:

- Desired Results Developmental Profile for Kindergarten (DRDP-K Essential)
- Applied Survey Research (ASR)/Kindergarten Observation Form (KOF)
- Brigance Inventory of Early Development - III
- None of the Above

MOSIS October Student Core

The October Student Core file includes a single record for each student that was enrolled or was a member of a public school district or charter on the last Wednesday in September. All students, pre-kindergarten through grade 12, are reported in the October Student Core file.

The Student Core file collects descriptive data about students, including MOSIS student ID; residency status; membership; enrollment; demographic data; federal program participation (e.g., Title I, special education, LEP/ELL, migrant); federal program headcount (free/reduced lunch status); state program participation; career education information; and other program related data.

October Cycle – File Quick Notes

Collection Name:	October Student Core
Abbreviation:	Student Core (STC)
Availability Date:	September 16
Due Date:	October 15
Count Date:	Last Wednesday in September
File Pair:	None
Collection Version:	2025Oct1.0StuCore

Student Core data are used to populate Core Data screens 02 – District Data, 15 – Home School/Free & Reduced Lunch, and 16 – Enrollment, Membership & Summer School. *See Exhibit 37 for a detailed Core Data screen crosswalk.*

Reporting Student Core

Generally, the district that is providing instruction reports Student Core records. However, when a public school district pays tuition for a resident student to attend a non-public or private institution, the resident district reports the Student Core record. The residency status for these students is Resident II (R2). *Refer to Exhibit 21 for more information detailing Residency Status.*

October Cycle Student Core Key Data Concepts

- The Student Core file layout is the same for each reporting cycle – October, December, February, April, and June – but the fields required may be different.
- All students may be reported in the Student Core file as long as the correct residency status and enrolled on count date information are reported.
- Report students in a building that has the student's grade level in the grade span.
- Adults are not reported in the Student Core file. Adult students are students taking adult programs. These programs can be identified by Career Technical Education (CTE) program type ending in 10.
- Pre-kindergarten students should be reported in the Student Core file if pre-K services are provided to the students.
- Resident II students should only be reported by the sending district if the student was sent to a non-public or private institution which does not report data to the Department. Students sent to other public schools will be reported by those schools.

DESE recommends certifying the October MOSIS files in the following order: 1) Student Core, 2) Educator, and 3) Assignment.

Linkages Between Files

Student Core to MOSIS ID: A student's state MOSIS ID and the date of birth in the Student Core file are matched with the MOSIS ID component. If they do not agree, an error message is posted. If your district receives this error, please follow these steps:

1. Verify date of birth.
2. Update MOSIS Data Collection file or MOSIS ID component.
3. If another district has incorrectly changed the date of birth in the ID system, notify them.
4. Contact the Department if a resolution cannot be found.

File Layout: October Cycle Student Core

A file layout or list of data elements that must be submitted has been established for every data file. These file layouts inform districts and charters what data must be submitted and in what format they must be submitted.

Below is a condensed representation of the file layout containing the item number, item name, reporting cycle, definition, and code set. Data requirements are indicated with R (required), O (optional), C (conditional), or N (not allowed). The detailed file layout containing all information including field type and length information can be found [here](#). Code sets may be referenced in Exhibit 38.

Student Core – October Cycle				
Item	Item Name	Oct	Definition	Code Set
005	Collection Version	R	Collection version should contain this value '2025Oct1.0StuCore' for the 2025 Student Core October Cycle file layout.	
010	Current School Year	R	The ending year of the current school year. For example, use '2025' for the 2024-25 school year.	
015	Attending District Code	R	DESE-assigned six-digit county-district code for the district of attendance.	DESE District Codes
020	Attending School Code	R	DESE-assigned four-digit school code for the school of attendance.	DESE School Codes
025	Reporting District Code	R	DESE-assigned six-digit county-district code for the district reporting.	DESE District Codes
030	Reporting School Code	R	DESE-assigned four-digit school code where the student is being reported from.	DESE School Codes
035	Resident District Code	R	DESE-assigned six-digit county-district code for the district of residence. E.g., K-8 Resident II student attending high school in a different district would have Resident District Code populated with XXXXXX and the “Attending District Code” populated with YYYYYY representing the district of enrollment.	DESE District Codes
040	Resident School Code	R	DESE-assigned four-digit school code for the school of residence.	DESE School Codes
045	Teacher Name (Pre-Code Sort)	O	Used for sort order. Can be teacher/examiner/class name.	
050	MOSIS Student ID	R	State-assigned student identifier.

MOSIS October Educator Core

The October Educator Core file along with the October Educator School file make up the October Educator Collection. Together these files collect educator salary, degree, FTE, and position information.

The October Educator Core file requires a single record for every educator in the district or charter and is used to report data items about each educator including:

(1) personnel requiring a certificate; (2) aides/paraprofessionals, ancillary personnel, and parent educators funded by state or federal programs or used to meet classification standards; and (3) administrators involved with instructional programs. Data include Social Security Number, name, race, sex, highest degree, years of experience, extended contract duration, career ladder, regular term salary, extended contract salary, extra duty salary, minimum salary supplement, minimum salary days worked, late hire and early termination dates, and comments.

Educator Core data are used to populate Core Data Screen 18 – Educator. *See Exhibit 37 for a detailed Core Data screen crosswalk.*

Reporting Educator Core Records

The district and school where the educator provides instruction or services will report Educator Core records. Educator Core records for ITV classes are reported by the district which offers the ITV classes. When ITV classes are offered by a college or university, only the assignment records are reported by the district where students receive ITV instruction. (Courses taught via ITV with a community college would be an illustration of this scenario.) *Scenarios can be found in Exhibit 26.*

DESE recommends certifying the October MOSIS files in the following order: 1) Student Core, 2) Educator, and 3) Assignment.

Linkages Between Files

The Educator Core and Educator School files are collected together as the Educator Collection. Records in the Educator Core and Educator School files also are linked to the records in the October Course Assignment and the Student Assignment files that are submitted. Every educator for whom there is an Educator School file and Course Assignment file must have a file in the Educator Core. For example, if the Student Assignment file has a record containing the course that a student is taking there must be (1) a matching record in the Course Assignment file, (2) a matching record of an educator teaching that course in the Educator School file, and (3) a matching record of an educator in the district Educator Core file.

The following table shows the key data used to link the Educator Core, Educator School, Course Assignment, and Student Assignment files together.

File Layout: October Cycle Educator Core

A file layout or list of data elements that must be submitted has been established for every data file. These file layouts inform districts and charters what data must be submitted and in what format they must be submitted.

Below is a condensed representation of the file layout containing the item number, item name, reporting cycle, definition, and code set. Data requirements are indicated with R (required), O (optional), C (conditional), or N (not allowed). The detailed file layout containing all information including field type and length information can be found [here](#). Code sets may be referenced in Exhibit 38.

Educator Core – October Cycle

105	ED Race/Ethnicity	R	Pre-defined Race/Ethnic code.	PAP Race Ethnicity
110	ED Email	R	Educator email address.	
120	Extended Contract Duration	C	Number of extra days an educator has contracted to perform services for district beyond regular contract duration reported on District Data (Screen 02), if applicable. (Employees with 12-month contracts may show 260 days minus the regular contract duration.)	
130	Extended Contract Salary	C	Extra salary that teacher, counselor, librarian, or any position except administrator (Position Codes 10 and 20) receives for working more than a nine-month term.	

Educator Core – October Cycle				
Item	Item Name	Oct	Definition	Code Set
140	Regular Term Salary	R	Educator's regular term salary (excluding minimum salary supplement, baseline salary grant, and career ladder supplement); based upon the FTE of an approximate nine-month teaching contract except for administrators (Position Codes 10 and 20). Administrators' salaries should include all compensation (e.g., base salary, tax sheltered annuities, vehicle allowance, etc.). The salary should correspond with the FTE. (If an educator is employed full-time for a portion of the year, such as seven months, report the salary on the nine-month basis.) Board-paid insurance, summer school pay, and other fringe benefits are not included. If a position is filled temporarily by a substitute (Position Code 60), show the full salary normally paid for that position – paid insurance and other fringe benefits are not included.	
150	Extra Duty Salary	C	Salary for all activities that generate additional pay beyond the regular term salary except for extended contract salary, summer school pay, and the career ladder and minimum salary supplements. (Include salary for time outside the regular school day.) If a teacher receives additional pay above the salary schedule through an Incentive Grant project, the extra pay is reported as Extra Duty Salary. If a teacher's entire salary is paid from an Incentive Grant, this pay is reported as "Regular Term Salary," except for after-school assignments that are reported as Extra Duty Salary.	
160	Min. Salary Supplement	C	Annualized state-paid supplemental salary received by a teacher, counselor, or librarian to bring the salary up to the state minimum salary level.	
170	Career Ladder Stage	C	State career ladder stages (1, 2, or 3) of participating educators. Enter 1 for Stage I; enter 2 for Stage II; enter 3 for Stage III.	Educator Career Ladder Stages
180	Highest Degree	R	Highest degree of educator.	Educator Highest Degree
190	Public School Years - District	R	Total number of years' experience of educator in current district including the current year. To be counted as one year, the contract must be for at least one half of the week and at least one half of the school year.	
195	Public School Years - Missouri	R	Total number of years' experience of educator in Missouri public school systems including the current year. To be counted as one year, the contract must be for at least one half of the week and at least one half of the school year.	
200	Public School Years - Public	R	Total number of years' experience of educator in all public school systems including the current year.	
210	Late Hire Date	C	Date (month/day) educator was hired if later than start of regular school term else null.	

Educator Core – October Cycle				
Item	Item Name	Oct	Definition	Code Set
220	Early Termination Date	C	Date (month/day) educator terminated services if earlier than end of regular school term else null.	
230	ED Comments	C	Free-form notes used to indicate (1) job titles for course 887900, (2) course titles for "Other" (xxxx99) courses, (3) supplemental assignment for course 880000, (4) teachers assisted by an aide, (5) aides assisting a teacher, or (6) other nonstandard information.	
240	Fiscal Agent County District	R	County-district code number of the fiscal agent. (Fiscal agent is the district that provides the salary.) The code number 999-999 may be used to represent an agency other than a public school with the name of the agency entered in the "Comments" area.	Fiscal Agent District Codes
250	Min. Salary Days Worked	C	Total number of contract days worked during the regular term by an educator receiving a minimum salary supplement.	
260	Baseline Salary Grant	O	Total salary supplement provided by the Teacher Baseline Salary Grant Program (100% of the grant covered salaries) or the prorated share of the grant if there is a Late Hire or Early Termination date. (The 16% for grant covered benefits is not reported in MOSIS.)

MOSIS October Educator School

The October Educator School file requires a single record for every position an educator serves in a school. This file collects one or more records for each building in the district or charter that the educator has a position code or approved career education position.

The October Educator School file is related to the Educator Core file in that if an educator is reported in the Educator School file that educator must exist in the district's Educator Core file.

DESE recommends certifying the October MOSIS files in the following order: 1) Student Core, 2) Educator, and 3) Assignment.

Linkages Between Files

The Educator Core and Educator School files are collected together as the Educator Collection. Records in the Educator Core and Educator School files are also linked to the records in the October Course Assignment and the Student Assignment files that are submitted.

Every record in the Educator School file must have a match to a record in the Educator Core file. These fields/keys are also used for matching records in the Assignment Collections.

MOSIS October Course Assignment

The October Course Assignment file requires a record for each position or assignment in each district school or central office. This file collects assignments for the entire regular school year and contains an educator's identifier and assignment data including regular instructional or administrative assignments, planning time and travel time between buildings, course number, sequence, grade, semester, program code, delivery system, minutes per week, and units of credit.

October Cycle – File Quick Notes

Collection Version:	2025Oct1.0CrAssign

All courses planned for each semester session in the school year should have a Course Assignment record, not just those planned for the beginning of the school year. Changes and additions to courses can be made during the school year by resubmitting the files.

The October Course Assignment file along with the October Student Assignment file makes up the October Assignment Collection. Together these files collect the assignments and data needed to determine the enrollment counts.

October Course Assignment data are used to populate portions of Core Data screens 18 – Educator, 20 – Course & Assignment, and 22 – Sending School Courses & Enrollment. *See Exhibit 37 for a detailed Core Data screen crosswalk.*

Reporting Course Assignment Data

The district and school where the educator provides instruction or services will report Course Assignment records. Course Assignment records for area career center courses are reported by the career center district. Course Assignment records for ITV classes are reported by the district which offers the ITV classes. When ITV classes are offered by a college or university, only the assignment records are reported by the district where students receive ITV instruction. (Courses taught via ITV with a community college would be an illustration of this scenario.) *Scenarios can be found in Exhibit 26.*

An educator can teach a course in a building that students attend from other buildings in the district/charter. In this case, the Course Assignment should reflect the grade(s) the course is offered to, and the building should have that specific grade(s) in its grade span. The corresponding Student Assignments should be reported with the individual students' grade levels.

Remember: Do not report any educator SSN information in the Assignment Comment field, as the comment will be displayed in full on the Staff Assignment Report.

DESE recommends certifying the October MOSIS files in the following order: 1) Student Core, 2) Educator, and 3) Assignment.

Linkages Between Files

The Course Assignment and Student Assignment files are collected together as the Assignment Collection. For the October Cycle, the Course Assignment and the Student Assignment files are linked to the records in the October Educator Core and Educator School submitted files.

Every record, except dual credit classes on a college campus, in the Course Assignment file must have a match to a record in the Educator School file. The Student Course Assignment keys are matched against the Educator Course Assignment keys.

MOSIS October Student Assignment

The October Student Assignment file requires a record for each student enrolled in each educator's teaching assignment. An educator with a teaching assignment has a position code of 60. This file collects assignments for the entire regular school year.

October Student Assignment data are used to populate portions of Core Data screens 20 – Course & Assignment and 22 – Sending School Courses & Enrollment. *See Exhibit 37 for a detailed Core Data screen crosswalk.*

Reporting Student Assignment Data

Generally, Student Assignment records are reported by the institution that provides the instruction. Unless instruction is provided at a private institution, students are reported in the Assignment collection by the district providing the instruction. The Student Assignment file contains sending and receiving district information to facilitate proper reporting.

Student Assignment records for area career center courses are reported by the career center district. Student Assignment records for ITV classes are reported by the district which offers the ITV classes. When ITV classes are offered by a college or university, only the assignment records are reported by the district where students receive ITV instruction. (Courses taught via ITV with a community college would be an illustration of this scenario.) *Scenarios can be found in Exhibit 26.*

An educator can teach a course in a building that students attend from other buildings in the district/charter. In this case, the Course Assignment should reflect the grade(s) the course is offered to, and the building should have that specific grade(s) in its grade span. The corresponding Student Assignments should be reported with the individual students' grade levels.

DESE recommends certifying the October MOSIS files in the following order: 1) Student Core, 2) Educator, and 3) Assignment.

Linkages Between Files

The Student Assignment and Course Assignment files are collected together as the Assignment Collection. For the October Cycle, the Course Assignment and the Student Assignment files are linked to the records in the October Educator Core and Educator School submitted files.

The Student Assignment file requires at least one student record for every teaching position (60) assignment reported in the Course Assignment file if caseload was not provided. The Student Assignment keys are matched against the Course Assignment keys.

The table under this heading in the previous Course Assignment section shows the key data used to link the Educator Core, Educator School, Course Assignment, and Student Assignment files together.

Core Data Screen 11 – Special Education Student Counts by Age

The Special Education Student Counts by Age screen is used to report the number of students with disabilities that are served by Missouri public schools. In order for a student to be eligible for child count, the student must have a current IEP or Services Plan in place and be receiving services by the local school district as of December 1. The count is an unduplicated count, i.e., each student is counted only once by building, age, race, gender, disability, and placement. All data are displayed from the MOSIS Student Core file.

MOSIS December Student Core

The December Student Core file requires a single record for each student that is enrolled on December 1 and has an Individualized Education Program (IEP). This file collects student enrollment and school of attendance data in order to complete the Special Education December 1 Child Count. All students, pre-kindergarten through grade 12, are reported in the December Student Core file.

Student Core data are used to populate Core Data Screen 11 – Special Education Student Counts by Age. *See Exhibit 37 for a detailed Core Data screen crosswalk.*

December Cycle – File Quick Notes

Collection Name:	December Student Core
Abbreviation:	Student Core (STC)
Availability Date:	November 15
Due Date:	December 15
Count Date:	December 1 (SPED Child Count)
File Pair:	None
Collection Version:	2025Dec1.0StuCore

Reporting Student Core

The district that is providing instruction reports Student Core records. However, when a public school district pays tuition for a resident student to attend a non-public or private institution, the resident district reports the Student Core record. The residency status for these students is Resident II (R2). *Refer to Exhibit 21 for more information detailing Residency Status.*

File Layout: December Cycle Student Core

A file layout or list of data elements that must be submitted has been established for every data file. These file layouts inform districts and charters what data must be submitted and in what format they must be submitted.

Below is a condensed representation of the file layout containing the item number, item name, reporting cycle, definition, and code set. Data requirements are indicated with R (required), O (optional), C (conditional), or N (not allowed). The detailed file layout containing all information including field type and length information can be found [here](#). Code sets may be referenced in Exhibit 38.

Student Core – December Cycle				
Item	Item Name	Dec	Definition	Code Set
005	Collection Version	R	Collection version should contain this value '2025Dec1.0StuCore' for the 2025 Student Core December Cycle file layout.	
010	Current School Year	R	The ending year of the current school year. For example, use '2025 for the 2024-25 school year.	
015	Attending District Code	R	DESE-assigned six-digit county-district code for the district of attendance.	DESE District Codes
020	Attending School Code	R	DESE-assigned four-digit school code for the school of attendance.	DESE School Codes
025	Reporting District Code	R	DESE-assigned six-digit county-district code for the district reporting.	DESE District Codes

Core Data Screen 08 – Attendance Center

Attendance center header data, the first part of the Attendance Center screen, are updated in the August Cycle.

The second part of the Attendance Center screen, Follow-up on Previous Year's Graduates, is populated by MOSIS for districts that had graduates the previous year. Elementary districts and colleges **do not** complete the Follow-up on Previous Year's Graduates. Information about the graduates is reported by male/female, racial/ethnic categories (*see Exhibit 2*), and IEP. IEP includes only those graduates eligible under IDEA in the categories specified in Exhibit 18. All follow-up data are displayed from the MOSIS Graduate Follow-up file. The Employment category includes only graduates that are reported as competitively employed. Competitive employment is comprised of compensation at or above minimum wage; comparable pay rate, benefits, and opportunities for advancement for persons with and without disabilities; and settings with others who are nondisabled.

Core Data Screen 15 – Home School/Free and Reduced Lunch

The Home School/Free and Reduced Lunch screen is used to collect the number of students as of the last Wednesday in January in two categories:

- (1) school-aged children who reside in the district, who have not received a diploma, whose parents or guardians filed a declaration as provided in Section 167.042, RSMo, indicating they are being home schooled, and who do not attend a public, private, or parochial school;
- (2) the full-time equivalency (FTE) count (in accordance with state statute) of K-12 resident students eligible for free or reduced lunch documented through the application process using federal eligibility guidelines aligned with the National School Lunch Program or through the direct certification process, and reported by attendance center. All data are displayed from the MOSIS February Student Core file.

The Federal Programs Headcount is used to collect the number of eligible students as of the last Wednesday in September, which is reported in the October Cycle. All data are displayed from the MOSIS October Student Core file.

Item Definitions – Screen 15-Home School/Free and Reduced Lunch

Header Information – Refer to Core Data Collection Menu – Cycles and Layout (page preceding the August Cycle) for definition of District, Year, Status, Location, and Help.

Home School Students – Number of school-aged children who reside in the district; who have not received a diploma; whose parents or guardians have filed a declaration as provided in Section 167.042, RSMo, indicating they are being home schooled; and who do not attend a public, private, or parochial school. Children for whom declarations have not been filed as provided in statute should not be included in this count. Schools will receive a distribution of funds for special education services as a result of this count. Declarations of home schooling must be maintained or be accessible by the school to substantiate this count of children. Parents or guardians cannot be required to file a declaration. *(Charters will not report this information.)*

The following items are displayed from the MOSIS Student Core File:

Federal Programs Headcount – Headcount taken the last Wednesday in September of children ages 5-17 inclusive (as of prior October 1) who reside in the district, whose eligibility for free or reduced lunch is documented through an application process using federal eligibility guidelines aligned with the National School Lunch Program, and who do not attend a private or parochial school or are not home schooled. **Report all eligible students regardless of whether or not they actually eat breakfast/lunch.** (Desegregation students are counted by the district in which the student resides.) *(Populated from MOSIS – October Cycle.)*

PK Eligible for State Aid Count – Headcount taken of resident students ages 5-18 as of October 1 of the current school year who are in grades K-12 that were enrolled on the count day, the last Wednesday of September, whose eligibility for free and reduced lunch has been documented through the application process using federal eligibility guidelines or through the direct certification process aligned with the National School Lunch Program (or if participating in the Community Eligibility Program [CEP] all students between the ages of 5-18, by October 1, who are in grades K-12 and are enrolled on the count day), multiplied by the applicable CEP percentage (if a CEP district), then multiplied by 8 percent. Students are counted regardless of whether or not they actually eat breakfast/lunch. *(Please note that the PK percentage has changed from 4 percent to 8 percent, starting with school year 2024-25.)*

Free and Reduced Lunch Headcount – Headcount of resident students ages 5-18, by October 1, in grades K-12 pulled from the October Student Core MOSIS file whose eligibility for free and lunch has been documented through the application process using federal eligibility guidelines or through the direct certification process aligned with the National School Lunch Program (or if participating in CEP all students ages 5-18, by October 1, who are in grades K-12 enrolled on the count day).

CEP Percentage – If a district or charter school that participates in CEP, the district's or charter school's calculated percent of Free and Reduced Lunch State FTE to ADA for the year prior to electing CEP to represent the number of pupils who qualify for free and reduced lunch between the ages of 5-18 by October 1. *(Item is system calculated and displayed.)*

Calculated Free and Reduced Headcount – The calculated free and reduced lunch count, which represents the number of pupils who qualify for free and reduced lunch between the ages of 5 and 18, by October 1, who are in grades K-12 who were enrolled on the count day on the last Wednesday in September. If a non-CEP district, calculated number will be the same as the Free and Reduced Headcount. *(Item is system calculated and displayed.)*

Total Number of PK Students Eligible to be Claimed for State Aid – Total Number of PK Students Eligible to be Claimed for State Aid is the calculated Free and Reduced Headcount that is multiplied by 8 percent

to equal the maximum headcount of prekindergarten pupils that can be claimed for the Foundation Formula. *(Please note that the PK percentage has changed from 4 percent to 8 percent, starting with school year 2024-25.) (Item is system calculated and displayed.)*

State FTE – Full-time equivalency (FTE) count taken the last Wednesday in January of resident students enrolled in grades K-12 **and** in attendance one of the 10 preceding school days whose eligibility for free or reduced lunch is documented through the application process using federal eligibility guidelines or through the direct certification process aligned with the National School Lunch Program. (Desegregation students are considered residents of the district in which the students are educated.) **Students are counted regardless of whether or not they actually eat breakfast/lunch.** An eligible student in KA or KP is to be reported as .5 FTE. Students for whom the Department does not distribute state aid are not counted, i.e., students in preschool, the Parents as Teachers Program, or state schools. If the LEA and/or building participates in CEP, the LEA should report all students in the LEA and/or building as Free Lunch.

Select School – Click button to display data for the school that is entered in the text box.

Resident II F&RL – Click button to display report of districts reporting Resident II data displayed on screen.

District TOTALS – Total State FTE count of all Resident and Resident II students eligible for free and reduced lunch in district documented through an application process using federal eligibility guidelines aligned with the National School Lunch Program or through the direct certification process. *(Item is system calculated and displayed.)*

RESIDENT II STUDENTS/Free Lunch – FTE count of resident students eligible for free lunch documented through an application process using federal eligibility guidelines aligned with the National School Lunch Program or through the direct certification process taken the last Wednesday in January who are legally attending another district with the district of residence paying tuition. This count is reported by the district paying the tuition.

RESIDENT II STUDENTS/Reduced Lunch – FTE count of resident students eligible for reduced lunch documented through an application process using federal eligibility guidelines aligned with the National School Lunch Program or through the direct certification process taken the last Wednesday in January who are legally attending another district with the district of residence paying tuition. This count is reported by the district paying the tuition.

RESIDENT II STUDENTS/Total – Total Resident II students eligible for free and reduced lunch documented through an application process using federal eligibility guidelines aligned with the National School Lunch Program or through the direct certification process. *(Item is system calculated and displayed.)*

Code – Four-digit school number of attendance center. *(Item is displayed from Screen 08 – Attendance Center.)*

Attendance Center – Name of the attendance center. *(Item is displayed from Screen 08 – Attendance Center.)*

Begin Grade – The lowest grade of the attendance center. *(Display only.)*

End Grade – The highest grade of the attendance center. *(Display only.)*

Item Definitions – Screen 16-Enrollment, Membership and Summer School

Header Information – Refer to Core Data Collection Menu – Cycles and Layout (page preceding the August Cycle) for definition of District, Year, Status, Location, and Help.

School – Four-digit school number and name of attendance center. *(Select from drop-down list.)*

Grade – Grade level of the attendance center for which data are reported. Valid selections from the drop-down list are PK, PKP, PKA, K, KA, KP, and 1-12. Select “PK or K” for full-day pre-kindergarten or kindergarten, “PKA or KA” for AM pre-kindergarten or kindergarten, or “PKP or KP” for PM pre-kindergarten or kindergarten.

Summer School and Extended School Year (ESY) Hours Just Completed – Actual summer school attendance and membership hours and actual extended school year program attendance hours for students with disabilities as required by the Individualized Education Program (IEP) submitted in the August Cycle. Summer school students should be entered in the grade in which they are enrolled in the current school year (after summer school). ESY hours that are outside of the timeframe and days of the summer school program must be reported under the ESY hours, however, ESY hours running in conjunction with the summer school program can be reported as either ESY hours or summer school hours. *(Populated from MOSIS – August Cycle.)*

Extended School Year (ESY) Hours Just Completed – Actual extended school year program attendance hours for students with disabilities as required by the Individualized Education Program (IEP). Actual ESY school attendance hours are submitted in the August Cycle. ESY students should be entered in the grade in which they are enrolled in the current school year (after summer school). *(Populated from MOSIS – August Cycle.)*

September Enrollment – Headcount taken the last Wednesday of September of all resident and nonresident students in grades PK through 12 enrolled in the attendance center. Each student (part-time, full-time, or kindergarten) should be counted as one. Desegregation transfer students are reported as residents of the district in which they attend school. Enrollment for students attending alternative schools and area vocational schools should be reported at the students’ regular school in their home district. *(Populated from MOSIS – October Cycle.)*

September Membership By County – Count of resident students in grades PK-12 taken the last Wednesday in September who are enrolled on the count day **and** in attendance at least one of the 10 previous school days, by grade at each attendance center. Students attending an alternative school or an area vocational school part of the day and their home school the remainder of the day should be counted as full-time students in the regular school in their home district. PKA or PKP students enrolled in a half-day PK program should be reported as 1.0 if they attend all possible hours for that program in a week. To receive full-time credit for a special education kindergarten student whose IEP calls for full-day attendance, report the membership in full-day kindergarten. Membership for Title I extended day kindergarten should not be reported. Part-time students are reported on FTE basis under part-time. For example, a part-time student enrolled four hours in a six-hour day equals 0.67 FTE. Membership of students for whom the home district pays full tuition is counted by the home district. Membership of students for which local tax effort only is paid is not reported by the home district, but is reported by the receiving district. **Membership of students for whom parents have paid tuition is not counted by any district.** *(Populated from MOSIS – October Cycle.)*

January Membership – Count of resident students in grades PK-12 taken the last Wednesday in January who are enrolled on the count day **and** in attendance at least one of the 10 previous school days, by grade at each attendance center. Students attending an alternative school or an area vocational school part of the day and their home school the remainder of the day should be counted as full-time students in the regular school in their home district. PKA or PKP students enrolled in a half-day PK program should be reported as 1.0 if they attend all possible hours for that program in a week. To receive full-time credit for special education a kindergarten

student whose IEPs call for full-day attendance, report the membership in full-day kindergarten. Membership for Title I extended day kindergarten should not be reported. Part-time students are reported on FTE basis under part-time. For example, a part-time student enrolled four hours in a six-hour day equals 0.67 FTE. Membership of students for whom the home district pays full tuition is reported by the home district. Membership of students for which local tax effort only is paid is not reported by the home district, but is reported by the receiving district. **Membership of students for whom parents have paid tuition is not reported by any district.**

January Membership Full Time – Count of resident full-time students (excluding desegregation students) taken last Wednesday in January by grade at each attendance center.

January Membership Part Time – Part-time (FTE basis) resident membership count (excluding desegregation students) taken last Wednesday in January by grade at each attendance center. *(See above example of calculation.)*

January Membership Deseg In – Count (FTE basis) of incoming desegregation students taken last Wednesday in January by grade at each attendance center.

January Membership Fed Lands – Count (FTE basis) of federal lands students taken last Wednesday in January by grade at each attendance center.

January Membership Total – Total full-time, part-time, deseg in, and fed lands January membership. *(Item is system calculated and displayed.)*

January Membership Deseg Out – Count (FTE basis) of outgoing desegregation students taken last Wednesday in January by grade at each attendance center.

Core Data Screen 26 – Career Education Follow-up

The Career Education Follow-up screen displays follow-up data by selected categories of students graduating from approved career education programs, including students with disabilities and disadvantaged students in those programs. Data are displayed for each career education course identifying the Classification of Instructional Program (CIP) code and the actual number of graduates reported the previous year. Follow-up is conducted on students who completed an approved career education course from an occupational program (0104, 0204, 0304, 0404, 0504, 0704, 0804, and 1004). Follow-up is also not conducted on exploratory or supervision courses. Follow-up data are not collected on adult students enrolled in secondary programs. See *Exhibit 10 for a crosswalk of Core Data course codes to approved career education CIP codes*.

Follow-up data are reported on previous year's graduates based on the status of the graduate within 180 days of graduation for secondary education. **Each graduate should be reported in only one approved career education program area.** If the graduate is employed and continuing education, the following guidelines are used:

Graduates attending school (full- or part-time) and employed (full- or part-time) in a field for which they were trained are reported as Employed Related (EMP REL) or Continuing Education Related (CED REL).

Graduates attending school (full- or part-time) in a field for which they were trained, and employed in a field for which they were not trained, are reported as Continuing Education Related (CED REL).

Graduates attending school (full- or part-time) in a field for which they were not trained, and employed (full- or part-time) in a field for which they were trained, are reported as Employed Related (EMP REL) or Continuing Education-Related (CED ER). The CED ER will be included in the CED NR category on this screen.

Data displayed on the screen are based on program approval and the number of graduates reported on the MOSIS Student Enrollment and Attendance file from the previous year. All data are displayed from the MOSIS Student Graduate Follow-up file.

Core Data Screen 27 – Career Education Follow-up Sending School

The Career Education Follow-up Sending School screen is primarily used by districts operating area career centers that serve students from other school districts (area career center hereby referred to as the receiving school). Follow-up data on students are reported the February after they graduate from their home district. The data are identified by the graduate's home district (sending school) and reported for total and IEP students. Receiving schools should provide sending district officials with a copy of the career education follow-up reported for their students. Follow-up data **are not** collected on adult students enrolled in secondary programs.

Follow-up data are reported on previous year's graduates based on the status of the graduate within 180 days following graduation for secondary education. This should match the data submitted by the sending school on Core Data Screen 08. If the graduate is employed and continuing education, the following guidelines are used:

Graduates attending school (full- or part-time) and employed (full- or part-time) in a field for which they were trained are reported as Employed Related (EMP REL) or Continuing Education Related (CED REL).

Graduates attending school (full- or part-time) in a field for which they were trained, and employed in a field for which they were not trained, are reported as Continuing Education Related (CED REL).

Graduates attending school (full- or part-time) in a field for which they were not trained, and employed (full- or part-time) in a field for which they were trained, are reported as Employed Related (EMP REL) or Continuing Education-Related (CED ER). The CED ER will be included in the CED NR category on this screen.

Data displayed on the screen are based on program approval and the number of graduates reported on the MOSIS Student Enrollment and Attendance file from the previous year. All data are displayed from the MOSIS Student Graduate Follow-up file.

Core Data Screen 37 – New and Expanding Charter School Data

The New and Expanding Charter School Data screen is used to collect data related to the opening of a new charter school or the significant expansion of enrollment in a charter school. A significant expansion is defined as a substantial increase in the number of students attending a charter school due to a significant event that is unlikely to occur on a regular basis, such as the addition of one or more grades or educational programs in major curriculum areas. The term also includes any other expansion of enrollment that the LEA determines to be significant (EDGAR § 76.787). **Due date: March 15th.**

The New and Expanding Charter School Data screen is used for allocations of federal grant funds under [Elementary and Secondary Education Act \(ESEA\)](#) and [Individuals with Disabilities Education Act \(IDEA\)](#).

MOSIS February Student Core

The February Student Core file requires a single record for each student that enrolled or was a member of a public school district or charter on the last Wednesday in January. This file collects student enrollment and school of attendance data in order to determine membership and state free/reduced lunch counts. All students, pre-kindergarten through grade 12, are reported in the February Student Core file.

February Student Core data are used to populate the State FTE (Free and Reduced Lunch data) on Core Data Screen 15. The Home School information on Screen 15 is not provided through MOSIS and must be entered manually on the screen. Student Core data are used to populate part of Core Data Screen 16 – Enrollment, Membership and Summer School. *See Exhibit 37 for a detailed Core Data screen crosswalk.*

February Cycle – File Quick Notes

Collection Name:	February Student Core
Abbreviation:	Student Core (STC)
Availability Date:	January 15
Due Date:	February 15
Count Date:	Last Wednesday in January
File Pair:	None
Collection Version:	2025Feb1.0StuCore

Reporting Student Core

Generally, the district that is providing instruction reports Student Core records. However, when a public school district pays tuition for a resident student to attend a non-public or private institution, the resident district reports the Student Core record. The residency status for these students is Resident II (R2). *Refer to Exhibit 21 for more information detailing Residency Status.*

February Cycle Student Core Key Data Concepts

- The Student Core file layout is the same for each reporting cycle – October, December, February, April, and June – but the fields required may be different.
- All students may be reported in the Student Core file as long as the correct residency status and enrolled on count date information are reported.
- Adults are not reported in the Student Core file. Adult students are students taking adult programs. These programs can be identified by CTE program type ending in 10.
- Pre-kindergarten students should be reported in the Student Core file if pre-K services are provided to the students.
- Resident II students should only be reported by the sending district if the student was sent to a non-public or private institution which does not report data to the Department. Students sent to other public schools will be reported by those schools.

File Layout: February Cycle Student Core

A file layout or list of data elements that must be submitted has been established for every data file. These file layouts inform districts or charters what data must be submitted and in what format they must be submitted.

Below is a condensed representation of the file layout containing the item number, item name, reporting cycle, definition, and code set. Data requirements are indicated with R (required), O (optional), C (conditional), or N (not allowed). The detailed file layout containing all information including field type and length information can be found [here](#). Code sets may be referenced in Exhibit 38.

Student Core – February Cycle				
Item	Item Name	Feb	Definition	Code Set
005	Collection Version	R	Collection version should contain this value '2025Feb1.0StuCore' for the 2025 Student Core February Cycle file layout.	
010	Current School Year	R	The ending year of the current school year. For example, use '2025' for the 2024-25 school year.

MOSIS February Student Graduate Follow-up

The Student Graduate Follow-up file collects one record for each student reported as graduating the previous year. This file also includes students reported as an IEP dropout or a CTE Concentrator GED dropout. Most of the information is required for reporting on Perkins and Career Technical programs.

Student Graduate Follow-up is collected for both high school and postsecondary/adult students.

February Cycle – File Quick Notes

Collection Name:	February Student Graduate Follow-up
Abbreviation:	Student Graduate Follow-up (GRD)
Availability Date:	January 15
Due Date:	February 15
File Pair:	None
Collection Version:	2025Feb1.0StuGradFlw

Student Graduate Follow-up data are used to populate portions of Core Data screens 08 – Attendance Center, 26 – Career Education Follow-up, 27 – Career Education Follow-up Sending School, and 29 – Postsecondary Adult Follow-up. *See Exhibit 37 for a detailed Core Data screen crosswalk.*

Reporting Student Graduate Follow-up Data

Student Graduate Follow-up records are reported by the district or the postsecondary institution where the student graduated. This file also includes records reported by the district where the student was an IEP dropout or a CTE Concentrator GED dropout.

Linkages Between Files

One record should be submitted for every secondary student that was reported as a graduate, IEP dropout, or CTE Concentrator GED dropout in the previous year's June Student Core, Enrollment and Attendance file. Postsecondary institutions should submit one record for every postsecondary student that completed a career and technical education program in a postsecondary education program during the previous school year.

File Layout: February Cycle Student Graduate Follow-up

A file layout or list of data elements that must be submitted has been established for every data file. These file layouts inform districts or charters what data must be submitted and in what format they must be submitted.

Below is a condensed representation of the file layout containing the item number, item name, reporting cycle, definition, and code set. Data requirements are indicated with R (required), O (optional), C (conditional), or N (not allowed). The detailed file layout containing all information including field type and length information can be found [here](#). Code sets may be referenced in Exhibit 38.

MOSIS April Student Core

The April Student Core file requires a single record for each student that has taken or will take a state assessment this school year. All students may be included. This file collects student demographic data. All students, kindergarten through grade 12, are reported in the April Student Core file. ***(There is no count date for April; however, each student who has taken a state assessment needs to be included.)***

April Student Core data does not populate any Core Data screens for this cycle.

Core Data Screen 08 – Attendance Center

The Attendance Center screen has two parts: attendance center header data and previous year's graduates' follow-up data. The attendance center header data items are updated in the August Cycle.

The second part of the Attendance Center screen, Follow-up on Previous Year's Graduates, is populated by MOSIS for districts that had graduates the previous year. Elementary districts and colleges **do not** complete the Follow-up on Previous Year's Graduates. Information about the graduates is reported by male/female, racial/ethnic categories (*see Exhibit 2*), and IEP. IEP includes only those graduates eligible under IDEA in the categories specified in Exhibit 18. All follow-up data are displayed from the MOSIS Graduate Follow-up file. The Employment category includes only graduates that are reported as competitively employed. Competitive employment is comprised of compensation at or above minimum wage; comparable pay rate, benefits, and opportunities for advancement for persons with and without disabilities; and settings with others who are nondisabled.

The Safe Schools Violations are the number of safe schools violations which occurred at an attendance center and are reported in the June Cycle.

P – Native Hawaiian or Other Pacific Islander.

M – Multiracial (Demographic Race Two or More Races).

Gender – Gender of student committing the offense. Valid entries are Male, Female.

LEP – Limited English Proficiency status of student committing the offense. Valid entries are “Y” – Yes and “N” – No.

Disability – Disability category, if any, of student committing the offense. If student has no Individualized Educational Program (IEP), valid entry is None. Report category of student receiving special education services as outlined in the student’s IEP. *See Exhibit 18 for list of valid disability categories and definitions.*

Removal – Type of disciplinary action used to remove student committing the offense from current educational setting.

ISS – In School Suspension. Removal of student from regular classroom setting (within a school building) for a fixed amount of time with student automatically returning to regular classroom setting after the suspension is completed.

OSS – Out of School Suspension. Removal of student from regular school for a fixed amount of time with student automatically returning to school after the suspension is completed.

EXP – Expulsion. Removal of student from school and by local board action for an indefinite period of time until student is reinstated by local board of education.

UR – Unilateral Removal. School personnel (not IEP team) ordered removal of student with disabilities from current educational placement to an appropriate interim educational setting for same amount of time that a child without disabilities would be subject to discipline, but for not more than 45 days.

Length – Length of time student committing offense is removed from current educational placement.

1 – 1 Day. Report each removal of ½ day up to one full day.

2 – 2 Consecutive Days. Report each removal.

- 3** – 3 Consecutive Days. Report each removal.
- 4** – 4 Consecutive Days. Report each removal.
- 5** – 5 Consecutive Days. Report each removal.
- 6** – 6 Consecutive Days. Report each removal.
- 7** – 7 Consecutive Days. Report each removal.
- 8** – 8 Consecutive Days. Report each removal.
- 9** – 9 Consecutive Days. Report each removal.
- 10** – 10 Consecutive Days. Report each removal.
- 11+** – 11-45 Consecutive Days. Report each removal.
- 46+** – 46-89 Consecutive Days. Report each removal.
- 90+** – 90+ Days consecutively, but less than one year. Report each removal.
- 1 yr** – One (1) Year. Report each removal.

Mod Len – Modified Length. Expelled student whose length of removal was modified (shortened) by chief administrative officer of the school district. Valid entries are “Y” – Yes and “N” – No.

Alt Plc – Alternative Placement. Expelled student receiving educational services in an alternative educational setting. Valid entries are “Y” – Yes and “N” – No.

Core Data Screen 10A – Actual Calendar Header

The Calendar Header screen summarizes information relative to the planned and actual calendar in terms of meeting statutory hours of attendance. The header screen accepts data entry for the date the calendar was adopted, starting and closing dates, standard day length, number of periods per day, and minutes per period. The total days and total hours of attendance for the school year are system calculated from the Screen 10B – Calendar Detail.

The Screen 10A – Calendar Header works together with the Screen 10B – Calendar Detail. A detail screen must be completed for every header screen or calculations will not be accurate. **These screens should be completed in the following sequence:**

- 1) Complete Screen 10 down to and including the actual starting/closing date. *(June Cycle)*
- 2) The next five data items *(June Cycle)* are system calculated and cannot be entered. The remaining data requested, beginning with the standard day length and ending with the minutes each period, must be entered.
- 3) Choose **Detail** to transfer to Screen 10B – Calendar Detail and complete all columns of information that apply to the actual calendar. *(June Cycle)*
- 4) Choose **Header** to return to Screen 10A – Calendar Header and review the results of the calculations and summary of data entered on Screen 10B – Calendar Detail.

Item Definitions – Screen 10A-Actual Calendar Header

Header Information – Refer to Core Data Collection Menu – Cycles and Layout (page preceding the August Cycle) for definition of District, Year, Status, Location, and Help.

School (Optional Field) – Four-digit school number and name of the attendance center. Use only if the days/hours of attendance are different for attendance centers with the same grade span (for example, two 9-12 high schools with different day lengths or different days of attendance). *(Entered in the August Planned Calendar.)*

Grade Span – Lowest and highest grade levels included in this calendar. *(Entered in the August Planned Calendar.)*

Half Day Indicator – Enter “A” if calendar is for AM kindergarten or pre-K, “P” for PM kindergarten or pre-K, or blank if kindergarten or pre-K is full day. *(Entered in the August Planned Calendar.)*

Attending a 4 Day School Week – Indicator specifying that the district planned before the start of the school year to attend school four days a week. [Section 171.029, RSMo](#), allows a school district board of education to establish a four-day school week or other calendar consisting of less than 174 days in lieu of a five-day school week. School districts establishing less than a 174-day/five-day-a-week school calendar shall operate on a four-hour day minimum/eight-hour day maximum. A school day less than four hours or more than eight hours does not count toward the minimum 142 days or 1,044 hours of actual student attendance requirements. *(Entered in the August Planned Calendar.)*

Date Calendar Adopted (MM/DD/YYYY) – Date the school calendar was adopted by the board of education. *(Entered in the August Planned Calendar.)*

ACTUAL CALENDAR – Report the school calendar as it **actually** occurred during the school year.

Actual Starting/Closing Date – Actual first day of school for students and actual last day of school for students (month/day format). The last day of school should represent the actual last day of student attendance.

Actual Weather Hours – Number of hours school **was** canceled or shortened due to inclement weather as defined by [Section 171.033, RSMo](#). *(Item is system calculated from Screen 10B – Calendar Detail.)*

Actual Weather Makeup Hours – Number of hours school was in session to make up actual weather hours required per [Section 171.033, RSMo](#). *(Item is system calculated from Screen 10B – Calendar Detail.)*

Actual Alternative Method of Instruction Hours – Number of hours the district implemented an Alternative Methods of Instruction (AMI) Plan that was approved by DESE. AMI hours are only for times school is closed due to exceptional or emergency circumstances and are limited to no more than 36 hours during a school year. *(Item is system calculated from Screen 10B – Calendar Detail.)*

Actual Special Adjustment Makeup Days/Hours – Total number of special adjustment makeup days/hours entered by School Finance staff. *(Department use only.)*

Actual Total School Calendar Days/Hours – Total number of actual days school will be in session and total number of actual hours school will be in session. For a day to count as a calendar day and the hours to count in total hours, the day must be three to seven hours for a 174-day or more actual calendar or four to eight hours for a calendar operating on an actual calendar less than 174 days, pursuant to [Section 171.029, RSMo](#).

Standard Day Length –Total number of hours between the starting time of the first class and the dismissal time of the last class, minus the time allowed for lunch and one passing time, and minus Channel One time, reported as a decimal equivalent, i.e., six hours and 15 minutes is reported as 6.2500 hours. Passing time and recess time supervised by certificated staff **are** included. The standard day length is reported to four decimal places. *See Exhibit 24A on how to determine the length of the school day. (Entered in the August Planned Calendar.)*

Minutes per Week – Number of instructional minutes per week calculated from standard day length (SDL). *(Display only.)*

Periods Each Day – Number of class periods in each standard day (reported only for high schools, departmentalized middle schools, and junior high schools). *(Entered in the August Planned Calendar.)*

Minutes Each Period – Average number of minutes each class period is held, **excluding** passing time (reported only for high schools, departmentalized middle schools, and junior high schools). *(Entered in the August Planned Calendar.)*

Core Data Screen 10B – Actual Calendar Detail

The Calendar Detail screen allows for entry of data needed to calculate the number of **planned** (*August Cycle*) and **actual** (*June Cycle*) days and hours each school is in session in terms of meeting statutory requirements. Information recorded on this screen includes days not in session, non-standard days, weather days/hours, and makeup days/hours. Screen 10B – Calendar Detail is to be completed together with Screen 10A – Calendar Header following **the sequence of data entry** summarized in the general instructions for Screen 10A – Calendar Header. Clicking on **Add More Lines** at the bottom of Screen 10B – Calendar Detail will allow additional entries. Data entered on this screen are system calculated and summarized on the Screen 10A – Calendar Header.

ACTUAL CALENDAR – Columns report the school calendar as it **actually** occurred during the school year.

ACTUAL NOT IN SESSION/MM DD – Dates of actual days school was not in session between the starting and closing dates (month/day format). Thanksgiving Day and the day after, and December 25 through January 1 are automatically deducted. Include all unplanned days missed for reasons other than inclement weather, i.e., excessive student absences due to illness, fire, interruption of utility service, and funerals. Include scheduled makeup days subsequently canceled due to weather. Days missed due to weather should be included in the Actual Weather Day columns. Do not include any planned weather makeup days that are after the actual last day of school.

ACTUAL NON-STANDARD/MM DD – Dates of actual non-standard days (different in length from standard day) school was in session (month/day format). Do not include non-standard weather or makeup days.

ACTUAL NON-STANDARD/HRS – Number of actual hours school was in session on each non-standard day. For a day to count as a calendar day and the hours to count in total hours, the day must be three to seven hours for a 174-day or more actual calendar or four to eight hours for a calendar operating on an actual calendar less than 174 days, pursuant to [Section 171.029, RSMo](#). The non-standard day length is reported to four decimal places.

ACTUAL WEATHER/MM DD – Dates of days missed or shortened for inclement weather due to cold temperatures, snow and ice storms, excessively heavy rain, or flooding (month/day format). Do not include

scheduled makeup days that were subsequently canceled due to weather. Day(s) missed or shortened for excessive heat is/are not allowed by law.

ACTUAL WEATHER/HRS – Number of hours school **was** in session on each day missed or shortened due to inclement weather. For a day to count as a calendar day and the hours to count in total hours, the day must be three to seven hours for a 174-day or more actual calendar or four to eight hours for a calendar operating on an actual calendar less than 174 days, pursuant to [Section 171.029, RSMo](#). (For full days missed, enter 0.00 for hours of attendance. For partial days missed due to inclement weather, fill in the hours of attendance: 2.0, 4.0, 4.5, etc.). The non-standard day length is reported to four decimal places.

ALTERNATIVE METHOD OF INSTRUCTION (AMI) MM/DD – Dates AMI hours were implemented in accordance with the LEA's approved Alternative Methods of Instruction (AMI) Plan that was approved by DESE. AMI hours are only for times school is closed due to exceptional or emergency circumstances as defined pursuant to [Section 171.033, RSMo](#).

ALTERNATIVE METHOD OF INSTRUCTION (AMI) MM/DD – Hours per day AMI was implemented in accordance with the LEA's approved Alternative Methods of Instruction (AMI) Plan that was approved by DESE. AMI hours are only for times school is closed due to exceptional or emergency circumstances and are limited to no more than 36 hours during a school year.

ACTUAL MAKEUP/MM DD – Dates school was in session to make up missed days (month/day format). Refer to [Section 171.033, RSMo](#), regarding makeup days.

ACTUAL MAKEUP/HRS – Number of hours school was in session on each actual makeup day. For a day to count as a calendar day and the hours to count in total hours, the day must be three to seven hours for a 174-day or more actual calendar or four to eight hours for a calendar operating on an actual calendar less than 174 days, pursuant to [Section 171.029, RSMo](#). The non-standard day length is reported to four decimal places.

Item Definitions – Screen 12-Special Education Exiter Counts by Age

Header Information – Refer to Core Data Collection Menu – Cycles and Layout (page preceding the August Cycle) for definition of District, Year, Status, Location, and Help.

School – Four-digit school number and name of attendance center. *(Select from drop-down list.)*

Ages – Age of the student as of December 1. *(Select from drop-down list.)*

Exiter Count – Total number of students by age that exited special education during the school year. *(Item is system calculated and displayed.)*

Line – A sequential number for each line assigned by the system.

The following items are displayed from the MOSIS Student Core and Student Enrollment and Attendance Files:

Disability – Code that identifies disability reported (*see Exhibit 18*). Associated title is displayed.

Exiter – Code that identifies status of exiters. Associated exit category is displayed.

- 01 **Returned to Regular Education (valid ages 3-21)** – Students who were served in special education during the school year but returned to regular education as a result of having met the objectives of their IEP. These students no longer have an IEP and are receiving all of their educational services from the regular education program. (01 from SPED Program Exit Code)
- 02 **Graduated with a Diploma (valid ages 17-21)** – Students with disabilities who graduated by earning all required credits through regular or modified classes aligned with state standards. No credits were earned by meeting IEP goals. (G01)
- 03 **Received a Certificate (valid ages 17-21)** – Students with disabilities who exited an educational program through the receipt of a certificate of attendance. This includes students who reached age 21 or otherwise terminated their education and who have met the district's attendance requirements. (D03)
- 04 **Reached Maximum Age (valid ages 20-21)** – Students with disabilities who exited an educational program because they reached the maximum age for receipt of educational services and did not receive a diploma or certificate of attendance. (D04)
- 05 **Died (valid ages 3-21)** – Students with disabilities who died during the school year. (T009)
- 06 **Moved, Known to be Continuing (valid ages 3-21)** – Students with disabilities who moved out of the district and are known to be continuing in another special or regular educational program. This includes students who previously received special education services from the district but left the district to attend a home school or private/parochial school. (T001, T003-T008)
- 07 **Moved, Not Known to be Continuing (valid ages 3-21)** – Students with disabilities who have moved out of the district and are not known to be continuing in any type of educational program, i.e., no records request from another educational program. (D06)

- 08 **Dropped Out (valid ages 14-21)** – Students with disabilities who are enrolled during the year and were not enrolled at the end of the year and did not exit through exit categories 01-07. This includes dropouts, runaways, expulsions, GED recipients, and status unknown. (D01, D02, D05)
- 17 **Parent Withdrew Student from Special Education (valid ages 3-21)** – Students who had received special education services during the school year and whose parents withdrew the student from the special education program. (17 from SPED Program Exit Code)
- 20 **Graduated with a Diploma – Alternate Standards (valid ages 17-21)** – Students with disabilities who graduated by earning some or all required credits through modified classes aligned with alternate state standards or by meeting IEP goals. This would generally be limited to those students with the most significant cognitive disabilities whose IEP teams have determined that this method of graduation provides FAPE to the individual student. (G03)

Male – Number of male students in specified age, disability, and exit category.

Female – Number of female students in specified age, disability, and exit category.

TOTAL – Total number of students in a specified age, disability, and exit category. *(Item is system calculated and displayed.)*

Black – Number of Black or African American students in specified age, disability and exit category.

White – Number of White students in specified age, disability, and exit category.

Hispanic – Number of Hispanic or Latino Ethnicity students in specified age, disability, and exit category.

Asian – Number of Asian students in specified age, disability, and exit category.

Indian – Number of American Indian or Alaska Native students in specified age, disability, and exit category.

Pacific Islander – Number of Native Hawaiian or Other Pacific Islander students in specified age, disability, and exit category.

Multiracial – Number of Demographic Race Two or More Races students in specified age, disability, and exit category.

LEP – Number of Limited English Proficiency students in a specified age, disability and exit category.

Core Data Screen 13 – Secondary Headcount

The Secondary Headcount screen is used to collect headcount data by male/female, racial/ethnic (*see Exhibit 2*), disabled (IEP), free and reduced lunch (FRL) eligible, and Limited English Proficient (LEP) categories. High school graduates, transfers in, transfers out, dropouts, and students enrolled all year are reported for grades 7-12 (*see Exhibit 6*). IEP includes **only** those students eligible under IDEA in the categories specified in Exhibit 18.

The number of dropouts and transfers reported the previous June Cycle may be amended when the transcript request or re-enrollment occurs on or before the enrollment count date of the following September. (Late transcript requests decrease dropouts and increase transfers out, while re-enrollments only decrease dropouts.) All data are displayed from the MOSIS June Student Core, Enrollment and Attendance submission.

Core Data Screen 14 – Attendance

The Attendance screen is used to collect grade level attendance data. Attendance hours (State Aid data) are reported for each grade by full-time, part-time, and remedial for Resident I students and students residing on federal land. Hours of absence are required to be reported in the MSIP/ESEA portion of this screen. Districts previously involved in desegregation court orders also report attendance data for students transferred in and transferred out of the district for use by the School Finance section. All data are displayed from the MOSIS Student Enrollment and Attendance file.

Additional information regarding attendance hour reporting is available on the School Finance website under Finance Topics & Procedures, which can be found [here](#).

Core Data Screen 14A – Resident II Attendance

Attendance hours are reported for each grade for Resident II students, those students for which the district pays full tuition (not just local tax effort). Data for students attending schools in more than one district which have different hours in session are converted to one hours-in-session number. Data automatically transfer from this screen to Screen 14. Full-time and part-time attendance data for a grade are to be combined. All data are displayed from the MOSIS Student Enrollment and Attendance file.

School No./Name – Four-digit school number and name of attendance center. *(Select from drop-down list.)*

Grade – Grade level of the attendance center for which data are reported. *(Select from drop-down list.)*

Resident II – Students residing in the district and legally attending school in another district for which the resident district pays full tuition (not just local tax effort).

District Attended – Six-digit county-district code for each district where students in that grade attended. *See Exhibit 5 for a listing of code numbers assigned to attendance sites other than public school districts.*

Students – Number of students sent to the district listed under District Attended.

Total Hrs Attended – Number of hours of full-time and part-time attendance of students sent to the district listed under District Attended for whom the resident district paid full tuition (not just local tax effort).

Total Hrs Remedial – Number of remedial attendance hours outside the regular school day in accordance with Sections 167.340, 167.640 and 167.645, RSMo, of students sent to the district listed under District Attended for whom the resident district paid full tuition (not just local tax effort).

Total Hrs Absence – Number of hours of absence of students sent to the district listed under District Attended.

Hrs in Session (Receiving Dist) – Total number of actual hours student could have attended at the attending school if they attended the entire regular school year. In no case should this be less than 1,044 hours.

ADA (Total Hrs Attended Only) – Total regular hours of attendance divided by hours in session. *(Item is system calculated and displayed.)*

Converted Hours in Session – Hours in session of first district listed; used to calculate converted hours in attendance. *(Item is system calculated and displayed.)*

Core Data Screen 14B – Resident II GPA

The Resident II Grade Point Average (GPA) screen is used by K-8 elementary districts to report the number of students and the grade point average for students in grades nine and 10 for both Resident II (tuition) students and receiving district students. Only Resident II ninth and 10th grade students who graduated from the K-8 district prior to attending high school should be included in the GPA for the K-8 district. The grading scales used for the GPAs are also reported on this screen. All data are displayed from the MOSIS Student Enrollment and Attendance file.

Core Data Screen 17 – Physical Fitness Assessment

The Physical Fitness Assessment screen is used to collect the results of the locally administered physical fitness assessment data – the number of students tested, number not tested, and number meeting or exceeding the healthy fitness range (HFR). These numbers are reported by school for grades five, seven, and nine. In addition, the number of minutes per week that fifth grade students are scheduled for physical education (PE) and the average class size for fifth grade PE classes, and the percentage of ninth grade students enrolled in PE and the average class size for PE classes that enroll ninth grade students are reported by the school. All data are displayed from the MOSIS Student Core and Course Assignment files.

Refer to the FITNESSGRAM protocols found on the [Presidential Youth Fitness Program](#) website for a complete description of the assessment components, testing options, and scoring criteria. The four physical fitness assessment components (column headings) to be reported are as follows:

Aerobic Capacity – Scoring results as measured through administration of (1) the PACER (Progressive Aerobic Cardiovascular Endurance Run), (2) one mile run/walk, or (3) walk test – to be used for students ages 13 and older.

Abdominal Strength – Scoring results as measured through administration of curl-ups.

Upper Body Strength – Scoring results representing muscular strength measured through administration of (1) 90° push-ups, (2) pull-ups, (3) modified pull-ups, or (4) flexed arm hang.

Flexibility – Scoring results as measured through administration of back-saver sit and reach.

The number of students in the four assessment components are reported by:

Grade 5 - Female/Tested* – Number of fifth grade female students at this school tested in each of the physical fitness assessment components.

Grade 5 - Female/Not Tested – Number of fifth grade female students at this school not tested in each of the physical fitness assessment components.

Grade 5 - Female/> HFR – Number of fifth grade female students at this school who meet or exceed the healthy fitness range (HFR) criteria in each of the physical fitness assessment components.

Grade 5 - Male/Tested* – Number of fifth grade male students at this school tested in each of the physical fitness assessment components.

Grade 5 - Male/Not Tested – Number of fifth grade male students at this school not tested in each of the physical fitness assessment components.

Grade 5 - Male/> HFR – Number of fifth grade male students at this school who meet or exceed the healthy fitness range (HFR) criteria in each of the physical fitness assessment components.

Grade 5 - Minutes per Week – Number of minutes per week fifth grade students at this school are scheduled for physical education class.

Grade 5 - Average Class Size – Average physical education class size for fifth grade students at this school.

Grade 7 - Female/Tested* – Number of seventh grade female students at this school tested in each of the physical fitness assessment components.

Grade 7 - Female/Not Tested – Number of seventh grade female students at this school not tested in each of the physical fitness assessment components.

TEACHER EVALUATION SYSTEM:

Number of Teachers by Performance Level: (Number of Teachers reported in MOSIS = 26)

List the number of teachers in each performance level. (Performance Level 1 is the lowest level.)

Number of Performance Levels used to evaluate Teachers: 2

Performance Level	Level 1	Level 2	Level 3	Level 4	Level 5	Level 6	Level 7
Number of Teachers							

In compliance with the Every Student Succeeds Act (ESSA), Section 1111(g)(1)(B), low-income and minority students enrolled in this school cannot be taught at disproportionate rates by ineffective, out of field, or inexperienced teachers. Data submitted in the section "Number of Teachers by Performance Level" above, is used to complete the Ensuring Teacher Quality for All, Section 1112(b)(2), of the consolidated plan in regards to reporting on ineffective teachers.

If any school within your district does not report at least 75% of teachers for that school when compared to those reported in the October MOSIS Data Collection cycle, please provide an explanation on the discrepancy of those numbers below.

Select all that apply:

- ☐ We have teachers that are shared between schools but are only reported in their primary building
- ☐ We had teachers leave in the middle of the year that were not evaluated
- ☐ We have Special School District teachers but do not do their evaluations
- ☐ We have long-term substitutes that are not evaluated
- ☐ Other (Please explain in the space provided below)

Please note, "If a teacher or principal does not undergo a formal evaluation during the reporting year, they retain and are reported at the same rating they received during the last formal evaluation."

PRINCIPAL EVALUATION SYSTEM:

Number of Principals by Performance Level: (Number of Principals reported in MOSIS = 1)

List the number of principals in each performance level. (Performance Level 1 is the lowest level.)

Number of Performance Levels used to evaluate Principals: 2

Performance Level	Level 1	Level 2	Level 3	Level 4	Level 5	Level 6	Level 7

EFFECTIVE EVALUATION INDICATORS:

Directions: Check each criteria below that is included in the educator evaluation system of the school

*A minimum of three out of the five criteria must be implemented to determine alignment to that principle.

T – Teacher Evaluation Process
P – Principal Evaluation Process

- 1. Research-based performance targets are aligned with state model teacher and leader standards.**

T
P

 - ☐ Behavioral performance targets are research-based and proven
 - ☐ Performance targets align to appropriate state and national standards
 - ☐ Performance targets articulate essential practices
 - ☐ Performance targets are clearly articulated
 - ☐ Performance targets of the educator link to improvements in student learning
- 2. Indicators of performance are articulated across differentiated levels with standards specifying expectations at all levels of practice.**

T
P

 - ☐ Includes a minimum of 3 differentiated levels
 - ☐ Includes clear statements of performance at each level
 - ☐ Each level allows for discrete, independent, measurable performance targets
 - ☐ Each level reliably describes practice
 - ☐ Levels provide clear direction for growth and development in practice
- 3. The probation period for the educator as specified in state law provides for the accurate and appropriate accumulation of performance data.**

T
P

 - ☐ Includes required mentoring as a component of a comprehensive induction process
 - ☐ Complies with Missouri statute regarding the probationary period
 - ☐ Is informed by the state's mentor standards
 - ☐ Includes confidential, non-evaluative support linked to the district's overall plan for professional development
 - ☐ Focuses on essential practices of particular significance for novice practitioners
- 4. Measures of student growth in learning are a significant contributing factor in the evaluation of practice at all levels, using a wide variety of student performance measures.**

T
P

 - ☐ Is a significant contributing component of the overall evaluation process
 - ☐ Uses multiple measures of student performance including both formative and summative assessments
 - ☐ Includes multiple years of comparable data
 - ☐ Highlights growth in student learning across two points in time as opposed to single measures of status
 - ☐ Includes the state assessment where available and appropriate as well as additional district and school determined common assessments
- 5. Performance is assessed on a regular basis, including timely feedback from multiple sources that promotes formative development at all career stages and supporting overall improvement.**

T
P

 - ☐ Is delivered effectively and is meaningful to the improvement of practice
 - ☐ Focuses on the impact of professional practice to increase student learning
 - ☐ Is offered at least once annually to everyone either formally, informally or both
 - ☐ Occurs in close proximity to the data gathering process (e. observation, survey, artifact review, etc.)
 - ☐ Occurs within the context of a professional, collaborative culture
- 6. Evaluators who collect evidence of performance and provide feedback are highly trained and objective, ensuring that ratings are fair, accurate, and reliable.**

T
P

 - ☐ Evaluators demonstrate skills aligned to minimum quality assurance standards established by districts and/or state
 - ☐ Training includes conducting observations focused on the quality of instruction
 - ☐ Training includes assessing student data, analyzing artifacts and interpreting survey information
 - ☐ Training includes the effective delivery of meaningful feedback
 - ☐ Training is offered initially and periodically to those who evaluate educator performance
- 7. The evaluation process guides district decisions regarding determinations of status, recognition, development, interventions, and policies that impact student learning in the system.**

T
P

 - ☐ Guides district employment policies and procedures
 - ☐ Guides district decisions regarding employment determinations
 - ☐ Informs in particular those policies that impact the extent of student learning
 - ☐ Encourages the recognition and utilization of highly effective educators
 - ☐ Informs strategies for providing targeted interventions and support

Item Definitions – Screen 18A-Educator Evaluation

Header Information – Refer to Core Data Collection Menu – Cycles and Layout (page preceding the August Cycle) for definition of District, Year, Status, Location, and Help.

School No./Name – Four-digit school number and name of attendance center. *(Select from drop-down list.) This will be the building level at which the teacher or principal were evaluated. Therefore, nothing should be entered in building 1000-Central Office.*

Evaluation Model Used by District – Choose the system that is used to evaluate the performance of educators (check only one). Systems include the following:

- Missouri Model Evaluation System
- Revised version of the Missouri Model Evaluation System
- NEE Model (University of Missouri)
- Marzano Model
- Danielson Model
- District-created model based on Missouri Teacher and Leader Standards
- District-created model based on district-created standards
- Other _____ *(If “Other” is marked, please describe in the space provided.)*
- No Evaluation System Implemented

Number of Teachers – Number of teachers (position code 60) reported on Screen 18. *(Displayed from MOSIS.)*

All teachers and principals employed during the school year are reported on Screen 18A. Staff members must be given an evaluation rating (i.e., 1, 2, 3, 4, 5, 6, or 7). Use only the number of levels on Screen 18A that correspond to the number of levels in your evaluation process. If a teacher or principal does not undergo a formal evaluation during the reporting year, they retain and are reported at the same rating they received during the last formal evaluation.

Number of Performance Levels Used to Evaluate Teachers – In the box provided, tell us how many levels are used to evaluate teachers. *Note: Teacher Level 1 is the lowest rating level.*

Teachers Level 1 Number – Number of teachers at performance level 1.

Teachers Level 2 Number – Number of teachers at performance level 2.

Teachers Level 3 Number – Number of teachers at performance level 3.

Teachers Level 4 Number – Number of teachers at performance level 4.

Teachers Level 5 Number – Number of teachers at performance level 5.

Teachers Level 6 Number – Number of teachers at performance level 6.

Teachers Level 7 Number – Number of teachers at performance level 7.

In compliance with the Every Student Succeeds Act (ESSA), Section 1111(g)(1)(B), low-income and minority students enrolled in this school cannot be taught at disproportionate rates by ineffective, out-of-field, or inexperienced teachers. Data submitted through this screen is used to complete the Ensuring Teacher Quality for All, Section 1112(b)(2), of the consolidated plan.

If any school within your district does not report at least 75% of teachers for that school when compared to those reported in the October MOSIS Data Collection cycle, please provide an explanation of the discrepancy on those numbers in the section seen below. If you select "Other" you must provide an explanation in the box.

Select all that apply

- ☐ We have teachers that are shared between schools but are only reported in their primary building
- ☐ We had teachers leave in the middle of the year that were not evaluated
- ☐ We have Special School District teachers but do not do their evaluations
- ☐ We have long-term substitutes that are not evaluated
- ☐ Other (Please explain in the space provided below)

Please note, "If a teacher or principal does not undergo a formal evaluation during the reporting year, they retain and are reported at the same rating they received during the last formal evaluation."

Number of Principals – Number of principals (position code 20) reported on Screen 18. (Displayed from MOSIS.)

Number of Performance Levels Used to Evaluate Principals – In this box provided, tell us how many levels are used to evaluate principals. Note: Principal Level 1 is the lowest rating level.

Principals Level 1 Number – Number of principals at performance level 1.

Principals Level 2 Number – Number of principals at performance level 2.

Principals Level 3 Number – Number of principals at performance level 3.

Principals Level 4 Number – Number of principals at performance level 4.

Principals Level 5 Number – Number of principals at performance level 5.

Principals Level 6 Number – Number of principals at performance level 6.

Principals Level 7 Number – Number of principals at performance level 7.

Alignment to the Seven Principles of Effective Evaluation

For each of the five criteria listed for each of the seven principals, check each box which identifies a component of the current evaluation system for teachers (T) and principals (P). Alignment to each principle is determined by implementation of at least three of the five criteria regarding the evaluation process in each school.

Principles and Criteria:

1. Research-based performance targets are aligned with state model teacher and leader standards.

Educator performance targets are research-based and proven.

Performance targets align to appropriate state and national standards.

Performance targets articulate essential practices.

Performance targets are clearly articulated.

Performance targets of the educator link to improvements in student learning.

- 2. Indicators of performance are articulated across differentiated levels with standards specifying expectations at all levels of practice.**
 - Includes a minimum of three differentiated levels.
 - Includes clear statements of performance at each level.
 - Each level allows for discrete, independent, measurable performance targets.
 - Each level reliably describes practice.
 - Levels provide clear direction for growth and development in practice.
- 3. The probation period for the educator as specified in state law provides for the accurate and appropriate accumulation of performance data.**
 - Includes required mentoring as a component of a comprehensive induction process.
 - Complies with Missouri statute regarding the probationary period.
 - Is informed by the state's mentor standards.
 - Includes confidential, non-evaluative support linked to the district's overall plan for professional development.
 - Focuses on essential practices of particular significance for novice practitioners.
- 4. Measures of student growth in learning are a significant contributing factor in the evaluation of practice at all levels, using a wide variety of student performance measures.**
 - Is a significant contributing component of the overall evaluation process.
 - Uses multiple measures of student performance including both formative and summative assessments.
 - Includes multiple years of comparable data.
 - Highlights growth in student learning across two points in time as opposed to simple measures of status.
 - Includes the state assessment where available and appropriate as well as additional district and school determined common assessments.
- 5. Performance is assessed on a regular basis, including timely feedback from multiple sources that promotes formative development at all career stages and supporting overall improvement.**
 - Is delivered effectively and is meaningful to the improvement of practice.
 - Focuses on the impact of professional practice to increase student learning.
 - Is offered at least once annually to everyone either formally, informally, or both.
 - Occurs in close proximity to the data gathering process (i.e., observation, survey, artifact review, etc.).
 - Occurs within the context of a professional, collaborative culture.
- 6. Evaluators who collect evidence of performance and provide feedback are highly trained and objective, ensuring that ratings are fair, accurate, and reliable.**
 - Evaluators demonstrate skills aligned to minimum quality assurance standards established by districts and/or state.
 - Training includes conducting observations focused on the quality of instruction.
 - Training includes assessing student data, analyzing artifacts, and interpreting survey information.
 - Training included the effective delivery of meaningful feedback.
 - Training is offered initially and periodically to those who evaluate educator performance.
- 7. The evaluation process guides district decisions regarding determinations of status, recognition, development, interventions, and policies that impact student learning in the system.**
 - Guides district employment policies and procedures.
 - Guides district decisions regarding employment determinations.
 - Informs in particular those policies that impact the extent of student learning. Encourages the recognition and utilization of highly effective educators.
 - Informs strategies for providing targeted interventions and support.

Core Data Screen 24 – Summer School Courses & Enrollment

The Summer School Courses & Enrollment screen is used to report specific information for each class that is included in the state-funded summer school program, and each certificated staff person as well as each specially funded aide participating in the program. These data, along with information entered directly on Screen 24A – Summer School Application will be reviewed to determine the status of the state-funded summer school program. All data are displayed from the MOSIS Summer Course Assignment and Summer Student Assignment files.

MOSIS June Student Core

The June Student Core file requires a single record for each student that was enrolled at some point during the school year in the district or charter or had dropped out or moved during the prior summer. The June Student Core collects all categories of student data in order to derive several end-of-year statistics. This includes the demographic data for graduates, dropouts, and transfers, as well as data about A+ and physical fitness. All students, pre-kindergarten through grade 12, are reported in the June Student Core file.

June Cycle – File Quick Notes

Collection Name:	June Student Core
Abbreviation:	Student Core (STC)
Availability Date:	May 1
Due Date:	June 30
File Pair:	Student Enrollment and Attendance (SEA)
Collection Version:	2025Jun1.0StuCore

Student Core data are used to populate Core Data screens 12 – Special Education Exiter Counts by Age, 13 – Secondary Headcount, 14 – Attendance, 14A – Resident II Attendance, 14B – Resident II GPA, and 17 – Physical Fitness Assessment. *See Exhibit 37 for a detailed Core Data screen crosswalk.*

Reporting Student Core

Generally, the district that is providing instruction reports Student Core records. However, when a public school district pays tuition for a resident student to attend a nonpublic or private institution, the resident district reports the Student Core record. The residency status for these students is Resident II (R2). *Refer to Exhibit 21 for more information detailing Residency Status.*

June Cycle Student Core Key Data Concepts

- The Student Core file layout is the same for each reporting cycle – October, December, February, April, and June – but the fields required may be different.
- MOSIS Student Core data are used for populating the Core Data System and for other state and federal reporting, accountability, and funding purposes.
- All students may be reported in the Student Core file as long as the correct residency status and enrolled on count date information are reported.
- Adults are not reported in the Student Core file. Adult students are students taking adult programs. These programs can be identified by CTE program type ending in 10.
- Pre-kindergarten students should be reported in the Student Core file if pre-K services are provided to the students.
- Resident II students should only be reported by the sending district if the student was sent to a non-public or private institution which does not report data to the Department. Students sent to other public schools will be reported by those schools.

Linkages Between Files

Student Core to Student Enrollment and Attendance: In the June Cycle the Student Core file is reported along with the Student Enrollment and Attendance file. These files are joined together by the MOSIS ID. The Student Core is reported with the most current information on the student, and that information is then used along with enrollment and attendance information to populate data in the Core Data System.

File Layout: June Cycle Student Core

A file layout or list of data elements that must be submitted has been established for every data file. These file layouts inform districts or charters what data must be submitted and in what format they must be submitted.

Below is a condensed representation of the file layout containing the item number, item name, reporting cycle, definition, and code set. Data requirements are indicated with R (required), O (optional), C (conditional), or N (not allowed). The detailed file layout containing all information including field type and length information can be found [here](#). Code sets may be referenced in Exhibit 38.

Student Core – June Cycle				
Item	Item Name	Jun	Definition	Code Set
005	Collection Version	R	Collection version should contain this value '2025Jun1.0StuCore' for the 2025 Student Core June Cycle file layout.	
010	Current School Year	R	The ending year of the current school year. For example, use '2025' for the 2024-25 school year.	
015	Attending District Code	R	DESE-assigned six-digit county-district code for the district of attendance.	DESE District Codes
020	Attending School Code	R	DESE-assigned four-digit school code for the school of attendance.	DESE School Codes
025	Reporting District Code	R	DESE-assigned six-digit county-district code for the district reporting.	DESE District Codes
030	Reporting School Code	R	DESE-assigned four-digit school code where the student is being reported from.	DESE School Codes
035	Resident District Code	R	DESE-assigned six-digit county-district code for the district of residence. E.g., K-8 Resident II student attending high school in a different district would have Resident District Code populated with XXXXXX and the “Attending District Code” populated with YYYYYY representing the district of enrollment.	DESE District Codes
040	Resident School Code	R	DESE-assigned four-digit school code for the school of residence.	DESE School Codes
045	Teacher Name (Pre-Code Sort)	O	Used for sort order. Can be teacher/examiner/class name.	
050	MOSIS Student ID	R	State-assigned student identifier.	
055	Local Student ID	O	Local student ID maintained by the district. Allows for data to be associated to local systems from DESE source systems.	
060	Legal Last Name	R	Legal last name.	
065	Legal First Name	R	Legal first name.	
070	Legal Middle Name	O	Legal middle name.	

Student Core – June Cycle				
Item	Item Name	Jun	Definition	Code Set
075	Legal Name Suffix	O	Legal name suffix. E.g., Jr, Sr.	
080	Date of Birth	R	Date of birth.	
090	County	O	County in which the student resides.	County Codes
095	Student Grade Level	R	Grade level as of the time data is being submitted unless otherwise specified.	Student Grade Level Codes
100	Gender	R	Gender.	Gender Codes
105	Race/Ethnicity	R	Pre-defined Race/Ethnic code.	Race Ethnicity Codes
110	Lunch Status	R	DESE-assigned lunch status code. Indicate whether a student is eligible for free or reduced lunch.	Lunch Status Codes
115	Gifted	R	Gifted status of student (cumulative).	Gifted Codes
120	Homeless	R	The primary nighttime residence is the basis for identifying homeless children and youth. Provide code that identifies primary nighttime residence.	Homeless Codes
125	Migrant	R	A Migrant is a student who has moved across school district boundaries within the preceding 36 months to seek or obtain (or to accompany or join a parent, spouse, or guardian who is seeking to obtain) temporary, seasonal employment in agriculture or fishing, or to work in a beef, poultry, or pork processing plant.	Migrant Codes
130	In building less than a year	O	Yes = any student who was not enrolled in the building the last Wednesday in September OR was not enrolled in the building during the MAP administration OR was not enrolled in the building at least half of the eligible days between the last Wednesday in September and the MAP administration.	Yes No
135	In district less than a year	O	Yes = any student who was not enrolled in the district the last Wednesday in September OR was not enrolled in the district during the MAP administration OR was not enrolled in the district at least half of the eligible days between the last Wednesday in September and the MAP administration.	Yes No
140	Voluntary Transfer Student	O	Designation for students who reside in the St. Louis City school district but who voluntarily enroll in a St. Louis County school district or a student who resides in a St. Louis County school district but attends the St. Louis City school district. The transfer must have been a result of the desegregation settlement agreement.	Yes No
145	A+ Student	C	Required if student is in grade 09, 10, 11, or 12. DESE-assigned A+ codes that designate if a student is an A+ participant or completer.	APlus Codes

Student Core – June Cycle				
Item	Item Name	Jun	Definition	Code Set
150	Number of Months in USA	O	This identifies the number of months (cumulative) that an LEP/ELL student has been in the United States as of April 1st for the reporting year. If student has been in the US for 36 or more consecutive months, report 36 for the number of months in USA for them.	
155	Immigrant	O	Designation for students who are aged 3 through 21, were not born in any state, and have not been attending one or more schools in any one or more states for more than three full academic years.	Immigrant Codes
160	ELL Primary Language	O	The name of the specific language or dialect that students use to communicate at home. Required if student is reported as ELL/LEP (RCV or NRC). ELL Primary Language Codes can be found at https://dese.mo.gov/data-system-management/core-datamosis .	ISO Language Codes
165	LEP/ELL	R	DESE-assigned LEP/ELL code set. This code set is used to declare if a student is an English Learner receiving services, English Learner not receiving Title III services due to parent request, first year monitored English Learner, second year monitored English Learner, former English Learner Accountability Year 3, or former English Learner Accountability Year 4. English Learner - In coordination with the state's definition based on Section 8101(20) of the ESEA, as amended by the ESSA, the term 'English learner', when used with respect to an individual, means an individual: (A) who is aged 3 through 21; (B) who is enrolled or preparing to enroll in an elementary school or a secondary school; (C) (who is i, ii, or iii) (i) who was not born in the United States or whose native languages are languages other than English; (ii) (who is I and II) (I) who is a Native American or Alaska Native, or a native resident of the outlying areas; and (II) who comes from an environment where a language other than English has had a significant impact on the individual's level of English language proficiency; or (iii) who is migratory, whose native language is a language other than English, and who come from an environment where a language other than English is dominant; and (D) whose difficulties in speaking, reading, writing, or understanding the English language may be sufficient to deny the individual (who is denied i or ii or iii)[1] (i) the ability to meet the challenging State academic standards; (ii) the ability to successfully achieve in classrooms where the language of instruction is English; or (iii) the opportunity to participate fully in society. Note - To be classified as an English learner, an individual must be A, B, C, and D. For C, an individual can be i, ii, or iii. If C-ii, the individual must be I and II. For D, an individual must be denied i or ii or iii.[2]	LEP Codes

MOSIS June Student Enrollment and Attendance

The June Student Enrollment and Attendance file contains one or more record(s) for every student served in the regular school year or students who transferred out or dropped out over the summer. These records must include entry/exit information and attendance information for each entry/exit segment. A record is required for each time a student enters or exits a school, changes grade, or changes residency status.

June Cycle – File Quick Notes

Collection Name:	June Student Enrollment and Attendance
Abbreviation:	Student Enrollment Attendance (SEA)
Availability Date:	May 1
Due Date:	June 30
File Pair:	Student Core (STC)
Collection Version:	2025Jun1.0StuEnrlAttnd

The data collected in the June Student Enrollment and Attendance file populates Core Data screens 13 – Secondary Headcount, 14 – Attendance, and 14A – Resident II Attendance. *See Exhibit 37 for a detailed Core Data screen crosswalk.*

Reporting Student Enrollment and Attendance

Generally, the district that is providing instruction reports Student Enrollment and Attendance records. However, when a public school district pays tuition for a resident student to attend a non-public or private institution, the resident district reports the Student Enrollment and Attendance record. The residency status for these students is Resident II (R2). *Refer to Exhibit 21 for more information detailing Residency Status.*

Please note: If a student stops attending and transfers, drops out, or stops out, DESE recommends reporting the exit code on the student’s first day of non-attendance.

File Layout: June Cycle Student Enrollment and Attendance

A file layout or list of data elements that must be submitted has been established for every data file. These file layouts inform districts or charters what data must be submitted and in what format they must be submitted.

Below is a condensed representation of the file layout containing the item number, item name, reporting cycle, definition, and code set. Data requirements are indicated with R (required), O (optional), C (conditional), or N (not allowed). The detailed file layout containing all information including field type and length information can be found [here](#). Code sets may be referenced in Exhibit 38.

Item	Item Name	Jun	Definition	Code Set
156	School Choice	O	Identify if a student is eligible, has been offered, applied for but was denied, or received School Choice. Children enrolled in a Title I school are eligible for school choice when their school is in the first and subsequent years of school improvement, corrective action, or restructuring. Any child attending such a school must be offered the option of transferring to a public school in the district not identified for school improvement, unless such an option is prohibited by state law. ESEA requires that in some circumstances priority in providing school choice be given to the lowest achieving children from low-income families.	School Choice Codes
157	Extended School Hours	N	Number of extended school year hours of special education and related services provided to a child with a disability. These hours are beyond the normal school year of the public agency, are in accordance with the child's IEP, are at no cost to the parents of the child, and meet the standards of the State Education Agency.	
158	Chronic Absent	R	Report the number of days the student was absent for more than 50 percent of the school day between the begin date and the end date. Include those absences whether excused or unexcused.	

MOSIS June Student Discipline

School districts receiving funds under ESEA and/or the Individuals with Disabilities Education Act (IDEA) are required to report all disciplinary incidents that result in in-school or out-of-school suspension (regardless of duration), expulsion, or unilateral removal to an interim educational setting. The data submitted in the June Cycle are used to satisfy the discipline-related reporting requirements for school districts under the federal Gun-Free School Act, ESEA, IDEA, and the state law (Section 160.522) concerning school district report cards.

MOSIS June Summer Course Assignment

The June Summer Course Assignment file requires a record for every educator assignment of position code 60 (teacher). In the June Cycle districts that conduct state-approved and state-funded summer school programs should report data on certified staff and students who participate in the program.

The June Summer Course Assignment file along with the June Summer Student Assignment file make up the June Summer Assignment Collection.

Together these files collect the assignments and data needed to determine the enrollment counts.

June Cycle – File Quick Notes

Collection Name:	June Summer Course Assignment
Abbreviation:	Summer Course Assignment (SCR)
Availability Date:	May 1
Due Date:	June 30
File Pair:	Summer Student Assignment (SSA)
Collection Version:	2025Jun1.0SumCrsAssign

Summer Course Assignment data are used to populate portions of Core Data Screen 24 – Summer School Courses & Enrollment. *See Exhibit 37 for a detailed Core Data screen crosswalk.*

Reporting Summer Course Assignment Data

Districts and schools with approved summer school programs report Summer Course Assignment records when the educator provides instruction or services.

Summer Course Assignment records for ITV classes are reported by the district which offers the ITV classes. When ITV classes are offered by a college or university, only the assignment records are reported by the district where students receive ITV instruction. (Courses taught via ITV with a community college would be an illustration of this scenario.) *Scenarios can be found in Exhibit 26.*

Reporting Summer School Dual Credit/Dual Enrollment

Dual credit/dual enrollment credit earned during summer school should be reported at the conclusion of the school year in the MOSIS June Student Course Completion collection. To report dual credit/dual enrollment, keep in mind the following:

1. Dual credit/enrollment courses completed in the summer of the current school year, e.g., 2025, are reported in the same school year June Student Course Completion file submission **only** (2025). Do **not** report summer school dual credit/enrollment in the June Summer Course/Student Assignment file or the October file.
2. Enter “Summer School Dual Credit/Enrollment” in the Course Completion Comment field.
3. Dual credit/dual enrollment students reported in the Course Completion file in this manner will receive an error message which will not allow the file to be certified and submitted.
4. Upon request, the Office of Data System Management (ODSM) will override the error to enable the reporting of dual credit/dual enrollment course completion files. Please contact ODSM’s Core Data/MOSIS staff at coredata-mosis@dese.mo.gov or 573-522-3207, option 2, with any questions.

Linkages Between Files

The Summer Course Assignment and Summer Student Assignment files are collected together as the Summer Assignment Collection. In the Summer Course Assignment file, if enrollment in a course is not reported, a caseload must be provided.

File Layout: June Cycle Summer Course Assignment

A file layout or list of data elements that must be submitted has been established for every data file. These file layouts inform districts or charters what data must be submitted and in what format they must be submitted.

Below is a condensed representation of the file layout containing the item number, item name, reporting cycle, definition, and code set. Data requirements are indicated with R (required), O (optional), C (conditional), or N (not allowed). The detailed file layout containing all information including field type and length information can be found [here](#). Code sets may be referenced in Exhibit 38.

Summer Course Assignment – June Cycle				
Item	Item Name	Jun	Definition	Code Set
005	Collection Version	R	Collection version should contain this value '2025Jun1.0SumCrsAssign' for the 2025 June Cycle Summer Course Assignment file layout.	
010	Current School Year	R	The ending year of the current school year. For example, use '2025' for the 2024-25 school year.	
025	Reporting District Code	R	DESE-assigned six-digit county-district code for the district reporting.	DESE District Codes
030	Reporting School Code	R	DESE-assigned four-digit school code where the student is being reported from.	DESE School Codes
050	ED SSN	R	Required if the Reporting and Receiving district are the same or if there is no Receiving district. Educator Social Security Number. Formats allowed '999999999'.	
060	Educator Last Name	R	Educator's legal last name.	
065	Educator First Name	R	Educator's legal first name.	
070	Position Code	R	Position code of educator's assignment.	Position Codes
080	CTE Program Type	O	Program type code of CTE approved program.	CTE Program Type Codes
090	Assignment Number	R	The number used to uniquely identify an instance of an educator's course assignment also used to link that course to the records of students within the course.	
100	Local Course Number	O	Course code that identifies assignment. Every assignment must be identified by a course code except pre-kindergarten, kindergarten, and elementary classes in self-contained classrooms. If a teacher has more than one grade in a self-contained elementary classroom or is teaching morning and afternoon pre-kindergarten or kindergarten classes, show as separate assignments.	
110	Local Course Name	O	Course name abbreviation.	
120	Local Section Number	O	Local section number.	

Summer Course Assignment – June Cycle				
Item	Item Name	Jun	Definition	Code Set
130	State Course Number	C	Course code that identifies assignment. Every assignment must be identified by a course code except pre-kindergarten, kindergarten, and elementary classes in self-contained classrooms. If a teacher has more than one grade in a self-contained elementary classroom or is teaching morning and afternoon pre-kindergarten or kindergarten classes, show as separate assignments.	State Course Codes
140	Assignment Start Date	O	Date course is added after beginning of school year or filled for first time after beginning of school year or an individual replaces original course educator after beginning of school year else null.	
150	Assignment End Date	O	Date course is eliminated prior to end of school year or individual is transferred out of position prior to end of school year (leaving position vacant) or individual is replaced in position with another individual prior to end of school year else null.	
170	Course Sequence Number	O	Sequence number that identifies the content of courses taught at more than one level. If only one level of course content is offered, leave SEQ blank.	Course Seq Num Codes
180	Course Grade Level	R	Grade level at which curriculum for the specific course is designed to be taught. Grade level should reflect the grade at which the course curriculum is meant to be offered; not necessarily describe the students in the classroom. For example, if General Science is offered as a ninth grade class, it should be reported as grade nine even though some 10th or 11th grade students may be in the classroom. Conversely, a Physics class offered as a junior level (or third high school year) course that contains advanced standing freshmen and/or sophomores should be coded grade 11 (not grade 13).	Assignment Grade Level Codes
190	Course Semester	O	Semester (blank or 0 – full year, 1 – first semester, 2 – second semester) else null.	Course Semester Codes
200	Course Delivery System	C	Delivery System. Instructional delivery method else null.	Course Delivery System Codes
210	Course Program Code	C	Program code that identifies special funding or approval else null.	Course Program Codes
220	Course Minutes	O	Minutes per week for class/assignment. (Student passing time and “Channel One” are not included.)	
230	Course Credits	C	Credit. Units of high school credit granted for assignment else null.	
235	Caseload	C	Number of students served in an educational setting other than a regularly scheduled class.	

Summer Course Assignment – June Cycle				
Item	Item Name	Jun	Definition	Code Set
240	Course Total Hours	R	Total hours the class meets during the full duration of the summer school program (normally 60 to 120 clock hours). This item is not allowed to be reported in October.	
242	Assignment Comment	O	Free-form notes used to indicate (1) job titles for Course 887900, (2) course titles for "Other" (xxxx99) courses, (3) supplemental assignment for Course 880000, (4) teachers assisted by an aide, (5) aides assisting a teacher, or (6) other nonstandard info.	
245	Combined Course	C	Combined classes are situations where students of two or more different subjects or course sequence levels (or grade levels for self-contained elementary classes) are taught during the same time period by the same teacher.	
250	Virtual Instruction	O	Report if a course is virtual instruction through MOCAP-Instruction or MOCAP-Curriculum.	Virtual Instruction Codes

MOSIS June Summer Student Assignment

The June Summer Student Assignment file requires one or more records for each student in a given educator's teaching assignment. This file collects assignments for summer school only.

The June Summer Student Assignment file identifies a student's enrollment in an assignment and collects the courses taken by a student for summer school.

June Cycle – File Quick Notes

Collection Name:	June Summer Student Assignment
Abbreviation:	Summer Student Assignment (SSA)
Availability Date:	May 1
Due Date:	June 30

Collection Version:	2025Jun1.0SumStuAssign

Summer Student Assignment data are used to populate portions of Core Data Screen 24 – Summer School Courses & Enrollment. *See Exhibit 37 for a detailed Core Data screen crosswalk.*

Reporting Summer Student Assignment Data

Districts and schools with an approved summer school program report Summer Student Assignment records.

Summer Student Assignment records for ITV classes are reported by the district which offers the ITV classes. When ITV classes are offered by a college or university, only the assignment records are reported by the district where students receive ITV instruction. (Courses taught via ITV with a community college would be an illustration of this scenario.) *Scenarios can be found in Exhibit 26.*

Reporting Summer School Dual Credit/Dual Enrollment

Dual credit/dual enrollment credit earned during summer school should be reported at the conclusion of the school year in the MOSIS June Student Course Completion collection. To report dual credit/dual enrollment, keep in mind the following:

1. Dual credit/enrollment courses completed in the summer of the current school year, e.g., 2025, are reported in the same school year June Student Course Completion file submission **only** (2025). Do **not** report summer school dual credit/enrollment in the June Summer Course/Student Assignment file or the October file.
2. Enter "Summer School Dual Credit/Enrollment" in the Course Completion Comment field.
3. Dual credit/dual enrollment students reported in the Course Completion file in this manner will receive an error message which will not allow the file to be certified and submitted.
4. Upon request, the Office of Data System Management (ODSM) will override the error to enable the reporting of dual credit/dual enrollment course completion files. Please contact ODSM's Core Data/MOSIS staff at coredata-mosis@dese.mo.gov or 573-522-3207, option 2, with any questions.

Linkages Between Files

The Summer Student Assignment and Summer Course Assignment files are collected together as the Summer Assignment Collection. The Student Assignment file requires at least one student record for every teaching position (60) assignment reported in the Course Assignment file if caseload was not provided in the Summer Course Assignment file.

MOSIS June Student Course Completion

The Student Course Completion file collects the final grade and credit earned by each student for each class taken. The Student Course Completion file is only collected in the June Cycle.

Reporting Student Course Completion Data

The district or charter reports the final grade and credit earned by the student for each class taken. All grade 06-12 students are required to be reported as long as they have one or more hours of attendance in the district or charter's certified June Student

Enrollment and Attendance file. Course completion is also required for all virtual courses, grades K-12. Most students will be reported with more than one record (one per class) in the submission. Each record will contain the student's basic information such as MOSIS state ID and date of birth along with information linking the student to an instance of a course reported by the district/charter in October.

Grades earned are to be reported using grade letters based on an 11-point scale. Districts/charters which use a 4-point scale will report the grade letter earned in the 4-point scale and that will be converted to the 11-point scale at the Department. The incomplete (IC) grade is available for students who did not complete a course, and the withdrew (WD) grade is available for those who withdrew and didn't receive a grade or credit.

The district and school where the educator provides instruction or services will report Course Completion records. Course Completion records for area career center courses are reported by the career center district.

Reporting Summer School Dual Credit/Dual Enrollment

Dual credit/dual enrollment credit earned during summer school should be reported at the conclusion of the school year in the MOSIS June Student Course Completion collection. To report dual credit/dual enrollment, keep in mind the following:

1. Dual credit/enrollment courses completed in the summer of the current school year, e.g., 2025, are reported in the same school year June Student Course Completion file submission **only** (2025). Do not report summer school dual credit/enrollment in the June Summer Course/Student Assignment file or the October file.
2. Enter "Summer School Dual Credit/Enrollment" in the Course Completion Comment field.
3. Dual credit/dual enrollment students reported in the Course Completion file in this manner will receive an error message which will not allow the file to be certified and submitted.
4. Upon request, the Office of Data System Management (ODSM) will override the error to enable the reporting of dual credit/dual enrollment course completion files. Please contact ODSM's Core Data/MOSIS staff at coredata-mosis@dese.mo.gov or 573-522-3207, option 2, with any questions.

MOSIS June Career Technical Student Organizations (CTSO)

The June Career Technical Student Organizations (CTSO) collects the level of a student's participation in CTSOs. Districts are required to have the appropriate CTSOs as part of their Department-approved career education programs. CTSOs provide students with leadership skills, career competency, community service, and school service.

Reporting CTSO

The district where the CTSO chapter is located is required to report the student. Students may be reported by more than one district if participating in organizations at different schools.

June Cycle CTSO Key Data Concepts

- The June CTSO file is a required submission for school districts.
- Report one record per student; only students participating in a student organization need to be reported.
- Most CTSOs are 9-12. However, there are some districts that have CTSOs in the middle school, i.e., Technology Student Association (TSA). Those districts should report the middle school students as well.

File Layout: June Cycle CTSO

A file layout or list of data elements that must be submitted has been established for every data file. These file layouts inform districts or charters what data must be submitted and in what format they must be submitted.

MOSIS June ASVAB

The Armed Services Vocational Aptitude Battery (ASVAB) is a multiple-aptitude battery that measures developed abilities and helps predict future academic and occupational success in the military. This is reported for students in grades 9-12 who were tested during this school year.

Reporting ASVAB

The local education agency (LEA) that gives the ASVAB test reports the students' test results.

MOSIS June EOC Exception Collection

The End-of-Course (EOC) Exception Collection allows local education agencies (LEAs) to report the exception reason for 12th grade students who did not take the appropriate required EOC assessments. There are three exception codes available for students who were not assessed due to the following valid reasons:

- EOCEX2: Student received content out of state; in a private, parochial, or home school.
- EOCEX3: MAP-Alternate – Student identified by the IEP team received content without an alternate assessment available. Currently this is only applicable to Social Studies.
- EOCEX4: Student took content in another public Missouri district but was not assessed.

June Cycle – File Quick Notes

The EOC History Report can be accessed in the MCDS Portal as a reference.

The data from the EOC Exception Collection is used in the calculation of the Missouri School Improvement Program (MSIP 6) Academic Achievement Component of the Annual Performance Report (APR).

For instructions on how to submit this file, please see the [EOC Exception Collection Instructions](#). **Note: LEAs that do not need an exception for any graduates do NOT need to submit this file.**

File Layout: June Cycle EOC Exception Collection

A file layout or list of data elements that must be submitted has been established for every data file. These file layouts inform districts or charters what data must be submitted and in what format they must be submitted.

Below is a condensed representation of the file layout containing the item number, item name, reporting cycle, definition, and code set. Data requirements are indicated with R (required), O (optional), C (conditional), or N (not allowed). The detailed file layout containing all information including field type and length information can be found [here](#). Code sets may be referenced in Exhibit 38.

MOSIS June ID Cleanup

The June ID Cleanup is a trial loaded by DESE for local education agencies (LEAs) to review and certify. This trial links the assessment results for MAP Grade Level, MAP-Alternate, MAP EOC, and WIDA ACCESS to the demographic data reported in the April Student Core. This allows LEAs to ensure that every record has a valid MOSIS ID as well as a matching record in the April Student Core. It also provides LEAs an opportunity to upload teacher names, one each for English Language Arts, Math, Science, and Social Studies. This file is due at a date determined annually by DESE. **Some LEAs will initially have zero errors and will not need to clean up any errors – these LEAs will only need to certify the trial.**

MOSIS CCR ID Cleanup

The College and Career Readiness (CCR) ID Cleanup is a DESE-created trial to clean up missing MOSIS IDs, based on assessment results for the ACT, SAT, AP, and IB.

The data from the CCR ID Cleanup is used in the calculation of the Missouri School Improvement Program (MSIP 6) Success-Ready Student Component of the Annual Performance Report (APR).

LEAs can review the data for the MSIP 6 APR, LEA Success Ready Student Standard – CCR Assessments and Advanced Credit report online in the Missouri Comprehensive Data System (MCDS) Portal. The report refreshes daily. Allow 1-2 days after the CCR ID Cleanup file is certified to see updates. Users can log in to the secure side of the MCDS Portal and review the reports by following the path below:

Districts, Charters, & Schools > School Performance & Accountability > Reports and Resources

NOTE: CCR assessment appeals may be denied when both of the following conditions occur:

- (1) The LEA submits an appeal received before the CCR ID Cleanup file is certified; and
- (2) The appeal is to add a missing assessment record(s) contained within the assessment records from the CCR ID Cleanup preloaded trial.

For guidance on how to submit the CCR ID Cleanup file, please see the [CCR ID Cleanup Instructions](#). **Note: LEAs that do not have a CCR ID Cleanup trial in the MOSIS Data Collection System do not need to take additional action.**

MOSIS Assessment Precode

Assessment Precodes are collected five times throughout the year for five assessments. These collections allow districts to submit student information for the purpose of pre-population of assessment testing labels. The chart below provides the assessment, what grades are to be assessed, the certification due date for the assessment precoding, the testing window for the assessment, and the collection version that is to be supplied in the MOSIS Assessment Precode file. ***The most recent information can be found [here](#).***

Reporting Assessment Precode

Exhibit 1 – Technical Information

Forgotten or Unknown Usernames/Passwords

It is recommended that all districts have at least one designated security administrator responsible for user ID/password issues. This individual can assist district staff with user ID and password questions. Users may also click the Forgot Password and Forgot Username buttons located on the [DESE Applications Sign-in page](#) for assistance.

In order to strengthen security, accounts not accessed for five or more years are disabled. Instructions on how to reactivate the account may be accessed from the DESE Applications Sign-in page.

Another security safeguard disables accounts for 30 minutes after five failed password attempts. Users must wait 30 minutes and then establish a new password by clicking the Forgot Password/Username button and following the instructions.

For additional help, please send questions to dashelp@dese.mo.gov or call 573-522-3207, providing name, user ID, school district name, county-district code, and phone number with your request.

Use of the Back, Forward, and/or Refresh Toolbar Buttons

Please **do not** use the Back, Forward, or Refresh buttons when completing the DESE application information. Use of these buttons can cause unexpected results.

Web Accessibility for Users with Disabilities

Missouri websites follow the [Missouri IT Accessibility Standard](#), which follows the federal 508 web accessibility standards with just a couple of exceptions.

Most assistive technology devices now have JavaScript capability, but in the event a user must disable the use of JavaScript, DESE will provide human assistance for these users. For further assistance on this, please contact the web manager at webmgr@dese.mo.gov.

Exhibit 1A – MOSIS Components

MOSIS has two components: a MOSIS Student Identifier (MOSIS ID) component for managing students' state IDs and the MOSIS Data Collection component for the submission of data to the state. *A good practice to follow is to update the MOSIS ID component before each MOSIS Data Collection cycle.*

MOSIS ID Component

The MOSIS ID component is a web-based application used by districts to create and maintain unique statewide student identification numbers for students. A state ID is required for **any** student served by a public school district or charter. A MOSIS state ID is required for all MOSIS data collections that include the collection of individual student data. The complete MOSIS ID manual is available [here](#).

The sole purpose of the MOSIS ID component is to maintain the state ID of the student. It is not used to associate that student with any entity and does not imply any type of ownership for the state ID. The MOSIS ID component captures a minimum set of data items about a student in order to ensure unique identification of the student. These fields are used to identify a student's MOSIS ID if one has already been assigned or to assign a MOSIS ID to a student who is new to Missouri schools.

MOSIS Data Collection verifies students against the MOSIS ID component. During this verification, the date of birth being submitted to the MOSIS Data Collection component is compared to the date of birth on file with the MOSIS ID component. Failure to match will result in an error message.

MOSIS Data Collection Component

The MOSIS Data Collection component is a web-based application that allows districts to submit, clean, and certify data being reported to the Department. There are also files for submission of data by postsecondary institutions related to Career Education. The MOSIS Data Collection component has many collections geared toward collecting record level data in order to populate some of the current Core Data screens such as Attendance, Discipline Incidents, Special Education Exiter Counts by Age, and Educator.

MOSIS Data Collection is built on the following assumptions:

- The reporting institution identifies, collects, and maintains data required by MOSIS locally and can report those data to MOSIS.
- The Department has assigned unique identification codes for every district, school, and public postsecondary institution in Missouri.
- Every student has a unique MOSIS ID.
- Data collected by MOSIS is used for multiple purposes based upon state and federal laws, rules, and information needs.
- MOSIS data are used for populating portions of the Core Data System, state and federal reporting, accountability, and funding purposes.
- Data items may be required, optional, conditional, or not allowed. Conditional data items are dependent upon value of other data elements. If an optional data element is reported, it will be validated and must meet MOSIS business rules.

MOSIS Data Collection Files

A MOSIS Data Collection file is a set of data elements which are submitted to the MOSIS Data Collection System. A goal of MOSIS is to maintain as few file layouts as possible while still collecting the data needed. Some of these files are collected multiple times, but with different data elements required.

MOSIS Data Collection File Design

Part of the MOSIS Data Collection design is to keep the files collected from districts and charters as constant as possible. This results in collecting the same set of data elements across many cycles, but only requiring a subset of those data elements in each cycle. The subset is dependent on what data are needed in that time frame.

As an example, student demographic data (Student Core) are collected five times a year. Each time a district reports these data they will use the same file format with all the same elements, but rules will determine which elements are required, conditional, or optional. Some of the data elements will not make sense at times of the year other than when they are required. If they are submitted, they must be in a format that can be validated.

MOSIS file layouts document the required data elements and the order in which they must appear in a file submitted to the MOSIS Data Collection System. This includes column name, required field, data type, field size, format, and definition. Fields may be required, optional, conditional, or not allowed, depending on the cycle. Status definitions of the fields are as follows:

- Required – Item must be submitted in current cycle.
- Optional – Item does not have to be submitted in current cycle.
- Conditional – Item may need to be submitted in current cycle if certain conditions exist.
- Not Allowed – Item cannot be submitted in current cycle.

The information provided about the files includes the item name, item number, cycle collected, code set, and item definition. Excel workbooks containing more detailed file layouts and business rules can be found on the [Core Data/MOSIS page](#).

Basic Steps of MOSIS Data Collection

Some basic steps to follow when submitting data to the MOSIS Data Collection System are listed below:

- Identify, collect, and enter data into local systems.
- Extract data from local systems for upload to MOSIS in the desired MOSIS formats.
- Validate data extracted from local systems.
- If necessary, merge extracted data into a district-level data set.
- Create trials by uploading data sets to the online MOSIS Data Collection System.
- Correct errors and review warnings in the MOSIS Data Collection trial(s).
- Certify or re-certify MOSIS Data Collection trial(s).

Districts and charters using the MOSIS Data Collection System will upload information and resolve edits presented to them. Upon the resolution of the edits the district or charter has the opportunity to certify the data.

Certification does the following:

- Marks the trial as certified. Only one certified trial can exist per collection, but it can be overwritten as needed.
- Indicates the district or charter wants the Department to use those data in fulfilling the collection's data requirement.
- Populates the Department data systems, i.e., Core Data.

These steps assume that the user already has access to the MOSIS system.

Exhibit 2 – Racial/Ethnic Categories
(Screens 02, 08, 09, 11, 12, 13, 14, 16, 18, 20, and 29)

Racial/ethnic designations, as used by the U.S. Department of Education, Office for Civil Rights, do **not** denote scientific definitions of anthropological origins. A pupil may be included in the group to which he or she appears to belong, identifies with, or is regarded in the community as belonging to. However, **no person should be reported in more than one of these seven racial/ethnic reporting categories**. The manner of collecting the racial/ethnic information is left to the discretion of the institution provided that the system which is established results in reasonably accurate data.

School districts have the key role in collecting data using the race and ethnicity categories. It is essential for district and school personnel to establish policies and procedures. Self-identification is the preferred choice of selecting an individual's race and ethnicity, though it is not required by law for a person to make these selections. Students and parents who are reluctant to self-identify should be informed that observer identification will be used. The federal government requires the use of observer identification of elementary and secondary school students' race and ethnicity as a last resort if the information is not provided by the students and their parents.

- ASN (A)** Asian (Not of Hispanic Origin): A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian Subcontinent. This area includes, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.
- BLK (B)** Black or African American (Not of Hispanic Origin): A person having origins in any of the black racial groups of Africa.
- HSP (H)** Hispanic or Latino Ethnicity: An indication that the person traces his or her origin or descent to Mexico, Puerto Rico, Cuba, Central and South America, and other Spanish cultures, regardless of race.
- IND (I)** American Indian or Alaska Native (Not of Hispanic Origin): A person having origins in any of the original peoples of North and South America (including Central America), and who maintains cultural identification through tribal affiliation or community attachment.
- MULTI (M)** Multiracial (Not of Hispanic Origin): A person having origins in any of more than one of the racial groups.
- PAC (P)** Native Hawaiian or Other Pacific Islander (Not of Hispanic Origin): A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.
- WH (W)** White (Not of Hispanic Origin): A person having origins in any of the original peoples of Europe, Middle East, or North Africa.

Exhibit 6 – Graduate, Transfer, and Dropout Data (Screen 13)

Data displayed on Screen 13 accounts for the progression of students through the school system toward graduation. Transfers in and transfers out account for movement within the cohort. Students who enter or leave the district, school, or grade are counted as transfers. Data comes from the June Student Core, Enrollment and Attendance MOSIS submission.

Graduates – A student who has met both the State Board of Education and the local board of education requirements and has been issued a high school diploma is reported as a graduate. Students who complete all requirements prior to June 30 are reported as graduates in their regular cohort.

Code Set	Name	Code	Definition
Exit Codes	Graduated	G01	Graduated by earning all required credits through regular or modified classes aligned with state standards. No credits were earned by meeting IEP goals.
Exit Codes	Graduated – Alternate Standards	G03	Graduated by earning some or all required credits through modified classes aligned with alternate state standards or by meeting IEP goals. This would generally be limited to those students with the most significant cognitive disabilities whose IEP teams have determined that this method of graduation provides FAPE to the individual student.

Transfers In – A student enrolling and attending a new district and/or school is reported as a transfer in.

Code Set	Name	Code	Definition
Entry Codes	Tfer from pub schl outside district in state	T101	Transfer from another public school district in state.
Entry Codes	Tfer from pub schl within district	T102	Transfer from another public school within the district. (This code is not intended to indicate natural progression of a student, e.g., moving from junior high school to high school.)
Entry Codes	Tfer from home schl in state	T103	Transfer from home schooled in state.
Entry Codes	Tfer from private schl in state	T104	Transfer from private school in state.
Entry Codes	Tfer from pub schl out of state	T105	Transfer from public school out of state.
Entry Codes	Tfer from private schl out of state	T106	Transfer from private school out of state.
Entry Codes	Tfer from home schl out of state	T107	Transfer from home schooled out of state.
Entry Codes	Tfer from dropout	T108	Transfer from dropout (non-recovered).
Entry Codes	Tfer from another country	T109	Transfer from another country.
Entry Codes	Enroll from MOCAP Host District (disengagement)*	T110*	Student enrolled in resident district after disengagement as a full-time student in a MOCAP Host District program.
Entry Codes	Enroll in MOCAP after full time MOCAP Host District*	T111*	Student enrolls in MOCAP courses in resident district after unenrolling from full-time MOCAP Host District program.
Entry Codes	Tfer in from unknown	T100	(This code is temporary and will be removed in the future.) Use this code for students transferred in, only if you cannot populate one of the more detailed options.

*Reported by resident district after student is dropped from MOCAP host district program.

Please note: DESE recommends reporting the exit code on the student's first day of non-attendance.

Transfers Out – A student exiting and enrolling and attending in another district and/or school is reported as a transfer out.

Code Set	Name	Code	Definition
Exit Codes	Tfer to pub schl outside district in state	T001	Transfer to another public school district in state.
Exit Codes	Tfer to pub schl within district	T002	Transfer to another public school within the district. (This code is not intended to indicate natural progression of a student, e.g., moving from junior high school to high school.)
Exit Codes	Tfer to home schl in state	T003	Transfer to home schooled in state.
Exit Codes	Tfer to private schl in state	T004	Transfer to private school in state.
Exit Codes	Tfer to pub schl out of state	T005	Transfer to public school out of state.
Exit Codes	Tfer to private schl out of state	T006	Transfer to private school out of state.
Exit Codes	Tfer to home schl out of state	T007	Transfer to home schooled out of state.
Exit Codes	Tfer to another country	T008	Transfer to another country (assumed continuing).
Exit Codes	Deceased	T009	Deceased (transferred out).
Exit Codes	MOCAP Host unenrollment (disengagement)*	T010*	Full-time MOCAP host student unenrolled due to disengagement in host district program and transferred back to resident district.
Exit Codes	MOCAP Host District (full time) to MOCAP Course*	T011*	Full-time MOCAP host student moves to less than full time and becomes enrolled in MOCAP courses in resident district.

*Reported ONLY by MOCAP host district when student is dropped from host district program.

Remained – A student enrolled and attending a district that remains in the district and is expected to return the following school year or changes statuses and/or grade during the school year.

Code Set	Name	Code	Definition
Exit Codes	Remained: Advanced	R001	Remained in same school and advanced grade and moved onto the next school following natural progression, e.g., moving from junior high school to high school.
Exit Codes	Remained: Retained*	R002	Remained in same school and was retained in the grade level.
Exit Codes	Remained: Other	R003	Student has remained in the building but has changed one or more the following statuses: Residency Status, Full-Time/Part-Time Status.
Exit Codes	Remained: Changed Grade	R004	Student remains in the same district and building but changed grade.
Entry Codes	Remained: Advanced	R101	Remained in same school and advanced grade or advanced grade and moved onto the next school following natural progression, e.g., moving from middle school to junior high school.
Entry Codes	Remained: Retained	R102	Remained in same school and was retained in the grade level.
Entry Codes	Remained: Other	R103	Student has remained in the building but has changed one or more of the following statuses: Residency Status, Full-Time/Part-Time Status.
Entry Codes	Remained: Changed Grade	R104	Student remains in the same district and building but changed grade.

*Used for Screen 13.

Dropouts – A student reported for the school year as a dropout is an individual who –

1. Was enrolled at the end of the previous school year, did not return to school after summer vacation, and was not enrolled at any time during the school year; or
2. Was enrolled during the regular school term and was not enrolled on the last day of the same school term; and
3. Has not graduated from high school.

Code Set	Name	Code	Definition
Exit Codes	Dropped Out: Other	D01	Dropped Out: Other.
Exit Codes	Dropped Out: Expulsion	D02	Dropped Out: Expulsion.
Exit Codes	Dropped Out: Received Cert	D03	Dropped Out: Received Cert – students with disabilities who exited an educational program through the receipt of a certificate of attendance. This includes students who reached age 21 or otherwise terminated their education and who have met the district's requirements.
Exit Codes	Dropped Out: Reached Max Age	D04	Dropped Out: Reached Max Age – Students with disabilities who exited an educational program because they reached the maximum age for receipt of educational services and did not receive a diploma or certificate of attendance.
Exit Codes	Dropped Out: GED Program	D05	Dropped Out: GED Program.
Exit Codes	Dropped Out: Moved not known continuing	D06	Dropped Out: Moved not known continuing.

Stopout – A student reported as a dropout that has returned or a student placed on regular or long-term suspension. A student's absence must exceed 20 consecutive calendar days in order to use the stopout code; otherwise the student is counted absent.

Used for students initially recorded as a dropout that have re-enrolled on or before the subsequent fall enrollment count date (last Wednesday in September) of the following year. See Exhibit 6A for examples of how to use the stopout codes.

Code Set	Name	Code	Definition
Exit Codes	Stopout: Exit	S000	Used when a student initially recorded as a dropout returns to school prior to the fall count date (last Wednesday in September) of the subsequent school year. The initially recorded dropout code is changed to Stopout: Exit.
Exit Codes	Stopout Suspension: Exit	S001	Used when a student is placed on long term suspension and the student will not return to school until after the subsequent fall count date (last Wednesday in September).
Entry Codes	Stopout: Entry	S100	Used when a student initially recorded as a dropout returns to school prior to the fall count date (last Wednesday in September) of the subsequent school year.
Entry Codes	Stopout Suspension: Entry	S101	Used when a student initially recorded as exiting as a stopout due to a long-term suspension (S001) returns to school after the fall count date (last Wednesday in September) of the subsequent school year. If the student returns before the fall count date do not use this code; they can be recovered from the dropout status by using the regular Stopout Entry code (S100).

Enrolled All Year – A student enrolled in the district since the last Wednesday in September until the final day of the school year.

Code Set	Name	Code	Definition
Yes No	Enrolled All Year	Y or N	Enrolled All Year flag indicates the student was enrolled in the district since the last Wednesday in September until the final day of the school year.

For the purposes of applying the dropout definition, the following additional definitions also apply:

1. A school year is the 12-month period including the regular school term and the preceding summer vacation. Each June Cycle should be treated as a benchmark and all students transferring, graduating, or dropping out since this benchmark should be reported in the following June Cycle. The date for counting dropouts is assumed to be the first day after the end of the regular school term. A change in MOSIS may be submitted for re-enrollments on or before the enrollment count date the following September.
2. The previous school year is the school year prior to the school year being reported.
3. Students are counted as dropouts for the grade and school year for which they fail to report. The list of students enrolled at the beginning of the school year should be compared with the list of students at the end of the previous year to find changes that occurred during the summer.
4. Missouri High School Equivalency Certificate recipients are not counted as graduates, unless the student passed the Missouri High School Equivalency Exam through participation in a Missouri Option Program.
5. A student is counted as a dropout only once each school year. A student who dropped out during the school year, re-enrolled, and was enrolled on the last day of the same school year, is not counted as a dropout.
6. Students in closing schools that merge into a new school and students who are required to change schools because of renovations or other reasons are not reported as transfers, but are considered remained. However, students who elect to change schools, e.g., apply for a permissive or hardship transfer, are counted as transfers.
7. Alternative school programs do not report graduates, transfers in, transfers out, or dropouts. Students entering an alternative school program from either a school within the district or from another district are **not** transfers in to the alternative school program or transfers out of the sending district. Students returning to the school they were attending prior to attending the alternative school program are **not** transfers in to the receiving district. However, students who leave the alternative school program and do not return to the district they were attending immediately prior to the alternative school program are counted as transfers out of the school sending the students to the alternative school program and transfers in to the school receiving the student from the alternative school program. Dropouts are reported at the student's regular school in their home district (the district the student attended immediately prior to entering the alternative school program).

Exhibit 6A – Stopout Scenarios**Scenario 1:**

Jeff stops attending school and is coded as a dropout (D01) on 02/01/2025. He decides to return to school on 02/22/2025. How should Jeff be coded?

In the June Student Enrollment and Attendance file, change Jeff's dropout exit (D01) to a stopout exit (S000) on 02/01/2025. Then create another record for Jeff (bring him back in) with the corresponding stopout entry (S100) on 02/22/2025. Jeff's final exit will then reflect how he completes the year – remained advanced, remained retained, dropout, or transfer.

*Note: Since Jeff has been in non-attendance for more than 20 calendar days, it is appropriate to use a stopout code.

Scenario 2:

Amber, a PK student, stops coming to school and is coded as a dropout. The district has not received a request for records and is not aware if Amber is continuing education. Is this the correct way to code Amber's exit?

No, Amber should be coded as a transfer to home school (T003).

*Note: If a PK student stops attending school, the appropriate code is T003 (transfer to home school).

Scenario 3:

Kelsey stops attending school on 04/01/2025 and is coded as a dropout (D01). On 04/19/2025, Kelsey returns to school. How should Kelsey be coded?

Kelsey will be marked as absent for the days she was gone, and the appropriate exit code should be used at the end of the year if the student remained advanced, remained retained, transferred, or dropped (quit attending).

*Note: The student was not gone for more than 20 calendar days, and therefore does not meet the minimum criteria to use the stopout code.

Scenario 4:

Erin is placed on long-term suspension on 10/10/2024 and will not be allowed to return to school until 10/01/2025. How should she be coded?

Erin will be exited with the stopout suspension exit code (S001) since she will not be able to attend school until AFTER the fall count date of the next school year.

Scenario 5:

Brittany, a six-year-old kindergartener, stops attending school on 11/06/2024. The district has not received a request for records and is not aware if Brittany is continuing education. How should Brittany be coded?

Brittany should be coded as a dropout (D01).

*Note: If a kindergarten student stops attending school, no matter the age, the student should be counted as a dropout.

(Screens 20, 22, 24, 26, and 27)**

All certification must be at the proper grade level unless otherwise specified.

A substitute teaching certificate is the minimum certification required for collection of state aid (ADA); however, a substitute certification is not considered appropriately certified. Where Exhibit 10 of the Core Data/MOSIS manual says “Any certificate...” it is referring to any teaching certificate exclusive of the substitute certificate. An Early Childhood Education is not appropriate for “Any certificate. . .” unless taught at the PK-3 grade level.

Advanced Placement (AP) curriculum and courses are approved through an audit process with the College Board. International Baccalaureate (IB) curriculum and courses are approved through an authorization process with International Baccalaureate.

See Exhibit 33 for information on appropriate certification requirements. See Exhibit 15 for information on ESEA appropriate certification requirements.

Missouri Teaching Certification Requirements – Elementary/Middle Grades (PK-8)	
Elementary Self-Contained Classes (PK-8)	Certificate Required
Note: For PK-5 in-seat courses, the course code may be left blank if the classes are self-contained.	
Early Childhood Education (Pre-Kindergarten)	B-3, PK-3*, or EARLY CHLD SPEC ED
Kindergarten	PK-3 or B-3
Grades 1 through 3	B-3, PK-3, or ELEM (includes K-8, 1-8, 1-6)
Grades 4 through 8	ELEM (includes K-8, 1-8, 1-6)
*Teachers with K-8 Life Certificates issued prior to September 1, 1982, and who taught K or PK for at least one full school year in Missouri public schools prior to September 1, 1982, will be considered as “grandfathered” and may continue to teach PK with the K-8 Life Certificate.	
Departmentalized (Grades 5-8)	Certificate Required
Grades 5-6	1) Certification at proper grade level in subject area; OR 2) ELEM (K-8, 1-6, or 1-8) certification may be used to teach classes in English, social studies, reading, math, science, computer literacy, basic skills, and at-risk; OR 3) Subjects may be taught on appropriate subject area specific 5-9, 7-9/7-12 certificates (grades 5 and 6 may be taught on a 7-12 certificate); OR 4) Exploratory subjects may be taught on appropriate subject area specific 9-12 certifications. Exploratory classes are in the areas of Agriculture, Business, Drama/Speech/Theater, FACs, Industrial Technology, Marketing, and World Languages. Art, Music, Health, and PE are not considered exploratory classes for reporting and require the appropriate subject and grade level certifications due to statutory requirements. Any course taught for high school credit requires appropriate subject and grade level certification.

Grades 7-8	<ol style="list-style-type: none"> 1) Certification at proper grade level in subject area; OR 2) ELEM (K-8, 1-6, or 1-8) certification may be used to teach classes in English, social studies, reading, computer literacy, basic skills, and at-risk; OR <p>NOTE: Math and science may not be taught on an ELEM certificate.</p> <ol style="list-style-type: none"> 3) Exploratory subjects may be taught on appropriate subject area specific 9-12 certifications. **Exhibit 11 – SEQ-Sequence Number
(Screens 20 and 22)**

The Sequence Number is a number 0 through 4 (not Roman numerals) that identifies courses taught at more than one level, for example, Language Arts 1, 2, 3; Spanish 1, 2, 3 and 4. If a course is offered at more than one level, it is essential that the proper sequence number be entered for each high school course. Elementary and middle schools should not use sequence numbers.

If only one level of course content is offered the SEQ number should be left as “0.”

**Exhibit 12 – Grade Level Codes-Course and Assignment
(Screens 20 and 24)**

<u>Code</u>	<u>Description</u>
IT	Infant/Toddler
PK	3- and 4-year-olds
K	Kindergarten
01-12	Grades 1-12 (Use one specific grade level.)
13	High School (Grades 9-12 typically, but use also for non-teaching positions such as principals when grades 7 and 8 are included in high school building.)
14	Junior High or Middle School (Any combination that includes <u>only</u> grades 7-9.)*
15	Middle School or Junior High (Any combination that includes <u>only</u> grades 4-8.)
16	Elementary (Any combination that includes <u>only</u> grades K-8.)
17	Any combination of grades K-12 that includes a greater grade span than those included in 13 through 16 above. Grade 17 is typically used for superintendents, nurses, etc., and is usually reported in building 1000.
18	Elementary (Any combination that includes <u>only</u> grades PK-3.)

The grade displayed on Screen 20 – Course & Assignment and on Screen 24 – Summer School Courses & Enrollment is the grade level at which the curriculum for the specific course is designed to be taught. The grade level should reflect the grade at which the course curriculum is offered, not necessarily describe the students in the classroom. For example, if General Science is offered as a ninth grade class, it should be reported as grade nine even though some 10th and 11th grade students may be in the classroom. Conversely, a Physics class offered as a junior level (or third high school year) course should be coded grade 11 (not grade 13) even though the class contains advanced standing freshmen and/or sophomores.

*Career Education Exploratory Family and Consumer Sciences (FACS) courses offered to ninth grade students should be reported under the career education assignment if the district has an approved FACS program. Seventh and eighth grade students taking exploratory FACS courses should be reported under the non-career education assignment.

Combined Classes

The combined class indicator is used to report classes of two or more different subjects or course sequence levels (or grade levels for self-contained elementary classes) that are taught during the same time period by the same teacher. Each set of combined classes is reported with the same combined class indicator number.

Exhibit 14A – Embedded Credit and Team Teaching
(High School Only)

School districts may choose to embed competencies from one subject into another class and award credit to students for both the embedded content and the other subject. Because this involves an alternative method for granting credit, school districts choosing to offer embedded credit must notify the Office of Quality Schools at 573-751-4426 providing assurances that the embedded content is closely aligned to the subject in which the content will be taught, is aligned closely to the Missouri Learning Standards, and is rigorous in expectations. The district assurances must also include a plan for determining student competency for the embedded credit as well the acceptable level of student mastery for awarding credit.

When reporting embedded credit classes, the Delivery System is reported as EC and the Minutes per Week are reported as 0 since no additional instructional time is being provided. Core academic classes offered through embedded credit are required to meet the same appropriate certification requirements as classes offered in a more traditional manner. Example 1 below illustrates this.

Example 1: Embedded Credit – Single Teacher

Educator	Course	Course Name	Delivery System	Minutes	Comment	AC Requirement
Jones, Joe	016741	AGBUS MKT		265		Ag Certificate required
Jones, Joe	115800	MATH	EC	0	Math is embedded into Ag Business	Math Certificate

Exhibit 15 – Reporting Guidelines for ESEA Federal Programs (Screens 18 and 20)

All federally funded positions, whether certificated or non-certificated, are to be reported. This includes all assignments approved in applications, full- or part-time, during, or outside of school hours. All positions are to be reported according to what the staff person is actually doing. Public schools should report in MOSIS the Title I teachers providing services to students that attend nonpublic schools at other times. The teacher must be a public school employee during the time of this instruction and the public school district must have a job description for this teacher. Reported positions should not be different from what would be observed on site. Staff requirements outlined in Exhibit 15 must be followed for all ESEA paid staff.

Instructional minutes per week are reported for each class/assignment in the MOSIS October Course Assignment file. Teachers paid with federal funds are to have the same number of instructional and planning minutes as classroom staff.

Caseloads are reported for teachers paid with federal funds – except for class-size reduction and preschool teachers. Class-size reduction and preschool teachers should report student assignments. When a caseload is reported, student assignments are not reported. The caseload is the number of students served for each class/assignment. If a teacher is assigned more than one subject, each is listed as a separate assignment with the caseload for each assignment. Caseload or enrollment is reported in the MOSIS October Course Assignment file. **Note:** If course code 887900 (Other Pupil Personnel) is used, enter the specific job title in the Assignment Comment.

A teacher who is assisted by a paraprofessional should have the paraprofessional's name noted in the Assignment Comment in the October Course Assignment file. Accordingly, the teacher the paraprofessional is assisting should be entered in the Assignment Comment in the October Course Assignment file for the paraprofessional. **Remember:** *Do not report the educator's SSN in the Comment field, as the comment will be displayed in full on the Staff Assignment Report.* Paraprofessionals are coded the same way (course number, if applicable) as the teacher they are assisting. In a Title I building implementing a Schoolwide program, if an instructional paraprofessional is assisting several teachers of the same class/subject, i.e., all second grade teachers or all Supplemental Math teachers, only the teacher(s) of record that the paraprofessional reports directly to for each assignment needs to be noted in the Assignment Comment in the October Course Assignment file. Paraprofessionals do not have a caseload; therefore, no enrollment is reported. **Note:** Course code 888200 Paraprofessional (Teacher Assistant) should not be used for ESEA Federal Programs.

After-school tutoring is reported and is to be provided by a certificated teacher in small groups. The Extra Duty Salary amount is reported in October and may be revised at the end of the school year to reflect the correct amount. The appropriate course code (Supplemental English Language Arts/Reading/Math), the weekly minutes, the average weekly number of students, the program code to identify the funding source, and the delivery system "H" for before or after-school tutoring are entered. The "H" delivery system will not increase the teacher's total instructional minutes. **Note:** Federal funds may not pay for tutoring to meet state guidelines/requirements as in Senate Bill 319.

Schoolwide Programs funded solely with Title I.A funds have data entered for supplemental teachers in the same way as in a Targeted Assistance program with the exception of caseload. The caseload in a Schoolwide program is an estimate of the number of students for each class/assignment the supplemental teacher works with during the week allowing for flexible grouping and interventions. If the building has met MSIP requirements for class size and a class-size reduction teacher is approved to be paid with Schoolwide funds, the class-size reduction teacher is entered as any other regular classroom teacher with the addition of program code 03 for

Schoolwide under Title I.A.

If a building's Schoolwide program is combining federal, state, and local funds into a Consolidated Schoolwide Pool, designate the teachers and staff paid from the Consolidated Schoolwide Pool with program code 13. Data for those staff are entered as described with the exception/addition of the program code.

Teachers and Paraprofessionals: Federal funds and payments may not be received for staff that are not appropriately certificated. All teachers in buildings receiving Title I funds must be appropriately certificated. The Staff Assignment Report will indicate if a teacher is appropriately certified for the assignment they are teaching.

All paraprofessionals paid with federal funds and all instructional paraprofessionals in a Schoolwide building must be qualified. Paraprofessionals must have a minimum of 60 semester hours of college credit with a certified transcript on file or have taken and passed the Paraprofessional or ParaPro Assessment or have completed the 20-hour online training course to be a substitute teacher. This information is reported in the October Cycle Educator Core Highest Degree field and will be verified during the monitoring process.

Clarification for MAP Coding: For MAP Assessment coding purposes in the April Cycle of MOSIS, all students are coded as Title I in a building designated as Schoolwide under Title I.A. This applies whether the program is funded only with Title I.A funds or funded through the Consolidated Schoolwide Pool. Students in a building with a targeted assistance program are coded as Title I if they are receiving direct services at the time of MAP testing.

In MOSIS, all students are coded as Title I in a building designated as Schoolwide under Title I.A. This applies whether the program is funded only with Title I.A funds or funded through the Consolidated Schoolwide Pool. Students in a building with a targeted assistance program are coded as Title I if they received direct Title I services at any time during the school year.

Please refer to the following chart when reporting information for all staff funded with ESEA programs. The chart indicates the allowable positions, grade levels, staff requirements, etc.; use the correct MOSIS/Core Data codes to enter information for the staff position.

Exhibit 16 – Reporting Guidelines for Special Education Programs (Screens 18 and 20)

Special Education Teachers in Early Childhood Special Education (ECSE) and K-12 Programs

For each assignment indicate the proper course code, grade level, program code, delivery system, minutes per week, and student assignments or caseloads as appropriate via the MOSIS October Educator files.

See the [Office of Special Education page](#) for a table of allowable coding combinations for special education teachers and other technical assistance documents.

Course Codes

- See Exhibit 10 for a complete listing of course codes and names and certification requirements.
- Most special education teaching and non-teaching assignments and IEP case management course codes begin with “19” with the exception of other miscellaneous duty codes.

Grade Levels

- See Exhibit 12 for a complete listing of grade levels along with definitions.

Program Codes

- See Exhibit 13 for a complete listing of program codes along with definitions.
- Special Educators will use program codes 06, 09, 17, and 19 as appropriate.

Delivery Systems

- See Exhibit 14 for a complete listing of delivery systems along with definitions.
- Special Educators will use delivery systems Co-Teaching (CO), Individual/Small Group (IG), ECSE Integrated Classroom (IN), Self-Contained (SC), and Low Incidence Self-Contained (LI).

Minutes per Week

- The special educator’s average minutes per week spent for each course code reported. The total minutes per week for all assignments in all school buildings should be consistent with the district’s available minutes per week prorated by FTE.

Teaching Assignments – Definitions/Instructions

Note for Early Childhood Special Education (ECSE) programs – All personnel serving children ages 3, 4, and 5 (5 defined as pre-kindergarten eligible, turning 5 after August 1) must be reported with program code 17 and grade level PK. Personnel working with children age 5K (defined as kindergarten eligible, turning 5 before August 1) and age 6 in an early childhood program must be coded with a separate assignment using a combination of program code 17 and grade level K. This combination will identify ECSE services being provided to kindergarten-eligible children.

Direct Service/Instruction Special Education – Core Content Areas (195000) – Direct service or instruction in core content areas of communication arts, mathematics, science, and/or social studies delivered by special education teachers to school-aged special education students with any disability diagnosis. This code should not be used for reporting instruction in a single core content area for which the special education teacher is giving the grade for that content area.

- Grade levels: K, 01-16, 18
- Program codes: 06, 09, 17, and 19
- Delivery systems: CO, IG, SC, and LI

Direct Service/Instruction Special Education – Non-Core Content Areas (195010) – Direct service or instruction in non-core content areas delivered by special education teachers to school-aged special education students with any disability diagnosis. This code should be used when no other 19xxxx course number applies.

- Grade levels: K, 01-16, 18
- Program codes: 06, 09, 17, and 19
- Delivery systems: CO, IG, SC, and LI

Direct Service/Instruction Visually Impaired (195100), Hearing Impaired (195200), Severe Developmental Delays (195300) – Direct service or instruction in Braille or other related instruction (195100). Direct service or instruction in sign language, i.e., American Sign Language (ASL), Signed Exact English (SEE, SEEII) (195200). Direct service or instruction delivered to students assessed against alternate achievement standards (MAP-A) (195300).

- Grade levels: PK, K, 01-16, 18
- Program codes: 06, 09, 17, and 19
- Delivery systems: CO, IG, SC, and LI

Direct Service/Instruction Early Childhood Special Education – ECSE (195400) – Direct service or instruction delivered by special education teachers to students receiving ECSE services. If the teacher or aide is assigned two classes (1/2 day program each), they are reported with two assignments. Speech/language pathologists working with ECSE students ages 3, 4, and 5 are reported with course code 195500 and program code 17.

- Grade levels: PK, K
- Program codes: 06 or 17 (*see note for ECSE above*). Program codes 09 and 19 as appropriate.
- Delivery systems: CO, IG, IN, SC, and LI

Direct Service/Instruction Speech/Language Pathology (195500) – Direct service or instruction for speech/language pathology delivered by speech/language pathologists to special education students. See additional information on speech/language services below.

- Grade levels: PK, K, 01-16, 18
- Program codes: 06, 09, 17, and 19
- Delivery systems: CO, IG

Departmentalized Instruction for Special Education Communication Arts (195610), Mathematics (195620), Science (195630), or Social Studies (195640) – Instruction to special education students in a setting where the special education teacher is providing the student's initial or only content instruction. This course number is differentiated from services where the special education teacher is re-teaching or otherwise supporting content that has been presented initially by a regular education teacher certificated in that area.

- Grade levels: 7-15
- Program codes: 06, 09, 17, and 19
- Delivery system: SC

Community Based Instruction (195700) – Systematic skill training of students with disabilities within the natural community setting where such skills are used, as identified in the IEP. This instruction is for special education students only and should not include career education classes in which regular education students would enroll. Example: Student participation in a community-based instruction program at a local grocery. This participation may ease/enhance the development/maintenance of mathematics skills in the area of financial management, budgeting, and independent living for student participants.

- Grade levels: 8-14
- Program codes: 06, 09, 17, and 19
- Delivery system: IG

Work Experience Instruction (195800) – Work experience instruction is limited to students with disabilities whose Individualized Education Programs (IEPs) indicate the need for work experience in a competitive setting. Program goals include the acquisition of skills related to performing work under supervision, as well as job-related skills. Work experience instruction also includes the participation of students with disabilities who are engaged in work experience through the Office of Adult Learning and Rehabilitation Services' Cooperative Work Experience (COOP) Program.

- Grade levels: 8-14
- Program codes: 06, 09, 17, and 19
- Delivery system: IG

Case Management and Caseload – Definitions/Instructions

Case Management of IEPs (198600) – Minutes per week would include time spent planning for and attending IEP meetings as well as other required special education meetings. Report the total number of IEP cases managed which is the number of IEPs the teacher is responsible for on a case manager basis, regardless of which teacher may be actually implementing the IEP. A case management assignment does not need to be reported if a teacher does not have time/minutes dedicated to case management duties.

- Grade levels: PK, K, 01-16, 18 (not required)
- Program codes: 06, 09, 17, and 19
- Delivery systems: Not applicable

Non-Teaching Assignments – Definitions/Instructions

Consult with Regular/Special Education (193000) – Time spent by special education teachers consulting or collaborating with regular or special education teachers regarding instructional practices or coordinating instruction for students as necessary to implement IEPs. This is time above and beyond the instructional planning time required for all teachers.

- Grade levels: Not required
- Program codes: 06, 09, 17, and 19
- Delivery systems: Not applicable

Testing (193100) – Time spent by special education teachers in testing/assessment/evaluation of students with disabilities or students suspected of having disabilities, and time spent writing evaluation reports.

- Grade levels: Not required
- Program codes: 06, 09, 17, and 19
- Delivery systems: Not applicable

Special Education Co-ops and Shared Educators

When a special educator serves in more than one district on a cooperating or shared basis, both districts will report the educator. The full salary and FTE are shown by the fiscal agent district only. The fiscal agent district reports the educator's assignments in the participating districts using program code 09. Participating districts indicate the fiscal agent county-district code in the MOSIS Educator Core file, and report the assignment for the educator in their district using program code 19.

Special Education Teacher Aides or Paraprofessionals

Special education aides or paraprofessionals (K-12) should be reported using the assignment code 195000. ECSE aides or paraprofessionals must be reported with assignment code 195400 (ECSE). See additional information on speech/language services below.

Personnel Working with ECSE Programs

Personnel working with ECSE programs must be reported with program code 17 and grade level PK in order to receive appropriate credit on the district's ECSE Final Expenditure Report.

Ancillary Personnel

For ancillary personnel including occupational therapists, physical therapists, school psychological examiners, educational diagnosticians, etc., refer to Exhibit 10 for assignment/course code listings and the *Missouri State Plan for Special Education* – Personnel Standards for the certification/licensure requirements. The *Missouri State Plan for Special Education* can be found [here](#). See additional information on speech/language services below.

- Assignment/course codes: See Exhibit 10
- Grade levels: PK, K, 01-16
- Program codes: 06, 09, 17, and 19
- Delivery systems: Not applicable
- Student assignments/caseload: Not required

Speech/Language Services

The following provides guidance on the reporting of speech/language services:

- Speech/Language diagnostic/evaluation and/or supervision of aides/assistants: Report assignment code 889000 with position code 90; requires SLP certification or licensure
- Speech/Language services provided by an SLP: Report assignment code 195500 with position code 60; requires SLP certification or licensure
- Speech/Language services provided by a speech/language assistant or aide: Report assignment code 195500 with position code 80; requires licensure issued by Board of Healing Arts

Exhibit 17A – Reporting Guidelines for Early Childhood Education Programs (Screens 18 and 20)

All pre-kindergarten education programs should be listed on the Core Data report. This includes district-funded preschool programs, and if they are tuition-based programs this should be indicated in the Comments area. If the programs are funded through Special Education (*see Exhibit 16*) or Title I (*see Exhibit 15*), they should be reported following the guidelines established for those funding sources.

Preschools that are full-day programs should be reported on one line. Half-day programs should be reported on a separate line with the corresponding minutes and enrollment.

Planning Time for teachers should be listed on a line with course number 990000. This course number is only used to report the number of minutes provided for planning time.

Instructional/program time (30 minutes or longer) outside the regular school day is reported using the delivery system H.

Exhibit 17B – Reporting Guidelines for Parent Educators-Early Childhood Education Programs (Screens 18 and 20)

Parent Educators are reported where they have duties or in building 1000.

All parent educators that provide parent education services during the current program year must be reported. If a parent educator leaves during the program year, the district must report an Early Termination Date for that employee.

FTE includes all time spent including time spent outside the regular school day up to a total of 1.00 FTE.

Salaries are reported as Regular Term Salary even if outside the regular school day unless the total FTE would exceed 1.00.

- Individuals exceeding 1.00 FTE will be reported with one Educator Core record (the salary for the portion of time exceeding 1.00 FTE should be reported as Extra Duty Pay with an entry made in the Comments area to explain) and two Educator School records. The first Educator School record will include the initial position code, 1.00 FTE, and initial position salary with the extra duty pay. The second Educator School record will include position code 70, zero salary, and zero FTE.

Grade Level is reported as PK if the parent educator has been trained in the 3-K Curriculum. If not, report as IT.

Enrollment reported for Parent Educators indicates the estimated number (caseload) of families to be served. Minutes per Week are reported for all assignments. If the FTE is greater than 1.00, separate assignments are listed showing the minutes per week service occurs during the regular school day (the portion within the 1.00 FTE) and the minutes per week service occurs outside the school day (the portion greater than 1.00 FTE). Time beyond the total 1.00 FTE may be estimated initially and updated at the end of the year.

Delivery System code to identify the portion of FTE greater than 1.00 for service provided after school is H.

Contracted Services: The Employed District will report the parent educator twice. Report course code 887800 showing the minutes spent in the Employed District and then another record with course code 880010 showing the minutes spent in the Participating District(s) along with a comment including the name(s) of the Participating District(s).

PAT Supervisor: In a district with more than one parent educator, an educator who supervises is reported as a supervisor (position code 30) using course code 887897. If any part of the time is actually working with parents as a Parent Educator, two separate Educator School records are reported in MOSIS with the appropriate position codes 30 and 70 with assignment designations. Two separate screens will then be displayed in Core Data.

NOTE: In districts with only one parent educator, the parent educator can only be reported as course code 887800. The district will need to report a second individual as course code 887897 who will provide supervision to the parent educator.

Parent Educator Staff Assignment Report: Parent educators must be Appropriately Certified on the Staff Assignment Report. (See Exhibit 33 for detailed information on the verification process.)

Exhibit 19 – Special Education Placement Category Codes
Educational Environments
(Screen 11)

Early Childhood Educational Environments – Ages 3-5

- 00A4 **In regular early childhood program 10+ hours and receives majority of sped services in regular program** – Children with disabilities receiving the majority of hours of special education and related services in the regular early childhood program, and the child attends a regular early childhood program at least 10 hours per week.
- 00A5 **In regular early childhood program 10+ hours and receives majority of sped services in another location** – Children with disabilities receiving the majority of hours of special education and related services in some other location, and the child attends a regular early childhood program at least 10 hours per week.
- 00A6 **In regular early childhood program less than 10 hours and receives majority of sped services in regular program** – Children with disabilities receiving the majority of hours of special education and related services in the regular early childhood program, and the child attends a regular early childhood program less than 10 hours per week.
- 00A7 **In regular early childhood program less than 10 hours and receives majority of sped services in another location** – Children with disabilities receiving the majority of hours of special education and related services in some other location, and the child attends a regular early childhood program less than 10 hours per week.
- 00B1 **Separate Class** – Children with disabilities who receive special education and related services while attending a special education program in a class with less than 50 percent non-disabled children. Do not include children who also attend a regular early childhood program.
- 00B2 **Separate School** – Children with disabilities who receive special education and related services in public or private day schools designed specifically for children with disabilities. Do not include children who also attend a regular early childhood program.
- 00B3 **Residential Facility** – Children with disabilities who receive special education and related services in publicly or privately operated residential schools or residential medical facilities on an inpatient basis. Do not include children who also attend a regular early childhood program.
- 00B4 **Home** – Children with disabilities who receive special education and related services in the principal residence of the child’s family or caregivers, and who did not attend an early childhood program or a special education program provided in a separate class, separate school, or residential facility. Include children who receive special education both at home and in a service provider location. The term caregiver includes babysitters.
- 00B5 **Service Provider Location** – Children with disabilities who receive all of their special education and related services from a service provider, and who did not attend an early childhood program or a special education program provided in a separate class, separate school, or residential facility. For example, speech instruction provided in private clinicians’ offices, clinicians’ offices located in school buildings, hospital facilities on an outpatient basis, and libraries and other public locations. Do not

include children who also receive special education at home. Children who receive special education both in a service provider location and at home should be reported in the Home category.

School Age Educational Environments – Ages 5K-22

- 1100 **Inside the regular class 80 percent or more of the day** – Students with disabilities who are inside the regular classroom for 80 percent or more of the school day. These are students who receive special education and related services outside the regular classroom for less than 21 percent of the school day. This may apply to students with disabilities placed in:
- Regular class with special education/related services provided within regular classes,
 - Regular class with special education/related services provided outside regular classes,
 - Regular class with special education services provided in resource rooms.
- This could include students with disabilities placed in an alternative school program with non-disabled peers. Do not include students with disabilities who are parentally placed in private schools to whom the public district is providing special education and related services – see code 2100.
- 1201 **Inside regular class no more than 79 percent of the day and no less than 40 percent of the day** – Students with disabilities who are inside the regular classroom between 40 percent and 79 percent of the day. These are students who receive special education and related services outside the regular classroom for at least 21 percent but no more than 60 percent of the school day. This does not apply to students who are receiving education programs in public or private separate schools or residential facilities. This may apply to students placed in:
- Resource rooms with special education/related services provided within the resource room,
 - Resource rooms with part-time instruction in a regular class.
- This could include students with disabilities placed in an alternative school program with non-disabled peers. Do not include students with disabilities who are parentally placed in private schools to whom the public district is providing special education and related services – see code 2100.
- 1301 **Inside regular class less than 40 percent of the day** – Students with disabilities who are inside the regular classroom less than 40 percent of the school day. These are students who receive special education and related services outside the regular classroom for more than 60 percent of the school day. This does not apply to students who are receiving education programs in public or private separate schools or residential facilities. This may apply to students placed in:
- Self-contained special classrooms with part-time instruction in a regular class,
 - Self-contained special classrooms with full-time special education instruction on a regular school campus.
- This could include students with disabilities placed in an alternative school program with non-disabled peers. Do not include students with disabilities who are parentally placed in private schools to whom the public district is providing special education and related services – see code 2100.
- 1401 **State Operated Separate School** – This category should only be used by Missouri School for the Blind, Missouri School for the Deaf, and State Schools for the Severely Handicapped. Regular districts should no longer report resident students who are attending these state-operated programs.
- 1402 **Private Separate (Day) Facility** – Students with disabilities who receive all of their special education and related services at public expense for greater than 50 percent of the school day in private separate facilities. This includes students with disabilities who are served by a private educational agency other

than a parochial school. This includes those approved private agencies with which districts contract to provide special education services to students within their district.

- 1403 **Public Separate (Day) Facility** – Students with disabilities who receive all of their special education and related services for greater than 50 percent of the school day in public separate facilities. This includes those students with disabilities placed by the IEP team in a segregated facility operated by a public school. This does not include residential facilities and does not encompass facilities that include non-disabled students such as alternative school programs.

- 1601 **Homebound/Hospital** – Due to student's illness, medically fragile condition, or a disciplinary suspension, the student receives special education at home or in a hospital via a visiting teacher or telephone instruction based on the student's IEP.

- 1701 **Private Residential Facility** – Children with disabilities who receive all of their special education and related services at public expense for greater than 50 percent of the school day in private residential facilities who are **placed by the public school IEP team**. This does not include students living in private residential facilities but attending public schools.

- 1801 **Correctional Facility** – Students with disabilities who receive all of their special education and related services in a correctional facility. This includes those students in the city/county jail and short-term detention facilities.

- 2100 **Parentally-Placed Private School Children** – Students with disabilities who are parentally-placed in private schools, including home schools, and are receiving special education and related services from the public school.

**Exhibit 20 – Special Education Exit Categories Codes
(Screen 12)**

<u>Code</u>	<u>Exit Category – Ages 3-21</u>
01	Returned to Regular Education (valid ages 3-21) – Students who were served in special education during the school year but returned to regular education as a result of having met the objectives of their IEP. These students no longer have an IEP and are receiving all of their educational services from the regular education program.
17	Parent Withdrew Student from Special Education (valid ages 3-21) – Students who had received special education services during the school year and whose parents withdrew the student from the special education program.

Note: Only Exit Codes 01 (Return to Regular Education) and 17 (Parent Withdrew Student) are reported in the MOSIS Student Core file in the SPED Program Exit Code field (MOSIS column name SPEDExit). All other exit codes displayed on Screen 12 are populated using the final exit codes reported in the MOSIS Student Enrollment and Attendance file.

Exhibit 21 – Student Residency Status

Resident I

Students attending school in the district, including Division of Youth Services (DYS), Missouri School for the Blind (MSB), Missouri School for the Deaf (MSD), and Missouri Schools for the Severely Disabled (MSSD), where they reside (reported by the district where they are enrolled as R1).

- Regular students – Including employee's child, foster child, homeless child, full-time virtual students attending a MOCAP host district, Voluntary Transfer Student (VTS)
- Charter schools
- Job Corps sites (federally operated program)
- Juvenile detention centers (publicly placed)
- Students receiving special education services in St. Louis County
 - St. Louis County component districts (county-district code begins with 096)
 - St. Louis Special School District (SSD) self-contained buildings
 - SSD vocational school full-time students
- State operated schools
 - DYS
 - MSB
 - MSD
 - MSSD

Resident II Public (Non-Resident – NR)

Students residing in one district but attending school in another Missouri district, for which the resident district is paying full tuition (reported by the Missouri district where they are enrolled as NR). For early childhood children receiving services from a nonresident district (including ECSE), the attending district should report the children as non-residents (NR) and report the domicile district in the resident district field.

- High school students from K-8 districts
- Students from unaccredited school districts
- District paid tuition in situations such as
 - Hardship transfers
 - Educational contracts (excluding cooperative agreements)

Resident II Private

Students residing in one district but attending school in another approved facility for which the resident district is paying full tuition (reported by the resident district as R2).

- Students attending a private facility

Resident I – Cooperative Agreements

Students residing in one district but attending school in another district with a negotiated payment structure in place. The district where the student attends provides the Student Core and Student Enrollment and Attendance data to the district of residence which then reports that data to the Department as an R1 student. October Educator Core, Educator School, Course Assignment, and Student Assignment data, as well as June Course Completion data, are reported by the district where the student attends.

- Alternative school programs
- Area career centers
- Special ed co-ops/special ed collaborative
- Virtual course provider that is an LEA – direct agreement
- Other cooperative agreements

Paying Tuition

Students attending school in a district other than where they reside and tuition is paid to the attending district by the parents/guardian or entity other than a Missouri public school district. Note: Districts do not receive state aid for students that are not residents. (Reported by the district where they are enrolled as PT.)

The following scenarios illustrate models for reporting Student Core records as related to the student residency status:

Student Residency Status	Reporting District Code	Attending District Code	Resident District Code	Scenario
Resident I (R1)	A	A	A	Student resides in and attends school in District A. District employee students are Resident I.
Resident II (R2) attending non-public or private school	A	Private	A	Student resides in District A and attends non-public or private school. District A pays tuition.
Resident II (NR) attending public school	B	B	A	Student resides in District A and attends school in District B. District A pays full tuition. District B reports student as NR.
Non-Resident (NR)	B	B	A	Student attends school in District B and lives outside of the attending district in another Missouri District A. The attending District B receives full tuition from the Missouri resident District A.
Desegregation Inbound (DI)	A	A	B	A desegregation student attends school in District A sent from resident District B. Both districts were previously operating under a court-ordered desegregation.
Parent Tuition (PT)	A	A	B	Student attends reporting District A but resides outside of the attending district. Tuition is paid to attending district by parents/guardian or entity other than a Missouri public school district.
Federal Lands (FL)	A	A	A	Student is a Federal Lands student.

**Exhibit 22 – Attendance Center Numbers
(Screen 08)**

Department-Assigned School Number	Attendance Centers Identified
1000	Central office administrative personnel
1010	Special education cooperatives
1015	County juvenile detention centers
1020	Special centers where attendance is reported at another building, such as alternative schools, gifted centers, etc. (For historical purposes only; DESE no longer assigns this building code.)
1030	Residential treatment centers
1050-1099, 1200-1999	High schools (typically grades 9-12 but may include grades 7-12)
1100-1199, 0000	Area career centers
2000-2999	Junior high schools (any combination that includes departmentalized grades 7-9)
3000-3999	Middle schools (any combination that includes grades 4-8 and is at least partly departmentalized)
4000-6999 (except 6010-6015)	Elementary schools (any combination that includes grades K-8)
6010-6015	Hospitals
7000-9989 (except 7010 and 7500-7999)	Specific external locations for St. Louis County Special School District
7010	Schools for severely disabled students operated by a local school district
7500-7999	Preschool attendance centers
8000	Host public school district, charter school, or higher education institution per § 161.570, 1(5)
9990	External locations used by Pemiscot County Special School District, St. Louis County Special School District, and St. Louis City Public Schools to report teachers located in various surrounding districts

Exhibit 23 – Career Education IEP and Disadvantaged Students (Screens 20 and 26)

Students with Disabilities

An IEP student is a student with a disability as prescribed by the Individuals with Disabilities Education Act (IDEA) who by reason thereof received special education services as outlined in an Individualized Education Program (IEP). *See Exhibit 18 for a list of disability categories.* IEP students do not include individuals who are considered to have a disability solely under Section 504 of the Rehabilitation Act of 1973.

Disadvantaged Individuals

The term disadvantaged means individuals (other than disabled individuals) who have economic or academic disadvantages and who require special services and assistance in order to enable them to succeed in career education programs. The term includes individuals who are members of economically disadvantaged families, migrants, individuals who have Limited English Proficiency (LEP), and individuals who are dropouts from, or who are identified as potential dropouts from, secondary school.

Academically disadvantaged individual means an individual who scores below the 25th percentile on a standardized achievement or aptitude test, whose secondary school grades are below 2.0 on a 4.0 scale (where the grade “A” equals 4.0), or who fails to attain minimal academic competencies.

Economically disadvantaged family or individual means a family or an individual who is determined by the eligible recipient to be low-income according to the latest available data, such as AFDC, free or reduced lunch, or Pell Grant.

Limited English Proficiency (LEP) is defined as an individual who has limited ability in speaking, reading, writing, or understanding the English language, and whose native language is a language other than English; or who lives in a family or community environment in which a language other than English is the primary language.

Exhibit 24A – How to Determine the Length of School Day (Screen 10)

The Standard Day Length is reported on Screen 10 as a decimal equivalent. This can be calculated by determining the number of minutes in the standard day length and dividing that by 60.

An Excel calculation tool is available on the School Finance website under Calculation Tools in the Miscellaneous Tools section. This tool can be accessed [here](#).

Example:

A start time of 8:00 AM and dismissal time of 3:10 PM equals 7 hours and 10 minutes.

Then 7 hours and 10 minutes minus 30 minutes for lunch equals 6 hours and 40 minutes.

Next 6 hours and 40 minutes minus 3 minutes for extra passing time due to lunch equals 6 hours and 37 minutes.

Finally, 6 hours and 37 minutes equals 397 minutes. $397/60 = 6.616666$ hours which would be rounded to the fourth decimal place and reported on Screen 10 as 6.6167 in the Standard Day Length.

Exhibit 25 – Reporting Guidelines for State-Approved Gifted Programs (Screens 18 and 20)

All educators participating in gifted programs are displayed on Core Data screens 18 and 20. The following guidelines explain the reporting requirements for MOSIS that are unique to educators in state-approved gifted programs.

Course Number

The course code for a State-Approved Gifted Education class is 990808.

Program Code

Program code 08 is only used to identify course assignments in state-approved gifted programs.

Delivery System

Course assignments for gifted programs should be reported using the following delivery system codes:

- Delivery System PU – Class contact time in a resource room for a school-based program.
- Blank – Class contact time either in a resource room or special class for a center-based program.

Enrollment

Enrollment (ENR) is the caseload (unduplicated count) for each gifted class reported for an educator.

Exhibit 26 – Sending School Tables

Data entered in the October Course and Student Assignment files in MOSIS are used to populate Core Data Screen 22. The following scenarios include data reported by the home/sending district, and the receiving district or area career center district. Each scenario uses the following to represent the **county-district code number** for the reporting and sending district:

- **AAA-AAA** – The home/sending district in which the student is enrolled.
- **BBB-BBB** – The receiving district or area career center in which the student receives instruction.

Dual credit and dual enrollment students are identified using the following definitions:

- **Dual Credit** – Earning both high school and college credit by receiving instruction from a high school instructor.
- **Dual Enrollment** – Earning both high school and college credit by receiving instruction from a college instructor.

Exhibit 27 – Reporting Guidelines for Career Education (Screens 18 and 20)

The nine career education program areas within the Office of College and Career Readiness are the following:

- 01-04 Agricultural Education – AGR
- 02-04 Business Education – BUS
- 03-04 Cooperative Education – CCE
- 04-04 Marketing Education – MRKT
- 05-04 Health Sciences – HLTH
- 07-04 Family Consumer Sciences and Human Services – FCS
- 08-04 Skilled Technical Sciences – STS
- 10-04 Technology and Engineering Education – TENG

All courses/programs approved by AGR, BUS, CCE, MRKT, HLTH, FCS, STS, and TENG are considered to be occupational career education courses/programs. Therefore, a follow-up must be performed on each student 180-days after their high school graduation and reported on screens 26 and 27 in Core Data. Students included in the 180-day follow-up make up a district's career education completers and placement figures for the Missouri School Improvement Program (MSIP) with the exception of Agriculture Science I and II. While the Division of Career Education requires the follow-up of graduates of Agriculture Science I and II, the MSIP excludes them.

Instructors teaching the courses under Project Lead the Way (PLTW) Engineering and the four PLTW Biomedical courses (course codes 0704--) under the Health Occupations course code category must complete the appropriate PLTW Summer Institute.

The approval process varies among the program areas – some are approved by course and others are approved by the program. A report of approved courses/programs for your district by building and program type can be obtained by clicking on the Approved Courses button on screens 18 or 20 or via the Reports Menu by selecting Special Reports.

Only exploratory courses taught at the ninth-12th grade level are considered approved career education courses. Seventh and eighth grade exploratory courses are not considered career education courses and should not be reported with a program type. Program approval was previously indicated by reporting a 01 in the PR column on Screen 20. Program approval is now automatically displayed by the system based on the Approved Courses report.

Area career centers may report courses by semester rather than yearlong courses (*see Example 4 of this exhibit*). This allows area career centers to report separate enrollment numbers for second semester. Second semester enrollment numbers may be entered initially as estimated numbers and updated once the second semester begins.

Example 1: Displays how to properly report an agriculture education teacher with career education certification who teaches some approved career education courses.

Exhibit 28 – Reporting Guidelines for Supervised Employment (Screen 20)

When reporting supervised employment in the MOSIS system, the following course codes are used:

016780	Supervised Ag Cooperative Experience
034380	Supervised Business Experience
040080	Supervised Marketing Experience
040081	Supervised CCE Experience
096839	Family & Consumer Sciences, Coop Education
170090	Trade & Industrial Supervised Employment

Use one line of teacher assignment for students enrolled for two (2) units of credit in supervised employment, and a second line for students enrolled for one (1) unit of credit with the total minutes of instruction for all supervised employment lines divided equally appropriately.

Example 1: The teacher has 45 students enrolled in the cooperative education component of a marketing program – 25 students are enrolled for two units, 20 for one unit. Following policy for teacher supervision time, the teacher has a total of 750 minutes per week for supervision.

Course Code/Name	Minutes	Combined Course	Credits	Enrollment
040080 SV MKT EMP	375	1	2	25
040080 SV MKT EMP	375	1	1	20

Example 2: The teacher has 15 students enrolled in the cooperative education component of a COE program – 10 students are enrolled for two units, five for one unit. The teacher has 250 minutes per week for supervision.

Course Code/Name	Minutes	Combined Course	Credits	Enrollment
040081 SV CCE EMP	125	1	2	10
040081 SV CCE EMP	125	1	1	5

Note: Course codes associated with educator supervision time are not used to report supervised employment courses with student enrollment. An example is 016785 – Supervised Agriculture Experience – Supervision is used to report educator time, not account for time students are receiving instruction.

Exhibit 29 – Reporting Guidelines for School Age Community/Afterschool Programs (Screens 18 and 20)

School Age Community/Afterschool (SAC/A) programs are defined as those programs providing a safe, caring, and nurturing place for social, recreational, and personal life skills development for students during non-school hours. SAC/A programs are not a continuation of the school day, but extend and enrich the opportunities for experiential learning, social development, and recreation. They incorporate a strong partnership of school, family, and community members that collaboratively contribute to the growth of students as they mature into caring, competent, and responsible adults. Although the programs are called by a variety of names – Latchkey, Afterschool, Before School, Extended Day, SAC, 21st CCLC, School Age Child Care, Adventure Club, Prime Time, etc. – they all provide school age youth a safe place to be during non-school hours and during that time offer a variety of program choices that are balanced between academic, social, and recreational.

All School Age Community/Afterschool (SAC/A) programs should be reported in Core Data. If the programs receive special funding such as Child Care Development Fund/School Age Community or 21st Century Community Learning Centers, they are reported following the guidelines established by those sections. School Age Community/Afterschool programs funded by the district should also be listed, and if they are tuition-based that should be indicated in the Comments area.

School – School Age Community/Afterschool (SAC/A) staff are reported in the building where they have duties or in building 1000.

Salary – Salary is reported as regular term salary (even if outside the regular school day) unless the total FTE would exceed 1.00. The salary for the portion of time exceeding the 1.00 FTE should be reported as extra duty pay and an entry should be made in Comments to explain. Salary may be estimated if necessary.

FTE – Includes all time spent, including time spent outside the regular school day, up to a total of 1.00 FTE. The portion of time exceeding 1.00 FTE is reported in the Comments section.

Grade Level – Reported as for regular school day.

Minutes per Week – Reported for all assignments (may be estimated initially and then revised).

Pos Code – Position code of educator's assignment (*see Exhibit 3*). Staff who are employed for other assignments during the school day may be reported using the same position code for SAC/A. An educator who supervises SAC/A staff is reported as a supervisor with position code 30. If part of the time is actually working with students, a separate assignment should be reported using the appropriate codes. Staff members responsible for supervision of students are reported with position code 60 and staff members which assist are reported with position code 80.

Course Number – 880020. School Age Community/Afterschool (SAC/A).

PR – Program code that identifies special funding (*see Exhibit 13*).

- 25 Child Care Development Fund (CCDF)/School Age Community
- 26 21st Century Community Learning Centers (21st CCLC)

Enrollment – The number of students served by the SAC/A staff member.

DS – Delivery system indicates the instructional delivery method (*see Exhibit 14*).

- BE Before School/Every Day
- BS Before School/Some Days
- AE After School/Every Day
- AS After School/Some Days

**Exhibit 32 – Safe Schools Violations
(Screen 08)**

Safe Schools Violations, as listed below, are those offenses committed on school property (which include but are not limited to school buses or school activities) that would require school administrators to, as soon as reasonably practical, notify the appropriate law enforcement agency pursuant to Section 160.261, RSMo. The total number of these offenses are reported by the school district on Core Data Screen 08 in the June Cycle. The following are the specific safe schools violations:

- (1) First degree murder under section 565.020;
- (2) Second degree murder under section 565.021;
- (3) Kidnapping under section 565.110 as it existed prior to January 1, 2017, or kidnapping in the first degree under section 565.110;
- (4) First degree assault under section 565.050;
- (5) Rape in the first degree under section 566.030;
- (6) Sodomy in the first degree under section 566.060;
- (7) Burglary in the first degree under section 569.160;
- (8) Burglary in the second degree under section 569.170;
- (9) Robbery in the first degree under section 569.020 as it existed prior to January 1, 2017, or robbery in the first degree under section 570.023;
- (10) Distribution of drugs under section 195.211 as it existed prior to January 1, 2017, or manufacture of a controlled substance under section 579.055;
- (11) Distribution of drugs to a minor under section 195.212 as it existed prior to January 1, 2017, or delivery of a controlled substance under section 579.020;
- (12) Arson in the first degree under section 569.040;
- (13) Voluntary manslaughter under section 565.023;
- (14) Involuntary manslaughter under section 565.024 as it existed prior to January 1, 2017, involuntary manslaughter in the first degree under section 565.024, or involuntary manslaughter in the second degree under section 565.027;
- (15) Second degree assault under section 565.060 as it existed prior to January 1, 2017, or second-degree assault under section 565.052;
- (16) Rape in the second degree under section 566.031;
- (17) Felonious restraint under section 565.120 as it existed prior to January 1, 2017, or kidnapping in the second degree under section 565.120;
- (18) Property damage in the first degree under section 569.100;
- (19) The possession of a weapon under chapter 571;
- (20) Child molestation in the first degree pursuant to section 566.067 as it existed prior to January 1, 2017, or child molestation in the first, second or third degree pursuant to section 566.067, 566.068 or 566.069;
- (21) Sodomy in the second degree pursuant to section 566.061;
- (22) Sexual misconduct involving a child pursuant to section 566.083;
- (23) Sexual abuse in the first degree pursuant to section 566.100;
- (24) Harassment under section 565.090 as it existed prior to January 1, 2017, or harassment in the first degree under section 565.090; or
- (25) Stalking under section 565.225 as it existed prior to January 1, 2017, or stalking in the first degree under section 565.225

Exhibit 33 – Appropriate Certification Requirements

Staff Assignment Report

The Staff Assignment Report is available through the Core Data System [Reports, Special Reports, Staff Assignment Report] or through Educator Qualifications [Report Menu, Staff Assignment Report]. The Staff Assignment Report provides a list indicating the appropriate certification of educators in relation to the courses assigned to them.

Appropriate Certification

The Missouri School Improvement Program (MSIP) states that all administrators and teachers must be appropriately certificated for their assignments in accordance with the guidelines contained in Exhibit 10 of the Core Data and Missouri Student Information System (MOSIS) Reference Manual.

A substitute teaching certificate is the minimum certification required for collection of state aid (ADA); however, a substitute certification is not considered appropriately certified. Where Exhibit 10 of the Core Data/MOSIS manual says “Any certificate...” it is referring to any teaching certificate exclusive of the substitute certificate.

Appropriate Certification (AC) status codes are displayed in the AC column in the Staff Assignment Report and indicate the certification status as follows:

- Y – The educator is appropriately certificated.
- N – The educator is not appropriately certificated.
- Blank – The assignment was not evaluated.
- Valid – A Missouri certificate that is active and not expired.
- Appropriate – A Missouri certificate that is both at the proper grade level and subject area for the course being taught by the educator.

The Staff Assignment Report indicates if educators are appropriately certificated for their assignments. Messages that display when an educator is not appropriately certificated for an assignment follow:

Not Appropriately Certificated Messages		
Message	Description	Notes
Inapprop Subj	Inappropriate certificate subject area	See Core Data and MOSIS Reference Manual Exhibit 10 for certification requirements.
Inapprop Gr	Inappropriate certificate grade level	Grade level of certificate does not align with grade level of assignment.
Cert Inact	Certificate inactive	Certificate was not active for the school year (or summer school session).
Inapprop Cert	Inappropriate certificate for more than one reason	Certificate is not valid due to subject area, grade level and/or is not active.
Spv App Req	Supervisor approval required	See below.
Training Rqd	Training required	See below.
Adv Degr Rqd	Advanced degree required	See Core Data and MOSIS Reference Manual Exhibit 10 for advanced degree requirements.
License Req	Assignment requires licensure	See below.
No Para Qual	Paraprofessional does not have required qualifications	See below.
Sub Cert	Educator has only substitute certification	Educator is not appropriately certificated due to only having a substitute certificate.
No Cert	Educator has no certification	Educator is not appropriately certificated due to having no active certificate.

Supervisor Approval Required: There are some situations where the Staff Assignment Report program is not able to determine if educators are appropriately certificated for their assignments. These assignments appear on the Staff Assignment Report with AC = N and AC message of “Spv App Req.” In these cases, Department Area Supervisors must annually review the educator’s qualifications and assignment to make the determination.

Other Pupil Personnel (Course Code 887900) assignments require annual Supervisor approval. The educator’s assignment is considered along with degrees/licensure/certifications and years of experience. Common assignments reported as Other Pupil Personnel and possible qualifications for the assignments follow. The qualifications listed are guidelines and not requirements.

Music Therapist

- Music Therapist – Board Certified (MT-BC)

Recreational Therapist

- Certified Therapeutic Recreation Specialist (CTRS)

The following assignments may also require annual Supervisor review to determine if the educator is qualified for the assignment:

- 054890 Family Literacy,
- 060099 Other World Language,
- 887700 Applied Behavior Analysis,
- 889650 Language Translator,
- 996000 Academic Program, Related On-Campus Instruction, and
- 996001 Academic Program, Off-Campus

Districts are to contact their Area Supervisor to request review of these educators. The request is to include educator name, course code and course name, job description, and the certificates or qualifications the educator has for the assignment. If the educator’s qualifications are appropriate, the Area Supervisor is to notify the district and Federal Programs at webreplyfedpro@dese.mo.gov. Federal Programs will then update the Staff Assignment Report to indicate the educator has been granted a one-year approval for the assignment.

Training Required:

Reading Recovery and Early Literacy/Small Group Intervention Instruction Teachers – Reading Recovery teachers must receive the annual Reading Recovery professional development/training. Early Literacy/Small Group Intervention Instruction teachers must have completed the Reading Recovery and the Early Literacy/Small Group Intervention Instruction trainings. Reading Recovery Teacher Leaders supply documentation annually that training has been completed. If Federal Programs does not have documentation of the required training for an educator, the educator is not considered appropriately certificated and the message “Training Req” displays. Questions can be directed to webreplyfedpro@dese.mo.gov.

Project Lead the Way (PLTW) Teachers – Several courses require educators to attend an approved PLTW training program. If Office of College and Career Readiness (OCCR) does not have documentation of PLTW training for an educator, the educator is not considered appropriately certificated and the “Training Req” message displays. When evidence of training is provided to OCCR, the Staff Assignment Report will be updated. Questions can be directed to webreplyvae@dese.mo.gov.

License Required: Several assignments require licensure issued by the Division of Professional Registration rather than Department certification. These include, but are not limited to, the following:

- 889000 Speech/Language Pathologist
- 889100 Audiologist
- 889300 Occupational Therapist
- 889400 Physical Therapist
- 889600 Interpreter for Deaf

DESE conducts periodic checks for licensure through Professional Registration. If DESE is unable to find evidence of an appropriate license for an educator, the educator is not considered appropriately certificated and the message “License Req” displays. Questions regarding licensure should be directed to Special Education Data at speddata@dese.mo.gov.

Parent Educators (887800) are required to be appropriately certified. They must be listed by the Parents as Teachers National Center (PATNC) as Model Certified with current curriculum subscription(s) and reported on the October Cycle of Core Data. DESE conducts periodic checks beginning in November for appropriate certification. If DESE is unable to confirm your parent educator’s certification with the PATNC, the message “License Req” will display. Questions regarding this should be directed to the Office of Childhood at HomeVisiting@dese.mo.gov.

No Paraprofessional Qualifications: Instructional paraprofessionals, based on program and/or funding requirements, are required to have a minimum of 60 college hours or have passed the ParaPro Praxis Assessment or completed the 20 Hour Substitute Certificate Course. This information is reported by districts in the Highest Degree field in the October MOSIS Educator Core file.

Exhibit 34A – Dual Credit/Dual Enrollment

Dual credit and dual enrollment are reported in the Dual Credit Site field in the Student Assignment file. Dual credit refers to instruction being provided by a high school teacher who has been approved to teach a college-level class. This is reported with DIST in the Dual Credit Site field. If a college professor is providing the instruction, this would qualify as dual enrollment; report this with COLL in the Dual Credit Site field. If a district is utilizing ITV, this should be reported as ITV in the Dual Credit Site field. Only colleges that are approved by the coordinating board of higher education should be reported as dual credit. A list of Department of Higher Education & Workforce Development-approved dual credit providers may be found [here](#).

Examples

The examples on the following two pages can assist with coding decisions for the most common dual credit and dual enrollment reporting scenarios, but do not cover every possible configuration. If you have questions about a specific reporting scenario, please call the Department at 573-522-3207, option 2.

Each scenario uses the following to represent the **county-district code** for the reporting and sending district:

- **AAA-AAA** – The home/sending district in which the student is enrolled.
- **BBB-BBB** – The receiving district or area career center in which the student receives instruction.

Exhibit 34B – MOCAP

The Missouri Virtual Instruction Program (MOVIP) transitioned to the Missouri Course Access and Virtual School Program (MOCAP) as a result of updates to Section 161.670, RSMo. Information about state funding for students enrolled in virtual education can be found in Section 162.1250, RSMo. Missouri students may enroll in MOCAP courses for the fall and spring semesters.

What is a MOCAP Course?

Section 162.1250, RSMo, sets out the requirements for all virtual courses. Not all virtual courses are approved MOCAP courses. Courses listed on the MOCAP Course Catalog have been checked for compliance by DESE. The LEA must vet all other virtual courses to ensure that statutory requirements have been met.

MOCAP courses have been through a stringent review process, including the following:

- Course alignment to Missouri Learning Standards
- Web Content Accessibility Guidelines (WCAG 2.0)
- Data security review
- Missouri appropriately certificated teachers
- College Board approval of AP courses in the catalog

MOCAP providers have agreed to the following:

- Reporting requirements (including course completion and learning gains)
- Invoicing requirements
- A per-course price cap of 7 percent of the State Adequacy Target (SAT) per semester and 14 percent per year, or not more than the SAT for full time enrollment

August Cycle Core Data, Screen 03

The MOCAP Facilitator contact entered on Screen 03 will receive information about MOCAP appeals and updates to the program. Please ensure this contact is accurate. It is critical that this information is always current.

Reporting for Virtual Education in MOSIS

- MOCAP requires that all teachers be appropriately certificated. Attendance hours for any educator without a valid Missouri teaching certificate will not be allowed for state aid purposes.
- Virtual courses will use Exhibit 34 – Instruction via Technology for delivery systems.

MOCAPI in MOSIS**

- LEAs will identify MOCAP Instruction courses with MOCAPI in the Virtual Instruction field and V in the Course Delivery System field in the MOSIS October Course Assignment or June Summer Course Assignment.
- For courses identified with MOCAPI and delivery system V, the educator does not need to be reported because the appropriate certification has already been verified by MOCAP.
- LEAs with a direct partnership, memorandum of understanding (MOU), or district site license will not use MOCAPI, even if the provider is approved through MOCAP.

MOCAPC – Curriculum Only in MOSIS**

- LEAs will identify MOCAP Curriculum Only courses with MOCAPC in the Virtual Instruction field and V in the Course Delivery System field in the MOSIS October Course Assignment or June Summer Course Assignment.

- For MOCAP Curriculum Only courses, the LEA must use an appropriately certificated teacher.
- For courses that do not have a MOCAP teacher, the LEA will report educator information in the MOSIS October Educator Core and Educator School files.
- If an LEA does not have an appropriately certificated teacher, the course cannot be reported as a MOCAP course. Therefore, leave the Virtual Instruction field blank.

When Reporting MOCAPI or MOCAPC**

- **LEAs must use a course name and number from the [MOCAP Course Catalog](#).**
- Check the course catalog regularly for updates, as courses can be added or removed from one semester to the next.
- Contact DESE's MOCAP office for confirmation before using MOCAPC; curriculum-only MOCAP courses are rare.
- Do not report At-Risk (994210), Academic Program Off-Campus (996001), or Study Hall (999999). These courses are not in the MOCAP Course Catalog.

Direct Partnerships

- In a direct partnership with Launch, LEAs will not report course or student assignments for Launch courses; Launch will report this data on LEAs' behalf in the October and June cycles.
- For all other direct partnerships, MOUs, or district site licenses, please check with the virtual provider to confirm reporting details in the agreement.

LEAs as Courseware Providers That are NOT in the MOCAP Course Catalog

- Section 162.1049, RSMo, requires that a nonresident district and resident district shall accept each other's credits.
- LEAs may develop and provide online courses for other LEAs if standards in Section 162.1250, RSMo, have been met.
- When purchasing virtual education from a Missouri LEA, the educating LEA (receiving) must coordinate with the sending LEA (where the student is enrolled) under the Cooperative Agreement – Resident I.
- These are not MOCAP courses, so do not report anything in the Virtual Instruction field; enter only the delivery system from Exhibit 34.

Virtual Providers That are NOT in the MOCAP Course Catalog

- LEAs may use commercial virtual providers that have not been vetted through MOCAP; however, the LEA is responsible for ensuring that statutory requirements have been met.
- LEAs will input the teacher of record for virtual courses that are not MOCAP approved.
- Virtual courses that are dual enrollment do not require the instructor to be reported.
- A MOCAP provider may also offer additional courses that are not MOCAP approved and cannot be reported with MOCAPI or MOCAPC. Leave the Virtual Instruction field blank and enter the delivery system according to Exhibit 34 of S for Electronic Media or V for Virtual in the October Course Assignment.

Attendance and Course Completion

- Attendance hours for any educator without a valid teaching certificate will not be allowed for state aid payment purposes.
- In no case shall more than the full-time equivalency of a regular term of attendance for a single student be used to claim state aid.

MOCAP Host District Scenario

We are an approved MOCAP provider. We have out-of-district students and in-district students taking these courses. How should we report these courses for both our students and MOCAP students? Do the courses need to be broken up and reported as MOCAP for out-of-district students and just virtual for our students? Or do we report the course as MOCAP for all students? Do we use school code 8000 for all of the courses or just for out-of-district students?

	District	School Code	Virtual Instruction	Delivery System
Student A taking online MOCAP kindergarten course	Out of district	8000	MOCAP	V
Student B taking online MOCAP kindergarten course	In district	4020 (example elementary school code)	Blank	V

For further guidance on MOCAP host districts, please visit <https://mocap.mo.gov/>. Exhibit 6 in this manual also provides guidance on MOCAP transfer codes T110, T111, T010, and T011.

Exhibit 35 – Reporting Educators

The following scenarios illustrate models for reporting Educator Core and Educator School records:

Scenario	Reporting District	FTE and Regular Term Salary Reported
Scenario 1: Educator employed by one district.	Paying district	<ul style="list-style-type: none"> FTE = full or prorated Salary = actual paid Fiscal Agent = paying district
Scenario 2: Educator shared across districts and only one district pays the educator.	Paying district	<ul style="list-style-type: none"> FTE = full or prorated Salary = actual paid Fiscal Agent = paying district
	Each non-paying district	<ul style="list-style-type: none"> FTE = zero Salary = zero Fiscal Agent = paying district

Exhibit 37 – Core Data Screen and MOSIS File Crosswalks

The following charts display the data requirement for each field in the MOSIS file. Months represent the different cycles the data are collected throughout the year.

The Collection Item column contains a list of all the items collected in the order that they appear in the MOSIS file with the identifying item number in parenthesis.

The Data Requirements column represents by cycles when an item is R (required), C (conditional), O (optional), or N (not allowed). Definitions of fields are as follows:

Required – Item must be submitted in current cycle.

Optional – Item does not have to be submitted in current cycle.

Conditional – Item may need to be submitted in current cycle if certain conditions exist.

Not Allowed – Item cannot be submitted in current cycle.

Under the Core Data Screen Populated column is information indicating what the data item is used for. Uses may include population of a Core Data screen and/or for state and federal reporting needs.

Exhibit 39 – After-School Tutoring

After-school tutoring is required to be reported in the MOSIS October Assignment file. After-school tutoring is to be provided by a certificated teacher to small groups of students. Report the appropriate course code, weekly minutes, average weekly number of students (caseload), program code to identify the funding source, and delivery system “H” for before or after-school tutoring (*see example below*). The “H” delivery system will not increase the teacher’s total instructional minutes. The Extra Duty Salary amount is reported in October Educator file for this assignment and may be revised at the end of the school year to reflect the correct amount.

When after-school tutoring is offered for a core academic class, educators are required to meet the same appropriate certification requirements as classes offered in a more traditional manner. The example below illustrates this.

Example – After School Tutoring

Educator	Course	Course Name	Delivery System	Minutes	Program Code	Certification
Jones, Joe	054891	Supplemental English Language Arts	H	60		Appropriate Grade Level & Subject Area Certification
